THAT'S LARA'S--AT BEND.

You Are Too Wealthy To Wear Poor Clothes

Did you ever stop to think that it's false economy to go poorly dressed—that a shabby, slovenly appearance may keep you from securing a good position; that it leaves a poor opinion concerning you in the minds of the men who "do things" today—who accomplish results—who make good—the sort of men you want to associate with.

Now, this doesn't mean foppy, dudish dressing—It means that the wise man will be neatly and tastily dressed—JUST WELL DRESSED.

And in this I can help you. Select the fabric you prefer from my large list of samples; I will take your measure; and a fit is guaranteed.

One of my well-fitting, made-to-order suits will cost you no more than a shabby, hand-me-down.

Our Money is Safe. Is Yours?

We keep our money in a steel chest, incased in a steel fire and burglar proof safe, which is kept in our fire proof, stone vault—all doors protected by key, combinations and triple time lock.

Should burglars break in and take all our money, the Bank would not lose a dollar. Why? Because we carry Burglar Insurance, covering loss either by daylight hold-up or theft by night.

We belong to the American Bankers Association, the thief's greatest enemy. In case of burglary they immediately send Pinkerton Detectives, at their own expense to run down the thieves.

Our active officers and employes are all under heavy Bond thereby affording depositors security against dishonesty.

The United States Government has supervision of this Bank at all times; requires us to publish in The Bulletin five times each year, sworn statements of our condition; a special National Bank examiner examines the Bank twice each year, carefully and thoroughly.

The Policy of the Bank is carefully directed by our Board of Directors, who are all local, well known business men, who hold regular meetings and keep in close touch with the Bank and its progress.
