

# SAY!

Did you ever notice the different treatment you receive when trading at a cash store and at one that does a long credit business?

## The Cash Store

knows that your money is good anywhere and they will do their best to accommodate you, to get the goods you want, to give you courteous treatment, mark their goods in plain figures and have one price to all. They will do all in their power to secure and hold your trade and you can depend upon right treatment always. The cash store knows that "A pleased customer is the best advertiser" and that is the kind of advertising that The Bend Bulletin cannot charge for. Now, what does

## The Credit Store

do for you when once you are on their books to a considerable amount? You go into their store and there is no attempt to wait upon you promptly, you are obliged to take the goods offered you; if your account is past due you usually pay a little higher price, the goods are NOT marked in plain figures, and they do NOT maintain one price to all—because the cash customer at that store gets very much the best of it in prices.

It makes very little difference whether you are "A pleased customer or not"—they have you tied hand and foot and you can't get away so why should they make any great effort to please or accommodate you? ...Think this over and remember

## The BIG STORE is a CASH Store

and will try to hold your trade not because you can't get away but because you don't want to get away.

Many of them will need new suits.

Perhaps you're one of them.

I have a large assortment of samples that you may choose from. You make your selection. I take your measure. And that guarantees a fit. No shabby, slouchy, poorly fitting, "hand-me-down" suits under this plan.
