To Build You Up for Spring

Begin taking Hood's Sarsaparilla today. It will do you good.

The heavier living and closer confinement of the winter, the effects of colder, damp, changeable weather on the pores of the skin, and the harder work of this season are probably telling on you.

Hood's Sarsaparilla, taken just now, will give your system just what it needs and must have, and will help you over this hard spot-the rough ground, as it were—and quite likely save you from a serious illness later.

"A stitch in time saves nine" is a wise old saw; therefore, don't wait, but begin to take Hood's Sarsaparilla now. It purifies and enriches the blood, restores the appetite, and gives health and strength.

It effects its wonderful cures, not simply because it contains sarsaparills, but because it combines the utmost remedial values of more than 20 different ingredients, each greatly strengthened and enriched by this peculiar combination. These ingredients are the very remedies successful physicians prescribe for the same diseases and ailments.

Begin taking Hood's Sarsaparilla today. Get it in the usual liquid form or in chocolated tablets known as Sarsatabs. 100 Doses One Dollar.

SOMETHING FOR EVERYBODY

An American company is successfully operating a mica mine near Kodarma, India, on the East India ratiway, about 250 miles from Calcutta. Seven hundred hands are employed under a practical American mica man.

Contracts have been let for Winnipeg's new municipal electric power plant, to cost approximately \$1,014,700 The Winnipeg Electric Rallway Com pany has three times offered to sell its Lac du Bonnet plant to the city.

Preliminary work for the construction of India's large new steel plant near Kallmutt station is making good headway. The plant on the Ramrana manganese property has proved to be of the highest saine. A forty-five mile railway is already under construction

The output of the British shipbuilding yards amounted in 1898 to only about 900,000 tons of merchant steam vensels, or little more than half of the 000,000 tons

John Brown was executed at Harpers Ferry on Dec. 2, 1859, 1t was shortly after 11 o'clock in the morning. Two thousand Virginia soldiers were ranged around the scaffold when he was brought from his prison house and placed in a wagon which was to convey him to the scene of the execution.

The curator of the museum at Brus sels has just been pursuing an interest ing claim in the Belgian courts. In May last Mme. Bourlant, the widow of an Egyptologist, offered to the museum two searshs with inscriptions, which the lady claimed related to a voyage on the coast of Africa referred to by Hero dotus. The curator purchased the sca rate for \$2,000, and, as may be imagined, they created a great deal of interest in the learned world, the final judgment of which was that the so-called antiquities were forgeries. M. Capart. the curator, has sued the widow for the return of the purchase price and the courts have decided in his favor.

From the War Department comes no tice of an interesting relic formerly the property of President Lincoln. Upon the occasion of his memorable visit to Gettysburg the President cut with his own hands a cane, which he afterward presented to his War Secretary, Edwin M. Stanton, by whom it was naturally highly prized. This cane is now in the ssion of Mr. Jahncke, president of the Jahncke Navigation Company of New Orleans, who married a granddaughter of Secretary Stanton. It has a gold top with an engraved inscription, which was probably placed on the treasured souvenir by Sheretary Stanton.-National Magazine

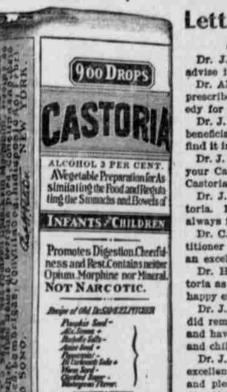

Few Swiss scholars have had a more Gunner-He used to be a pessimist brilliant career than the new principal of the University of Lausanne. Dr. H. Charles Louis Blane was born in Lau-Guyer-Yes; you see, he fell out of sanne, fifty years ago and began his studies at one of the primary schools in the city. At nineteen he took his degree in science, afterward going, as so "Ruggles, bow did you catch that many Swiss scholars have done, to Germany, first to Stuttgart, then to the University of Fribourg-en-Brisgau. my job the other day. It was the first time such a thing has ever happened to me, and I got kind o' ceckless, you know, and exposed myself, and—and—" where he won his doctorate in philosophy with honors. Since then he has made his mark as a zoologist, and now enjoys a European reputation. He has had a hand in research work and in Switzerland and in Germany,

