

IS THE BEST WATER LAW.

(Continued from first page.)

the licensing and regulation of future water users for power. It requires future appropriators to pay a license of not less than 25 cents nor more than \$2 per theoretical horsepower, depending on the amount of the power appropriated that is put to beneficial use. The provisions of this bill will not apply to the power plants already in existence or to rights which are already initiated. The law is intended to be so framed as to be just and equitable to all, no matter what the conditions.

If power is delivered by means of a long transmission line, occasioning considerable loss, the annual fee per horsepower would be less than would be assessed in case the power was utilized at the plant. The amount of power put to beneficial use will be considered as the amount actually furnished the consumer, and not necessarily the amount that is generated at the plant.

This is one of the few revenue producing bills that originated in the house and was passed by the senate and in time will probably be a source of considerable revenue, as it has been estimated that Oregon streams will furnish 3,317,000 horsepower, less than one per cent of which is developed.

Married.

In Bend, Oregon, on Wednesday, March 3, at 10:30 o'clock, Mr. Elmer A. Cast to Miss Ana Phillips, Rev. J. Anthony Mitchell, pastor of the Presbyterian church, officiating.

Mr. Cast is at present land commissioner of the Deschutes Irrigation & Power Company.

Mr. and Mrs. Phillips, parents of the bride, residing for a while in Bend, were residents of Alberta, British Columbia, and are soon to leave us for Summer Lake, Oregon.

The wedding was entirely private, attended only by the two families, Mr. Charles Phillips having come from Spokane to be present. After the filling out of the wedding souvenir, the company partook of a most enjoyable repast prepared by the bride's mother.

The friends in the East may not know that Bend is on the Deschutes river, one of the most beautiful in the world, and unusually interesting from the fact that it flows along the Opal Springs, the wonderful ice caves and extinct volcanoes. It gets its rapid, cold, crystal clear waters from the forever melting snows of the Cascade mountains. Overlooking Bend are the Three Sisters, Mounts Jefferson, Washington and Hood. Under the protection and blessing of these beautiful overlooking mountains from March 3, 1909, Bend possesses another beautiful and happy home.

Mr. and Mrs. Cast will be at home to their friends after the 20th of March.

Robinson-Wallace.

The following clipping from the Lakeview Herald will interest Bulletin readers, as Mr. Robinson is well known in Bend:

A quiet wedding took place at the rooms of William Wallace and wife when their only daughter, Minnie, was united to J. W. Robinson, Recorder Snider officiating. None but relatives of the family were present. The bride is the accomplished daughter of Mr. and Mrs. William Wallace. She has resided here about two and a half years and has innumerable friends. The groom is a livery man from Bend, though he resided here a while last summer. He expects to go into business in a few weeks.

The young people have taken up

Gophers, Sage Rats and Prairie Dogs annually devastate our fields of growing grain. Their number may be greatly diminished by a systematic warfare upon them. Every female killed before the young are born, reduces the number of pests at least ten later on.

"Woodlark" Squirrel Poison is the most reliable and destructive agent yet devised for their extermination. It is absolutely certain in its action and every kernel is warranted to kill. Climatic changes or moisture of the earth do not destroy its strength. It requires no mixing or preparation, and is always ready for use. No other is so good. Dealers will refund the purchase price, if not as claimed.

their residence in what is known as the old Chandler home on Main street south of the residence of Cobb Henkle. The Herald joins the entire community in wishing them a complete life—minus its sorrows.

Will Take Postgraduate Work.

Dr. B. Ferrell arrived in Bend Sunday evening to take charge of Dr. Coe's practice while the doctor is taking a vacation in the East. Dr. Ferrell and Dr. Coe were classmates at the University of Missouri. After leaving that institution Dr. Ferrell entered Northwestern University at Chicago to complete his studies, while Dr. Coe went to Cincinnati. Dr. Ferrell has been practicing of late years in Illinois. Last summer, while taking a trip through the West, he came to Bend to look over this section and, to his surprise, found his old classmate located here. At that time Dr. Coe requested Dr. Ferrell to take charge of his practice here while he was absent in the East, and Dr. Ferrell consented inasmuch as he liked the West and wished to find a location in one of the coast states. Dr. Coe will leave in a few days for San Francisco, where he will visit his parents, and then will proceed to New York where he will take postgraduate work. He will also visit a brother there, who is a civil engineer and who built one of the tunnels under East river. He will call on old friends in Cincinnati, and plans to spend some time at the renowned Mayo Bros.' hospital at Rochester, Minn. Dr. Coe has spent four years at Bend engaged in hard work with practically no vacation, and he is in a position to appreciate a well-earned rest. He will be gone about three months.

