NO. 33

BEND SCHOOLS WIN 44 1ST PRIZES AT COUNTY FAIR

MAKE BEST SHOWING IN SCHOOL EXHIBIT

High Efficiency of Our Public School System Plainly Demonstrated in Contest for Prizes with Other Schools of County---Citizens Proud of Record Made.

Forty-four first prizes is the record made by the Bend schools at the county fair at Prineville last week. Forty-four blue ribbons and forty-four pleased scholars—and incidentally six proud teachers. This is a most enviable record and one of which not only the pupils and teachers but the entire town may feel justly proud. The showing made by the Bend school places it practically at the head of the schools of the county.

The high school took 14 prizes, the grammar grades 8, intermediate grades 11, and primary department 10. No better evidence is needed of the superiority of the schools of Bend. From the very beginning of the town, it has been the aim of its citizens to build up an educational system here that would give the children the very best that could be had in this line. This is now being realized and the schools at Bend are the pride of her citizens. The teachers and pupils are to be congratulated upon the showing they made in competition with the other schools of the county. Below we give a complete list of the prizes, and the pupils who won them:

HIGH SCHOOL.
CLASS PRIZES.
Senior—English.
Junior—Geometry and German.
Sophomore—Phy., Geog. and History.
Freshmen—Bookkeeping, Botany.

INDIVIDUAL PRIZES.
Angeline Loung—Senior English.
Max Richardson—Junior Geometry.
Angeline Loung—Junior Physics.
Margaret Wiest—Sophomore Phy. Geog.
Alice Caldwell—Botany.
Fern Hall—Freshmen Bookkeeping.
Fern Hall—Freshmen English.

GRAMMAR GRADES.
CLASS PRIZES.
Eighth Grade—Grammar.
Seventh Grade—Arithmetic, Spelling.

INDIVIDUAL PRIZES.
Elizabeth Wormstaff—Eighth Arith.
Claude Kelly—Eighth Geography.
Robert Innes—Seventh Grammar.
Fay DeYarmood—Seventh Arithmetic.
Ruth Caldwell—Seventh Geography.

INTERMEDIATE GRADES.
CLASS PRIZES.
Sixth Grade—Grammar, Hist., Arith.
Fifth Grade—Arithmetic.
Fourth Grade—Arithmetic.

INDIVIDUAL PRIZES.
Earl Kulp—Sixth Grammar.
Marie Fox—Sixth Arithmetic.
Claire Hunter—Fifth Arithmetic.
Eugene Scofield—Fourth Arithmetic.
Myrtle Nef—Fourth Hygiene.
Marie Brosterhous—Fourth Geography.

PRIMARY GRADES.
Subjects entered—Music, Spelling, Paper Cutting, Seat Work.

CLASS PRIZES.
3rd Music, 1st A Spelling, 1st Paper Cutting, 1st Seat Work.

INDIVIDUAL PRIZES.
Eunice Nef—Third Grade Music.
Mildred Hunnell—Second Grade, Music.
Marie Ray—Second Grade, Music.
Ida Niswonger—1st A Spelling.
Fern Moore—Third Grade Ruffia Mat.
Flady Sather—Second Grade, Weaving.

MCGILLVRAV DISTRICT.
Clyde M. McGillvray—4th Grade Eng.

BEND TEAM CHAMPIONS.

Win Silver Cup and Cash Purse in Good Game at County Fair.

Bend has again been brought into the limelight as a baseball town. Since the early days of the town when "Minnie" Lee and Pitcher Bilyeu were stars on the Bend team, there has scarcely been a single season when we could not boast of a good ball team and a large number of us fanatical fans as one would care to see. Bend is a baseball town and the people of Bend are proud of their team this season.

One reason for The Bulletin's boasting may be seen on display in the window of the Bend News Stand, in the form of a beautiful silver cup on which is engraved, "Crook County Baseball Championship, 1909," presented to the team by the First Central Oregon Agricultural Association at the county fair at Prineville last week. The cup and a cash purse were offered the winning team in a championship contest at the fair, and the Bend team won them both in a perfectly played game on the Prineville diamond Saturday afternoon, despite the fact that the Prineville team had imported two western league players and used some unfair tactics besides. The Prineville catcher held a Bend man's bat at a time when a good hit was badly needed, and Bend's second baseman was "spiked" by a Prineville player. Besides this,

Kulp, one of Bend's best batters, was walked every time up, except the first, when he made a clean two bagger. One thing, however, that is to be said in Prineville's favor is that the decisions by Umpire Spaulding, a Prineville man, were absolutely fair.

Some of the best plays of the game were a star catch in center field by Metke, with a double to first, and a good catch in right field by Swank. Freeman, on first base played a perfect game and Tetherow led with the largest number of hits, securing four. In the third inning Jordon of Prineville made a desperate attempt to steal home from third, but was put out.