> There is at present an interesting exhibit in No. 6 tank at the Brighton Aquarlum, says the London Globe. It is something like a dogfish, only much larger, while in the matter of sheer ugliness it stands unrivaled. Its technical name is the toper shark. It is six feet long and weighs from eighty to ninety pounds, while its mouth looks large enough to take an elephant single handed. The shark came into the possession of the aquarinus in rather a curious manner. A man named Lane of Brighton was fishing some two miles off the Palace pier with a long line, when he felt a vicious tug at his book He quickly "hauled in his slack," and then the toper came to light. Mr. Lane at once hurried ashore and placed the toper in his new home.

There was recently introduced in the House of Representatives a bill for the purchase of the house in Tenth street, Washington, in which Abraham Lincoln died on April 15, 1865. The bill proposes the acquisition of the two adjoining bouses and the entire collection of the Oldrayd relies of Lincoln, of which there are some 3,000 pieces in the building. There is also included a library of a thousand volumes all relating to Lincoln and the civil war. In one of the rooms is a "black locust" rail split by Lincoln in 1830, and taken from a fence around his old home, and the walnut cradle in which his children were rocked. The bill contemplates the purchase also of the two adjoining buildings on each side, with the understanding that both are to be torn down and the ground beautified by lawns and shrubbery. The Oldroyd collection of Lincoln relics is the largest in the

Don't Poison Baby.

ORTY YEARS AGO almost every mother thought her child must have PAREGORIC or laudanum to make it sleep. These drugs will produce sleep, and A FEW DROPS TOO MANY will produce the SLEEP FROM WHICH THERE IS NO WAKING. Many are the children who have been killed or whose health has been ruined for life by paregoric, laudanum and morphine, each of which is a narcotic product of opium. Druggists are prohibited from selling either of the narcotics named to children at all, or to anybody without labelling them "poison." The definition of "narcotic" is: "A medicine which relieves pain and produces sleep, but which in poisonous doses produces stupor, coma, convulsions and death." The taste and smell of medicines containing opium are disguised, and sold under the names of "Drops," "Cordials," "Soothing Syrups," etc. You should not permit any medicine to be given to your children without you or your physician know of what it is composed. CASTORIA DOES NOT CON-TAIN NARCOTICS, if it bears the signature of Chas. H. Fletcher.

HOW TO BUILD RURAL TELEPHONE LINES

This Book Sent Free

Want a Telephone?

If you do you can get it. If you are anxious to get into closer touch with your friends, with the family doctor, with the store, with the post office, or with the cotton buyer, you can do it with a telephone at hand. If you want to make the farm a more livable place, if you want to protect your home, you can do it by installing a telephone.

If you will cut out this advertisement, write your name and address on the margin and mail it to-day to our nearest house, we will send you at once a copy of our Free Builetin No.112 on

"How to Build Rural Telephone Lines"

This Bulletin explains clearly how a rural telephone system is built and operated, and it also contains full information as to costs.

In a Farmer's Mutual Company a few day's labor and a cash Investment of about \$25. per subscriber, will purchase all material and build an absolutely standard system.

A Rural Telephone is an investment, not an expense. The telephone which enables you to sell ten bales of cotton at 1/2 cent per pound more than the traveling buyer offers you, has paid for its entire cost. If you have some hay down all ready to go in, it is worth something to have a telephone with which to call on Neighbor Smith "for a lift" before the storm breaks.

The Rural Telephone pays for itself each year and we have brought the initial cost within the reach of every farmer. Present prices are especially favorable and thousands of Farmers' Mutual Companies are now organizing so as to build their lines this Spring. Write us to-day.

A HEART-BREAKING COUGH

madful to suffer and despairing to hear. Why threaten the health of lungs and the peace of your family when you can obtain immediate from Piso's Cure? Remarkable results follow the first dose. Taken arly it soothes and heals the lacerated tissues, loosens the clogging on and stops the cough. Pleasant to the taste and free from the Children enjoy taking it.
