

**ADDITIONAL LOCALS.**

**WANTED—Chickens.** Hotel Bend. 28-30  
Billiken is at the Bend News Stand. See him. 28-29  
A. M. Drake returned from Portland Saturday evening.

Barney Lewis is building a house in Lytle and will occupy it when finished.

Just received, at Bend News Co.'s store, a line of tinware, crockery, and notions. It will pay you to see them. 28-29

Chas. Weiside of Nampa, Ida., was in Bend the first of the week and invested in town property. He is very enthusiastic over Bend's future.

The little infant of Mr. and Mrs. Oliver Johnson, which was so seriously ill, died last Monday. The parents have the sincere sympathy of the entire community.

Sylvester and Prince Staats will leave soon for Salem where Sylvester will continue his law studies at Willamette university. Prince will enter the same institution and will take the same course.

Arthur Johnson left yesterday morning for Portland to take a course in pharmacy. Arthur was undecided whether he would enter a school at Portland or the state school at Corvallis, but will decide later.

Rev. Mitchell will leave next Tuesday to attend the synod at Newberg, Or., and also the presbytery and the 40th anniversary of the birth of John Calvin, the two latter events to be observed at Portland.

Geo. Jones has bought Charley Ethridge's outfit and will embark in the freighting business. Mr. Ethridge, who has attended very closely to business during the past five years, is rather run down in health and will take a rest for a while.

The Ladies' Library Club has decided to order \$10 worth of new books. Hereafter regular meetings will be held on Tuesday afternoon every two weeks, the next one on Oct. 5. At the meeting yesterday afternoon two new members joined, Mrs. A. M. Drake and Mrs. E. A. Cast.

W. J. Hightower, formerly of Bend, and son will erect a shingle and lumber mill three miles east of Sedro Wooley, Wash. Two railroads run directly past the mill and both will put in spurs for its use. The state will soon build a large asylum for the insane near the mill, and the Hightowers will furnish the lumber.

A party consisting of Mr. and Mrs. Dick Vandevent, Mrs. W. P. Vandevent and sons Will, George and Claude, and Dr. and Mrs. W. T. Cox started over the mountains Saturday afternoon. George and Claude Vandevent will attend school at Willamette university at Salem; Mrs. Dick Vandevent will visit for some time at Eugene; Dr. and Mrs. Cox will return to their home in New York City; and the others, after visiting in the Valley for a short time, will return to their homes in this vicinity. Dr. and Mrs. Cox became so well pleased with Oregon on this trip that, after straightening up business matters in the East, they will return West and take up permanent residence in southern Oregon.

Leonard Walters, with whom C. H. Erickson had such serious trouble, recently abandoned the Erickson ranch and before leaving—it is generally supposed—completely demolished practically everything on the place. According to report of those who have recently returned from the ranch, chairs and other furniture that belonged to Mr. Erickson were completely demolished and broken into small pieces. A strip four and a half feet wide and some eight or ten feet high was knocked out of one end of the house. A small fence built around the house has entirely disappeared. Nineteen spools of wire and all the machinery on the ranch has been taken away, supposedly by the departing Walters. In short, the place has been completely dismantled and untold damage done, apparently in a malicious, spiteful spirit.

**BOARD OF TRADE BUSY.**

(Continued from page 1.)

Central Oregon points but are undecided as to their exact location, it has been arranged that the Bend leaflets will be on distribution at both these points. This will at least remind the prospective settlers that Bend is on the map and probably cause many of them to "Come to Bend."

The Board is making an effort to induce new comers to get into communication with the papers of their old homes. It is particularly requested that everyone who thinks he can get a "letter home," descriptive of the Bend country, published, should "get busy." It's the very best kind of advertising. If desired, the Board will furnish typewritten letters, which may be touched up and sent off by the individual.

**Rosland News.**

ROSLAND, Sept. 12.—There was a special school meeting held in Rosland Thursday, Sept. 9, for the election of one director and a clerk. Mr. Anderson was elected director and W. G. Fordham was reelected clerk. Geo. T. Sly, the director whose term expired June 21, and who was then reelected, resigned and Mr. Wm. Everingham was elected to serve the unexpired term.