The Bend crowd brought home something like \$700 of Prineville money and, if reports are true, could have gotten that many thousand, so sure was Prineville people that they would win the game. The lineup follows:

Bend	Prineville
Tetherow, c.	Zeek, c.
Freeman, 1b.	Belknap, 1b.
Kulp, 3b.	Ford, 2b.
Swank, 2b.	Bailey, 3b.
Nelson, ss.	Barnes, 1b.
Metke, cf.	Belknap, ss.
Beeson, rf.	Jordon, cf.
Weider, lb.	Hinkle, rf.
Immelee, p.	Short, p.

Score by Innings.
1 2 3 4 5 6 7 8 9
Bend—1 0 0 1 0 0 1 0 0—3
Prineville—0 0 0 0 0 0 0 2—2

Summary of Game.
Hits off Immelee, 6; off Short, 12; struck out by Immelee, 10; by Short 5; Errors—Prineville 5, Bend 0. Umpire—Dr. Spaulding.

GENERAL NEWS NOTES.

RECLAIM "MCKAY BENCH."

The State Desert Land Board has approved the scheme to reclaim, or irrigate, a thousand acres of land on the "McKay Bench," above Prineville. Work on the canal, which will divert water from the Ochoco river at a cost of \$6,000, will start Nov. 1st.

STRAWBERRIES IN OCTOBER.

D. C. Cole, a rancher who lives three miles northwest of town, brought to the Hub office on Tuesday a fresh lot of strawberries that he had just plucked from vines on his ranch. One of them measured 3 1/2 inches in circumference. He says he picked a quart that day. Anyhow we have the berries.—Redmond Hub.

BIG CATTLE DEAL.

The Silver Lake Leader has the following concerning a big cattle deal: Hayes Bros. sold on last Friday to Charles Horton, the well known cattle buyer, 1100 head of cattle, consisting of cows, calves and steers. In this deal Mr. Horton also purchased 350 tons of hay and a thousand acres of pasture. It is the intention of Mr. Horton to sell the steer calves which number about 200, and then remove a portion of the remaining cattle to his Klamath county ranch, and bring in in their place some 400 head of steers which he has purchased of J. E. Ryan on the Deschutes and will feed them for beef until spring.

GREAT PACIFICATOR.

Deputy Sheriff Millard Triplett was in town from Bend Monday. He says the nearness of the Deschutes to his district keeps things quiet. When the people have nothing else to do they go fishing over there and this has a great tendency for peace.—Prineville Journal.

NEAR BEER ELECTION.

The Prineville Journal says from the present outlook it is probable that there will be an election held in Prineville under the referendum to decide whether or not near beer may be sold in that place.

STATION AT MADRAS.

The Madras Pioneer reports that the Oregon Trunk Line will locate a station at Madras, and has already established siding and grade locations for that purpose.

INDEMNITY SELECTION LAND \$10.

At a meeting of the State Land Board recently it was decided to increase the price of indemnity selection land from \$8.75 to \$10 an acre. The state still owns about 90,000 acres of this class of land. The new price went in effect at once.

NEW TOWN AT TRAIL CROSSING

Crook county is to have a new town. What its name is, or whether it has yet been named, was not learned, but it will be located at Trail Crossing, about six miles below Redmond, where the Oregon Trunk Line survey crosses Crooked river.

A party of surveyors with a man in charge left Bend yesterday for that place, and will plat the townsite at once. The men behind the new townsite project are A. B. Hammond and V. D. Williamson,

BUY RIGHT-OF-WAY IN BEND DISTRICT

Oregon Trunk Line Agent Now Busy at Bend.

EARLY CONSTRUCTION HERE

Harriman Line Also Well Along and May Be Completed as Far as Madras by Next June and to This Section Later.

Matt Clark, right-of-way agent for the Oregon Trunk Line, accompanied by E. B. Shannon, arrived in Bend Monday night and will begin the acquirement of right of way for that line at once.

This is indeed good news for Bend, as it undoubtedly means that preparations are in progress for finishing the construction of the line at least this far, without delay. There are other good indications which may soon be made public, that construction work will soon be commenced here, but on these The Bulletin is pledged to secrecy for the present. Suffice to say, men who ought to know, are practically certain that construction crews will be at work here before the first of the year. The fact that right of way is being bought is only further proof of this intention. Bend will be the busiest place in Eastern Oregon by the time spring comes again.

Survey Line Through Bend.

The question of just where the Hill railroad will run through Bend and the Bend country seems to be the engrossing one in the minds of the people here at present. From this standpoint, The Bulletin believes that most of its readers will be interested in knowing that during the past week the Hill surveyors have run a line through the eastern part of Bend, running south along the west side of the Pilot Butte canal for some distance. The survey passes directly through the Lytle townsite, and a significant feature of the work on this new route is that the exact dimensions and location of each building located on the line of right of way is being carefully noted. This would seem to indicate that the Hill people have strong expectations of locating permanently on this line and are taking this data to enable them to act wisely in buying and removing these buildings.

Though there has been some speculation as to just the route the road would take in passing through Bend, there can be no doubt that it is the intention of the company to make this place one of its chief centers and a permanent location

on the survey in question will occasion no surprise here. The Hill railroad will pass THROUGH Bend.

