

PIMPLES

"I tried all kinds of blood remedies which failed to do me any good, but I have found the right thing at last. My face was full of pimples and black-heads. After taking Cascarets they all left. I am continuing the use of them and recommending them to my friends. I feel fine when I rise in the morning. Hope to have a chance to recommend Cascarets." Fred C. Witten, 76 Elm St., Newark, N. J.

Pleasant, Palatable, Potent, Taste Good, Do Good. Never Sicken, Weaken or Grip. 10c, 25c, 50c. Never sold in bulk. The genuine tablet stamped C. C. U. Guaranteed to cure or your money back. 522

Why He Favored Them.

Friend—Why do you encourage these woman's suffrage meetings? Surely you don't approve of them?

Husband—Approve? With all my heart! I can come home as late as I like now without finding my wife waiting to ask questions.—Kansas City Journal.

Do your feet ever feel tired, aching and sore at night? Rub them with a little Hamline Wizard Oil. They'll be glad in the morning, and so will you.

Though There Is No Incentive.

First Hunter—You know they have passed a law in Florida permitting the killing of alligators?

Second Hunter—O, well, I suppose we'll keep on killing them, just the same.

Mothers will find Mrs. Winslow's Soothing Syrup the best remedy to use for their children during the teething period.

Realistic Music.

Critic (as the composer plays his last piece)—Very fine. But what is that passage which makes the cold chills run down the back?

Composer—That is where the wanderer has the hotel bill brought to him.—Fliegende Blätter.

Clear Waste of Money.

Baptist—The doctor says there's something the matter with my head.

Sharp—You surely didn't pay a doctor to tell you that!—Boston Transcript.

Sanitary Milk Pails.

Much the larger proportion of milk is carried in wide-topped, uncovered pails from the cow to the strainer, a distance of 25 to 100 feet, across a cowyard, under a hay loft, or past a manure pile, thus exposing a large surface of warm milk, which absorbs all kinds of undesirable odors and collects dirt and dust.

Galvanized iron is something used for milk pails, but it is not best, for the rough surfaces afford hiding places for bacteria. Wooden vessels should not be used for holding milk, for it is almost impossible to keep them clean. Besides imparting a metallic flavor to milk, rusty tinware is objectionable because it is impossible to keep it clean. Good tin is the only practicable material for milk vessels, and it must be kept shiny and bright.

DOUBLE PROTECTION. NO SPATTERING.

Double favor to milk, rusty tinware is objectionable because it is impossible to keep it clean. Good tin is the only practicable material for milk vessels, and it must be kept shiny and bright. The most important thing in producing milk is to keep the dirt out. This can only be done by carefully grooming the cows and by using a sanitary pail, two of which are shown here. There are several types of these pails, but they all have the same principle. There is a cover with a small opening, under which is fastened a cheesecloth strainer. The one with

SUBSTITUTE FOR GATE.

There are places where a common everyday gate is an utter nuisance and where a turnstile or some other gate substitute or contrivance is particularly convenient and welcome. With the arrangement herewith illustrated the gateway is always closed to animals, but men may pass through it without difficulty. The accompanying drawing will give a clear idea of the plan. The sketch is made to represent a very small gate, but to answer all purposes the wing panels and gate perhaps should be half a rod in length.

the spout strains the milk as it enters the pail, and also as it is poured out.—Farm and Home.

Saw Hats Freight on Egg.

After an investigation covering two weeks, William Krohbach of Danby, Pa., has learned the reason he has been receiving only two or three eggs a day from his flock of sixty hens, and incidentally found out something about the inventive capacity of rats.

One morning he heard a noise in his chicken house, and quietly making his way there, he saw two big rats in the act of making away with a newly-laid egg. One of the rodents was lying flat on its back with the egg tightly clutched in its four paws, while the other rat was dragging it along by the tail. Krohbach was so impressed by the sight that he watched the rodents for three minutes, during which time they carried the egg for twenty yards along the fence until they came to a hole in the ground, into which they took the egg. One of the rats became tired while carrying the egg and changed places with its fellow.

Ventilating Stables.