ADDITIONAL LOCALS.

Wilmer DeBolt came to Bend last Friday from Coulee City, Wash., and will make his home here. Mr. DeBolt says eight families will remove from Coulee City to Bend this spring.

I am now agent for the DeLaval cream separator, and have one of these machines in stock. Step in and examine it. They are a great convenience and money saver for the dairyman. E. A. SATHER, 211 1/2

Prof. Throne, who has been engaged to instruct the Bend Concert Band, has arrived from Myrtle Point and taken charge of the local organization. He says there is some very good material in Bend and promises to give us a first class band in a few months.

Mrs. Wm. Arnold pleasantly entertained five lady friends at lunch last Sunday. The husbands are telling what they consider is a joke, namely, that the combined weight of the six ladies—and one of these a 15 year old girl—totaled 1290 pounds, or 215 pounds each. The Bend country excels in everything.

Dr. H. Charles Dunsmore, Presbyterian pastor at Prineville, will exchange pulpits with Rev. Mitchell and will preach in Bend next Sunday, both morning and evening. Dr. Dunsmore is acknowledged to be one of the ablest and most eloquent speakers in this part of the state and everyone who can should avail himself of the privilege of hearing him.

J. B. Heyburn took the last load of his household goods to the homestead last Sunday. Mrs. A. M. Lara had planned to drive out with Mrs. Heyburn and the children. As the team was standing in front of the Chas. D. Rowe residence, it became frightened at something and began to run, Mrs. Lara, Mrs. Heyburn and daughter Frances being in the rig. Mr. Lara was standing near the horses' heads, caught them and finally steered them into a tree in the rear of Hunter & Staats' office. Little Frances

was thrown out and bruised somewhat, but otherwise no damage was done. Fortunately the team did not get away from Mr. Lara, or it might have resulted in a very serious runaway. Mrs. Heyburn remained in town during the day, and Monday morning Mrs. Lara took them to the homestead.

Guy LaFollette, postmaster at Prineville and one of the proprietors of the Crook County Journal, was in Bend last Thursday. The Bulletin acknowledges a pleasant call Mr. LaFollette stated that it was his intention to send out the Bend stage about 10 a. m. during the time of bad roads, regardless of whether the Shaniko stage had arrived at Prineville. The stage would then get into Bend at 6 or 7 o'clock, which would give Bend people an opportunity to get their mail that evening and send out an answer thereto on the next morning's stage. Under this plan the mail would often be a day late, but at present it is frequently a day behind, does not arrive until about midnight, is not received by the patrons until the next morning, and there is no opportunity to answer until the second morning after the mail arrives. And this arrangement would be much better for Postmaster Merrill.

"My three year old boy was badly constipated, had a high fever and was in an awful condition. I gave him two doses of Foley's Orino Laxative and the next morning the fever was gone and he was entirely well. Foley's Orino Laxative saved his life." A. Wolkush, Casmer, Wis.—Bend Drug Co.

NOTICE FOR PUBLICATION.

United States Land Office,
The Dalles, Oregon, Feb. 2, 1909.
Notice is hereby given that the State of Oregon has filed in this office its application, Serial No. 20210 to select under the provisions of the Act of Congress of August 14, 1862, and the Acts supplementary thereto, the NE 1/4, NE 1/4 and lot 1 of Sec. 7, Tp. 28 S., R. 12 E., Willamette Meridian. Any and all persons claiming adversely the lands described, or desiring to object because of the mineral character of the land, or for any other reason, to the disposal of applicant, should file their affidavits of protest in this office, on or before the 15th day of March, 1909.
(7-210) C. W. MOORE, Register.

CONTEST NOTICE.