Harriman Road Well Along.

The Oregonian of Oct. 23 says: "The completion of the Deschutes railway into Madras by next June is the present hope of the Harriman construction forces, and the prediction is made in the offices of the company that trains will be running regularly to that point by the middle of the coming summer. "The promise is not definitely made, as unlooked-for obstacles are frequently encountered in railroad work, but progress so far has been so satisfactory that such a time limit for the completion of that portion of the road is now indicated. "If these hopes are fulfilled, the original time fixed for the completion of the railroad through the Deschutes canyon will have been shortened from eight months to one year. As previously outlined, the work was to require nearly two years.

"The company has been rushing construction this fall, however, and now has a force of 2300 men in the field. In addition, five steam shovels and 800 teams are working. "Preparations are being made to use a steam shovel in the construction of the 800-foot tunnel at Horseshoe Bend. The character of the preliminary work shows that a shovel may be used to advantage, and one is now being taken down Mack's canyon to begin work at the south portal. When the shovel is in operation the tunnel will go ahead at the rate of 30 or 40 feet a day.

"Beyond Madras there is some heavy viaduct work to be done, and this can be accomplished to best advantage after rail transportation is given to that point. "Near the mouth of the canyon 15 miles of grade have been practically completed. The grade, however, has not all been connected up, owing to the heavy work in getting over the Moody dam. The entire field is covered with construction crews to and beyond Madras, with the exception of one point of conflict with the Oregon Trunk line."

The completion of the road on south into the irrigated section will come later in the year, according to the Oregonian.

ADVERTISE, SAYS RICHARDSON

Sage of Portland Com. Club Gives Bend Good Advice.

In a letter to the Bend Board of Trade Tom Richardson, manager of the Portland Commercial Club, and the best known and ablest booster in the Pacific Northwest, has this to say about the Bend country:

"Your section of the state is being widely discussed, and Bend is particularly in the eyes and minds of the general public. It would be an infamous crime if your people do not awake to the situation and do some real advertising. Ten thousand dollars spent now in legitimate, common-sense advertising will bring back a million dollars in returns, but it's got to be done properly under an organized body such as yours."

Every business man in Bend knows this is the truth. No doubt they will act wisely and promptly.

BOARD OF TRADE WORK VALUABLE

Good Results Secured by Way of Advertising.

BOOSTING FOR THIS SECTION

Secretary of Board Writes in Publications with Large Circulations About Opportunities in Bend and Deschutes Country

The Bend Board of Trade is doing good and profitable work these days in the way of advertising and furnishing information to inquiries about the Bend country. The secretary of the Board has succeeded in securing space in the last issues of both the Portland Chamber of Commerce Bulletin and the Pacific Homestead for excellent articles setting forth the advantages for the homeseeker, farmer, manufacturer and investor offered at present in Bend and the Bend country. The articles enumerate in a pleasing manner the opportunities offered here in the way of water power, raw material for manufacturing, good school facilities, excellent farm and garden lands at low prices, free homestead lands, dairying, business chances, etc.

Already these articles have borne fruit. During the past week 45 letters have been received by the Board, 15 of which referred directly to the articles, particularly to the one in the Pacific Homestead.

Copies of the Chamber of Commerce Bulletin are on sale at the office of the Bend Board of Trade, up stairs in the First National Bank building, at 10c per copy. This is good literature to send to Eastern friends who are, or may become interested in this section, and doubtless a large number of copies will be bought and mailed out. The first paragraph of the article in this publication reads as follows:

"Today all eyes are directed toward Central Oregon. After a decade of hopeful waiting and unfulfilled promises the railroads are at last about to give transportation to the greatest and richest undeveloped area in the West. Now indeed, could the citizens of the Deschutes country, borrow a well known catch word and declare "watch Central Oregon grow," for the development of this country in the next three years will surpass anything hitherto seen even in the wonderful Northwest."

Sisters Man Badly Hurt.

Chas. Hinderman of Sisters was badly hurt Sunday. He, with his wife and a little girl, was driving home from Bend, and on the way met a motorcycle, which frightened the horses. In the mixup that followed Mr. Hinderman, with the other occupants of the vehicle, was thrown out and his collar bone broken. The lady and little girl were only slightly hurt.

INTER-EIGHTH GRADE DEBATING SOCIETY ORGANIZED

An Inter-Eighth Grade Debating Society was organized during the Institute at Prineville, for the purpose of creating ability and desire for public debating among the public school pupils of Crook county. The county was divided into three districts, Bend, Prineville and Madras forming the centers of the "Triangular Debating League," the name given the society. The surrounding schools of these respective places will be allowed and

expected to enter the local debates held throughout the school year. Only one or two debates a year will be held among the Triangular Debating League. The following officers and members were elected to constitute an executive board: Pres. Prof. Cook, of Madras; vice president, Miss Vandevent, of Bend; secretary-treasurer, Prof. Ashby, of Prineville. Supt. Ford and Mrs. Wickersham of Prineville and Prof. Myers of Redmond are members of the League.
