C. A. Riddle, Will Wurzwiler and another Prineville gentleman were in Bend Sunday on their way to the upper Deschutes on a fishing expedition.

The Bend Public Library had 40 visitors last Saturday, breaking all previous records of this growing and worthy institution. During July 194 books went out to patrons of the library.

A. A. Aldridge recently received from Portland a beautiful rug, made from the hide of a black bear, which Mr. Aldridge killed. He prizes the rug very highly as it is made from the first bear he ever killed.

Dr. Coe reports the following births during the past week: To Mrs. W. E. Graham, at Gist, a boy, Monday morning; to Mrs. John Mitchell, a boy, July 30. The Mitchells have a farm near the Davenport ranch.

A letter was recently received by an engineer in the employ of the D. I. & P. Co., from Twohy Bros., Harriman's railroad constructors in the Deschutes canyon, stating that they would soon let contracts for the building of 90 miles more of their Deschutes line.

A subcontractor who has been working on the railroad at Klamath Falls passed through Bend Saturday with his teams and equipment, enroute to the battleground in the Deschutes canyon. The first actually visible sign, for Bend people, of railroad construction.

Triplett & Turpin have sold their barber outfit and business to Joe Innes, who came here recently from San Francisco and started a shop in the Hotel Bend. Mr. Triplett will devote his time to his ditch land and Mr. Turpin may work for a time for Mr. Innes in the shop.

G. P. Putnam went out to the railroad the first of the week to meet his father, G. P. Putnam, Sr., head of the firm of Putnam & Sons, New York publishers, who is taking a trip through the west. After seeing other points Mr. Putnam, Sr. may accompany his son to Bend for a short stay.

John Bloss, the timber cruiser who is working for John Ryan, was in Monday, and ordered timber trespass notices printed. Mr. Bloss stated that he had recently discovered that someone had been cutting timber for shakes and other purposes on Mr. Ryan's holdings, and he has determined to put a stop to this.

J. H. Wenandy went to Portland the last of the week for a new automobile to be used in his local livery business. The machine, with a competent driver, will be kept at the Wenandy barn at the service of the public. Mr. Wenandy certainly is deserving of a compliment for his progressiveness in the matter of furnishing Bend with adequate transportation facilities, both on his stage line and in the general livery business.

Dr. Burrows and family, who own ditch land just northeast of town, arrived last evening from Lebanon, Oregon, and will reside here permanently. Dr. Burrows also has land in the Madras country, where he will spend the next few weeks looking after the harvesting of his wheat crop. After that he will set up an office in Bend and begin practicing. The doctor is an osteopath, and he says he sold out an excellent practice at Lebanon because he much preferred to live in the Bend country. He formerly practiced at Madras for a year.

County Commissioner R. H. Bayley was in Bend this morning enroute to the Big Meadows bridge to get the road camp outfit, which will be taken to Laidlaw, where the bridge across the river will be repaired. After that is done Mr. Bayley and his men will complete the bridge across the Pilot Butte canal on the Laidlaw-Powell Buttes road. Then they will go to Lower Bridge, where they will put in an entirely new bridge on the old Willamette Valley wagon road. Other work which Mr. Bayley has mapped out is the opening up of the new Lyle Gap road which has just recently been allowed, and repair work at Trail Crossing.

The D. I. & P. Co. had the break in the big flume repaired Thursday night and Friday morning the water was running. The work of repairing the flume was rushed with all possible speed and, judging from general reports, crops under the ditch suffered but little owing to the temporary shutting off of the water, although the farmers were somewhat inconvenienced by having to haul water for domestic purposes. Since the water was again turned on some of the farmers are complaining that they are not getting enough water, but whether this is due to an insufficient head in the flume, or to fact that farmers above them are taking more than their share, is not known.