Department of the Interior,
U. S. Land Office, Lakeview, Oregon,
January 21, 1909.
A sufficient contest affidavit having been filed in this office by W. L. Robertson, contestant, against homestead entry No. 2599 (Serial No. 20210), made Feb. 27, 1909, for NE 1/4, NW 1/4, SW 1/4, SW 1/4 NE 1/4, Sec. 13, Tp. 22 S., R. 13 E., by Frank A. Abbott, contestee, in which it is alleged that said entry was abandoned, all his right, title and interest under said entry, in this, that he has not since June 1906, or any time since said date, complied with the homestead laws of the United States, nor has he resided, cultivated or improved, but on the contrary, has as above stated, abandoned said entry, and that said entry was neglected to be re-opened, cultivated or improved, and that said entry was not due to his employment in the Army, Navy or Marine Corps of the United States as a private soldier, officer, seaman or marine during the war with Spain, or during any other war in which the United States may be engaged.

Said parties are hereby notified to appear, respond and offer evidence touching said allegation at 10 o'clock a. m. on March 15, 1909, before W. D. Wood, U. S. Commissioner at Silver Lake, Oregon, and that final hearing will be held at 10 o'clock a. m. on March 27, 1909, before the Register and Receiver at the United States Land Office in Lakeview, Oregon.

The said contestant having, in a proper affidavit filed January 19, 1909, set forth facts which show that after due diligence personal service of this notice has not been made, it is hereby ordered and directed that such notice be given by due and proper publication.

NOTICE FOR PUBLICATION.

Department of the Interior,
U. S. Land Office at The Dalles, Oregon,
February 19, 1909.

Notice is hereby given that—
Klaid F. Darnall
of Portland, Oregon, who, on December 10, 1906, made timber and stone sworn statement No. 2698, Serial No. 24520, for NE 1/4, NW 1/4, SW 1/4, NW 1/4, Sec. 5, Tp. 18 N., R. 12 E., Willamette Meridian, has filed notice of intention to make final proof, to establish claim to the land above described, before H. C. Ellis, U. S. Commissioner, at his office at Bend, Oregon, on the 16th day of April, 1909.

Claimant names as witnesses: Arthur F. Douglas, of Laidlaw, Oregon; John A. Tracy of Portland, Oregon; Mrs. Anna Landes of Clackamas, Oregon; John Elton of Sisters, Oregon; Charles Boyd of Bend, Oregon.
57-210 C. W. MOORE, Register.

These Patent Tension Shears
FREE!

To BULLETIN Subscribers.

This latest and most useful Household Invention will be sent FREE, postage prepaid, to every new, cash-in-advance year's subscription to The Bulletin. If you are already a subscriber, send us \$1.50 on your own subscription and \$1.50 for a year's subscription for your neighbor or someone who is not now getting The Bulletin, and get a pair of these shears free.

If your subscription is about to expire you cannot afford to miss this opportunity to secure a pair of Shears whose cutting edge will never wear dull, and which will cut anything from wet tissue paper to a heavy horse blanket. A pair of these shears are given free to every new cash-in-advance subscriber.

The Tension Spring attachment does away with resharping entirely and enables the user to set the tension on the rivet so that any kind of material may be cut with perfect ease without tiring the hand. The Tension Spring takes up all wear on the rivet, making the shears practically indestructible. A simple turn of the little thumb-screw, shown in the engraving, tightens up the blades as closely as may be desired. Any woman who has had the exasperating experience of trying to use a dull pair of shears can readily appreciate the value of the new invention WHICH KEEPS THIS PAIR OF SHEARS ALWAYS SHARP and in perfect cutting condition. No matter how many pairs of shears or scissors you may have around the house, you need this pair with the Tension Spring, and when you get and use it once, you will use it in preference to any other you may have. These shears are perfectly finished and heavily nickel-plated.

WE GUARANTEE

the quality of the material and workmanship in this pair of shears to be first class, that the Tension Spring device doubles the usefulness of the shears and does away with the need of resharping. Furthermore, a Guarantee Certificate, by the manufacturers, accompanies every pair, agreeing "that if this pair of shears BREAKS or in any way becomes defective within FIVE YEARS from date of purchase it will be replaced with a NEW pair without cost."
