

SAY!

Did you ever notice the different treatment you receive when trading at a cash store and at one that does a long credit business?

The Cash Store

knows that your money is good anywhere and they will do their best to accommodate you, to get the goods you want, to give you courteous treatment, mark their goods in plain figures and have one price to all. They will do all in their power to secure and hold your trade and you can depend upon right treatment always. The cash store knows that "A pleased customer is the best advertiser" and that is the kind of advertising that The Bend Bulletin cannot charge for. Now, what does

The Credit Store

do for you when once you are on their books to a considerable amount? You go into their store and there is no attempt to wait upon you promptly, you are obliged to take the goods offered you; if your account is past due you usually pay a little higher price, the goods are NOT marked in plain figures, and they do NOT maintain one price to all—because the cash customer at that store gets very much the best of it in prices.

It makes very little difference whether you are "A pleased customer or not"—they have you tied hand and foot and you can't get away so why should they make any great effort to please or accommodate you? ...Think this over and remember

The BIG STORE is a CASH Store

and will try to hold your trade not because you can't get away but because you don't want to get away.

Interested in Oregon Timber.

Showing much interest in Oregon timber, a party of 18 Michigan capitalists spent a day in Portland during the week. They represent capital of over \$50,000,000, and their visit here shows an interest in Oregon timber that will mean the investment of large sums here in future. They said some of their number intended to secure some of the remaining big trees of this state shortly. Two of the party will re-

turn to Portland within a few days to receive reports on Oregon properties they are now looking up. The visitors are mostly officials of the Michigan-Pacific Lumber Company.