Mrs. Nash and children of Fort Rock passed through Rosland on their way home today.

Joe Taggart drove the Silver Lake stage out today for Will Dorrel.

Mr. and Mrs. C. R. Clausen and Mrs. Nolan and her son George will leave for California tomorrow morning.

Mr. and Mrs. Frank Bogue left for a visit in the Valley last Wednesday.

Wm. H. Caldwell left for the mountains yesterday where he intends to prospect.

Mr. and Mrs. Lee Caldwell have returned from Walla Walla, Wash.

ROSLAND, Sept. 18.—The engine at the sawmill broke down Friday and will probably keep them from cutting several days.

Work on the new school house will commence in a very short time. The lumber will be placed on the ground in a few days.

Mr. and Mrs. Arne Howard and children of Sears Flat have left for the Valley.

Fred Ehrington is driving the Silver Lake stage in Charlie Carmichael's place.

Herb Cook and Charlie Carmichael

have gone for a month's trip to the lakes. They intend to take in Crater Lake before returning.

Arthur Taylor is preparing to go to Colorado.

The travel seems to keep up as heavy as ever. The stage is usually loaded to the guards with prospective homesteaders, most of whom are very much pleased with the desert country.

Mrs. Nettie Schultz and daughter Elma and Mrs. Corbin went to Bend Monday. Miss Elma will stay in Bend and attend school there.

Miss Eva L. Wise was down to Bend the latter part of the week.

**Tumalo Items.**

TUMALO, Sept. 18.—Mr. and Mrs. Wooley of Bend, formerly of Seattle, were visiting at Tumalo today.

Homeseekers from the Valley pass through here every day, taking advantage of getting in before the boom.

The sheep are beginning to move back from the summer feeding grounds in the Cascades to their winter quarters.

J. O. McKinney of Gist tarried a few minutes in Tumalo one day last week returning from a business trip to Bend. Mr. McKinney is very enthusiastic over the outlook for Central Oregon.

Mr. and Mrs. Spoo and son Herman of this place and Mr. Wright and Burkhardt of Gist were business visitors at Bend one day last week.

**These Patent Tension Shears**  
**FREE!**  
**To BULLETIN Subscribers.**

This latest and most useful Household Invention will be sent FREE, postage prepaid, to every new, cash-in-advance year's subscription to The Bulletin. If you are already a subscriber, send us \$1.50 on your own subscription and \$1.50 for a year's subscription for your neighbor or someone who is not now getting The Bulletin, and get a pair of these shears free.

If your subscription is about to expire you cannot afford to miss this opportunity to secure a pair of Shears whose cutting edge will never wear dull, and which will cut anything from wet tissue paper to a heavy horse blanket. A pair of these shears are given free to every new cash-in-advance subscriber.

The Tension Spring attachment does away with resharpening entirely and enables the user to set the tension on the rivet so that any kind of material may be cut with perfect ease without tiring the hand. The Tension Spring takes up all wear on the rivet, making the shears practically indestructible. A simple turn of the little thumb-screw, shown in the engraving, tightens up the blades as closely as may be desired. Any woman who has had the exasperating experience of trying to use a dull pair of shears can readily appreciate the value of the new invention WHICH KEEPS THIS PAIR OF SHEARS ALWAYS SHARP and in perfect cutting condition. No matter how many pairs of shears or scissors you may have around the house, you need this pair with the Tension Spring, and when you get and use it once, you will use it in preference to any other you may have. These shears are perfectly finished and heavily nickel-plated.

**WE GUARANTEE**

the quality of the material and workmanship in this pair of shears to be first class, that the Tension Spring device doubles the usefulness of the shears and does away with the need of resharpening. Furthermore, a Guarantee Certificate, by the manufacturers, accompanies every pair, agreeing "that if this pair of shears BREAKS or in any way becomes defective within FIVE YEARS from date of purchase it will be replaced with a NEW pair without cost."
