Claude Smith and Hugh Lakin, former Bend young men, have purchased an interest in the W. F. King hardware business at Prineville. They have incorporated under the name of the "W. F. King Company."

C. H. Ellis and family, who have been living in the old river bed section near Powell Buttes, will move to Bend in about a month. Mr. Ellis plans to follow his trade, that of carpentering. They have rented the Fry house in Deschutes.

Frank L. Buxton is coming out from Portland with a 30 Chalmers-Detroit auto which he will operate through this section in connection with the J. H. Wenandy livery service. His machine is exactly similar to the one recently purchased by Mr. Wenandy.

The Merrill & Wilkinson Company have fitted up an office in the Triplett building which is probably the "swellest" in town. They are engaged actively in the real estate business and report that they are receiving numerous inquiries regarding this section.

F. O. Minor reports that there is a great increase in postoffice business, and that much mail is coming to the Bend office addressed to new names. Another indication of the number of people that are being attracted to this section by the building of the railroads.

A. A. Aldridge, Harry Turpin, Henry Whitsett and Glen Eyre left Saturday for the up-river country on a bear hunt. Before leaving they were making arrangements for the sale of bear skins to customers in Bend but would consider no orders for less than a dozen skins to a person.

Last Thursday evening Mrs. M. J. Morrison was hostess to a few friends at dinner, the occasion being in the nature of a surprise on Mr. Morrison and in honor of his 46th birthday. The guests present were the Misses Maude and Grace Vandeventer, Marion and Pauline Wiest, Ovid Riley and Dr. Coe.

R. A. Puett arrived in Bend Friday, coming in from his present home at San Jose, Calif. Mr. Puett reports that his wife's health is ever so much better there. He came to be present at the adjudica-

tion of water rights on Tumello creek, from which he and others have taken out a ditch to water their land west of town.

E. W. Richardson has recently opened a new road starting near the big stove pipe flume and running directly west until it strikes the Bend-Prineville road. This road will prove a great convenience to the people in that section and puts them two or three miles closer to Bend than heretofore, thus making Bend their nearest trading point.

Three new men to file on 320-acre homesteads on the High Desert during the past week are Halleck Halgerson, George Erickson and Julius Peterson, all of Butte, Mont. The first two gentlemen have families, which they will move here at once, and the three of them will begin improving their places at once. They were located by John Steidl.

With the development of Crook and Lake counties, incident to railway activities, we look for 100,000 industrious people in Bend and Silver Lake regions within three years—a district fully capable of sustaining 500,000—who will increase the wheat product of Oregon from 14,000,000 to 40,000,000 bushels, long before Portland enumerates its 500,000 consumers.—Moro O bserver.

F. M. Saxton, of Baker City, superintendent of water division No. 2, came to Bend Monday evening after the hearing at Laidlaw and took the stage auto out the next morning. He was accompanied by the assistant engineer, H. K. Donnelly, and F. E. Dayton, the two latter gentlemen proceeding to Paulina lake to perform some duties in connection with the water board's office.

So many people are coming into the Bend country that the stage lines have all they can do to handle the traffic. J. H. Wenandy has been running his two stage automobiles to their full capacity, and then was unable to bring the travelers through as soon as they wished.

His third auto has also been busily engaged. Great quantities of express is also coming in—two wagon loads at a time. From present indications the stage lines will have to increase their equipment or not be able to handle the traffic.

In the case of Woods vs. Kotzman, tried last Thursday afternoon in Justice Merrill's court, the jury returned a verdict favoring Woods. The case involved the ownership of a cow which Woods had bought from J. H. Oneill, who got her from the Aunes—the Aunes having purchased her from L. H. McCann who raised the animal from a calf. The cow wandered out on the desert and was lost from McCann for several months. When recovered she bore numerous brands—one of them being Mr. Kotzman's—and it was by these brands that he endeavored to es-

tablish title to the cow, and failed. Atty. Benson of Bend argued for Woods and Atty. Bernier of Prineville for Kotzman.

ALSO FIVE SPECIAL PRIZES AS FOLLOWS.

One silver cup for each state, value \$50, for the best individual display of farm products made by any town or community in states named above.

One silver cup, value \$35, for the best individual exhibit of winter wheat, Turkey Red variety, grown in any of the three states named above.

One silver cup, value \$35, for the best individual exhibit of alfalfa seed, any variety, grown in any of the three states named above.

Any person or community drawing cup prizes cannot also take first money prize in any contest.

The Bend Board of Trade already is actively engaged in collecting the exhibit. Yesterday Hunter & Staats drove out to Powell Buttes to secure what they could, and other sections will be visited also. Arrangements are being made to secure numerous large photographs of the Bend country to accompany the exhibit. It is of great importance that this section be represented by its very best products, and everyone, far and near, is requested and urged—and we cannot emphasize this too strongly—to bring in anything and everything that may be acceptable for this exhibit. Let all help.

# These Patent Tension Shears

## FREE!

### To BULLETIN Subscribers.

This latest and most useful Household Invention will be sent FREE, postage prepaid, to every new, cash-in-advance year's subscription to The Bulletin. If you are already a subscriber, send us \$1.50 on your own subscription and \$1.50 for a year's subscription for your neighbor or someone who is not now getting The Bulletin, and get a pair of these shears free.

If your subscription is about to expire you cannot afford to miss this opportunity to secure a pair of Shears whose cutting edge will never wear dull, and which will cut anything from wet tissue paper to a heavy horse blanket. A pair of these shears are given free to every new cash-in-advance subscriber.

The Tension Spring attachment does away with resharpening entirely and enables the user to set the tension on the rivet so that any kind of material may be cut with perfect ease without tiring the hand. The Tension Spring takes up all wear on the rivet, making the shears practically indestructible. A simple turn of the little thumb-screw, shown in the engraving, tightens up the blades as closely as may be desired. Any woman who has had the exasperating experience of trying to use a dull pair of shears can readily appreciate the value of the new invention WHICH KEEPS THIS PAIR OF SHEARS ALWAYS SHARP and in perfect cutting condition. No matter how many pairs of shears or scissors you may have around the house, you need this pair with the Tension Spring, and when you get and use it once, you will use it in preference to any other you may have. These shears are perfectly finished and heavily nickel-plated.

## WE GUARANTEE

the quality of the material and workmanship in this pair of shears to be first class, that the Tension Spring device doubles the usefulness of the shears and does away with the need of resharpening. Furthermore, a Guarantee Certificate, by the manufacturers, accompanies every pair, agreeing "that if this pair of shears BREAKS or in any way becomes defective within FIVE YEARS from date of purchase it will be replaced with a NEW pair without cost."