Horses and cows are in the stable at night for rest. When the weather is warm the atmosphere in close confinement becomes very warm and oppressive, so much so that the animals become very uncomfortable, and hence fall to get proper rest. The horse that does not get proper rest is not in a good condition for heavy work the following day, and the cow that does not

sleep in a cool, restful place in hot weather will not give a full flow of milk. The temperature of the working or producing animal must be kept normal to give best results. If there are no windows in your stables, cut out a number now and let light and fresh air come for the health and comfort of the animals. There is nothing like plenty of good fresh air in living and sleeping rooms, whether the rooms be for the occupancy of man or of animals. This holds good for both winter and summer.

Spraying Experiments.

Experiments with fungicides upon potatoes have been carried on at the Vermont Experiment Station for eighteen years. Experiments made recently were designed particularly to determine the relative gain from spraying potatoes with bordeaux mixture and paris green, comparing the results from two, three and four applications. Two applications of bordeaux mixture made in August proved less efficient in checking the flea beetle and early blight than where other applications were made, particularly the spraying made in early July. The increase in marketable tubers for the sprayed over the unsprayed lots varies from 52 to 172 per cent.

Drinking Water for Fowls.

Summy drinking vessels cause sickness. They should be scalded out every now and then. Filthy water drunk daily is very irritating to the bowels. Water is the principal constituent of the flesh, bones, feathers and eggs of fowls, and necessarily large quantities of it is consumed daily. Therefore, it should be seen that the water supply is not only pure, but fresh.

Thistle as Stock Food.

Stock of all kinds greatly relish the plants of the Russian thistle, which has fairly jumped out of the ground since the rains, and our Eastern plains

are verdant with it. Why not make hay of it? So palatable is the hay to cattle that they leave green pasture and break through fences to devour this obnoxious and outlawed weed if it is cut and stacked before the reddish tinge comes on to the plant, which occurs about the middle of July. Many of our Colorado people have used Russian thistle for forage for several years, and some of them say that it is as good as alfalfa. In a recent analysis the Russian thistle analyzed as follows: Protein, 17.95; ether extract, 3.61; ash, 21.98; crude fiber, 20.14; and carbohydrate, 36.32. All over Eastern Colorado there is a lamentable shortage of protein feed-stuff. Corn, corn stalks, straw, millet, Kaffir and prairie hay are all long on starchy matter, but short on protein. In the thistle we have a crop that grows on the arid reaches which will not only yield a large amount of forage, but a very palatable one at that, and a crop that is rich in the two elements in which others are deficient.—Field and Farm.

Bordeaux Mixture.

The Bordeaux mixture is the proper remedy to use for all fungous troubles, viz., mildew and rust of beans; melon and cucumber diseases; celery leaf-blight and rust, etc. The half strength mixture (two pounds copper sulphate, two pounds quicklime, fifty gallons of water) is strong enough to use in the vegetable garden, except for potatoes

SOMETHING FOR EVERYBODY

The Salvation Army is established in fifty-two countries.

There is a great shortage of theological students in Wurtemberg.

The War Department paid \$84,418 for artificial limbs last year.

Six out of seven pictures sent to the royal academy every year are rejected.

The railroads of this country pay out \$24,000,000 a year in freight claims.

There is still pending in the English law courts a case which was initiated in 1797.

An owl with a nest of young will gather about forty mice a day for her offspring.

One-fifth of the country's wealth is represented in the New York Stock Exchange.

For use during military maneuvers the Kaiser has a portable house made of asbestos.

There were fifteen executions of criminals in Prussia in 1907, all but one of them men.

There are thirty different kinds of new roses for this year alone in England, where rose culture abounds.

Nearly all of the fifteen thousand inhabitants of Marchneukirchen, Saxony, are engaged in violin making.

An effort made in Russia to form a gigantic steel corporation, on the lines of the one existing in this country, has failed.

The Swiss government spends more money, in proportion to its population, for the relief of its poor, than any other country.

The volcano of Stromboli has been known to emit flames persistently and lava and cinders spasmodically for over 2,900 years.

A Parisian antiquarian has paid 750,000 francs for the famous Marfels collection of watches made in the sixteenth and seventeenth centuries.

At Falun, Sweden, are the headquarters of a mining company with a history so remote that the date of its origin cannot be definitely fixed.

South American woods were formerly used exclusively in the making of fishing rods, but the material is now being largely supplied by Queensland.

In 1906 there were 1,171,000 textile workers in Britain. The average pay each week for men was \$6.53, for women \$3.75, for boys \$2.53, and for girls \$2.17.

Frogs may do some harm to fish in a pond, but German experts have decided that this is outweighed by the good they do in destroying injurious insects.

New York State has taken a practical way of encouraging forestry. During the past planting season more than one million seedlings were distributed at cost throughout the State for planting.

Solitary confinement still exists as a punishment in Italy, although humanitarian observers declare that capital punishment would be far more humane, besides being more effective as a deterrent.

On the basis of a bushel of corn producing 2.5 gallons of alcohol, it has been figured out that last year's corn crop in the United States was sufficient to furnish 20,000,000-horse power for ten hours a day for an entire year.

Wilbur Bowser, living near Pittsburg, has constructed a frame house, built in sections, which he has moved in a freight car with all his household goods to Wyoming, where he has acquired a section of 160 acres of land.

The latest suggestion for the treatment of asthma comes from Germany. It consists simply in breathing exercises conducted in such a way that the inspiration is rapid, while the expiration is as slow and as thorough as possible.

Not to be outdone musically by New York's police department, Chicago policemen have set out to organize a band. Chief Shippy, who used to "pound the pavement" himself, is enthusiastically in favor of the scheme and promises all the aid he can give.

The exports of domestic merchandise from Alaska to the United States in the calendar year 1908 amounted to \$12,255,255, of which \$9,252,952 was for canned salmon. The salmon output of Alaska equals the combined catch of British Columbia, the United States proper, and Japan.

Not the least important feature of the general agricultural revival which is in progress in so many over-sea markets, and particularly in South Africa and Australia, is the interest thus created in steel windmills as motors for such purposes as pumping and operating small machinery.

Raw river water should be stored antecedent to filtration for thirty days, in the opinion of Dr. A. C. Houston, director of water examinations, London. Storage reduces the number of bacteria of all sorts, and, if sufficiently prolonged, devitalizes the microbes of water-borne disease (typhoid bacillus and cholera virus).

CASTORIA

The Kind You Have Always Bought has borne the signature of Chas. H. Fletcher, and has been made under his personal supervision for over 30 years. Allow no one to deceive you in this. Counterfeits, imitations and "Just-as-good" are but experiments, and endanger the health of children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrup. It is Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhoea and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

The Kind You Have Always Bought

Bears the Signature of

In Use For Over 30 Years.

THE CENTAUR LABORATORY, 37 MURRAY STREET, NEW YORK CITY.

Comparison.

"I admit I have the fault you mention," said the conceited man, self-complacently, "but it's the only fault I have, and it's a small one."

"Yes," replied Knox, "just like the small hole that makes a plugged nickel no good."—Catholic Standard and Times.

Pettit's Eye Salve.

No matter how badly the eyes may be diseased or injured, restores normal conditions. All druggists or Howard Bros., Buffalo, N. Y.

What's the Answer.

Plumbers maidens seek the seashore, slim ones seek the mountains high. If you think you know the answer, why, why, why?—Washington Herald.

Shake Into Your Shoes.

Allen's Foot-Ease, a powder for the feet. It cures painful, swollen, smarting, sweating feet. Makes new shoes easy. Sold by all Druggists and Shoe Stores. Don't accept any substitute. Sample FREE. Address A. S. Olmsted, Le Roy, N. Y.

Plausible Prevention.

Of two kinds of liars, the one who can lie plausibly is most to be feared. The crude liar is simply a joke.—Detroit News.

YOUR FARM EQUIPMENT IS IT COMPLETE?

In these days of progressive farming no man can afford to neglect his farm equipment. It is just as essential that the farm should have the benefit of the best possible farm machinery and most modern labor saving devices as it is that a properly conducted factory should have it, and even more so. We have in our extensive stock, labor saving machines of all kinds, machines that increase profits and make the farmer the most independent man on the earth; machines that make farm life more enjoyable and tend to keep the young man satisfied with farm work. No farmer ever invested his money to better advantage than when he bought one of the machines mentioned below. These are lines which are in season NOW and are goods which should interest every farmer who desires to make a success of farming. Kramer Rotary Harrow Attachments, (shown here), Hoosier Drills, (shown here), J. I. Case Plows, Sandwich Hay Presses, Dick's Famous Feed Cutters, Hoover Potato Diggers, Double Action and Rightlap Cutaways, Steyer Gasoline Engines, New Iowa Cream Separators, Myers Pumps, Etc., Etc.
