Don't treat children's troubles lightly; their trials are as big to them as those of grown-up people. Don't fail to instill a deep sense of kindness to dumb animals—a cruel boy generally makes a cruel man. Don't neglect an untruth or dishonorable action—teach your children to face these out and it will make them courageous. Don't encourage whining or tale-telling. Don't lose your children's confidence—try to live close to their hearts.

Not Her Way.

Elderly Relative—Lucy, you surely don't think of marrying Geoffrey to reform him!

Miss Lucy—Gracious, no, auntie! I'm trying to reform Geoffrey in order to marry him, and I'll either succeed in doing it or I'll break his neck!

PREVENTION THE BEST SAFEGUARD

If for any cause the horse or other domestic animal exhibits a lack of energy, proper relief for food, or an appearance of general debility, timely action should be taken for the restoration of its health. In the natural food of our domestic animals Nature provides certain peculiar medicinal herbs, leaves, bark and roots which seem necessary for their health. Pacific Stock Food in greatly condensed form is intended to supply the essential virtues of those health-giving natural remedies and is prepared expressly for those animals deprived by man of their natural food. It is an alternative tonic which stimulates the various organs of the body, promotes the secretions, tones up the general system and restores the disordered conditions to a normal state. It stimulates the appetite, improves the digestion and assimilation of food, purifies the blood and insures a good, healthy condition. Booklet free.

Many Women who are Splendid Cooks

dread having to prepare an elaborate dinner because they are not sufficiently strong to stand over an intensely hot coal range. This is especially true in summer. Every woman takes pride in the table she sets, but often it is done at tremendous cost to her own vitality through the weakening effect of cooking on a coal range in a hot kitchen.

It is no longer necessary to wear yourself out preparing a fine dinner. Even in the heat of summer you can cook a large dinner without being worn out.

New Perfection
WICK BLUE FLAME
Oil Cook-stove

Gives no outside heat, no smell, no smoke. It will cook the biggest dinner without heating the kitchen or the cook. It is immediately lighted and immediately extinguished. It can be changed from a slow to a quick fire by turning a handle. There's no drudgery connected with it, no coal to carry, no wood to chop. You don't have to wait fifteen or twenty minutes till its fire gets going. Apply a light and it's ready. By simply turning the wick up or down you get a slow or an intense heat on the bottom of the pot, pan, kettle or oven, and nowhere else. It has a Cabinet Top with shelf for keeping plates and food hot, drop shelves for coffee, teapot or saucepan, and even a rack for towels. It saves time, worry, health and temper. It does all a woman needs and more than she expects. Made with 1, 2, and 3 burners; the 2 and 3-burner sizes can be had with or without Cabinet.

Refect.

Once when passing through a cemetery in Lenox Elliot Gregory was surprised to see that the members of one old New England family had been buried in a circle, with their feet toward its center. He asked the reason for this arrangement and a wit of that day, daughter of Mrs. Stowe, replied: "So that when they rise at the last day only members of their own family may face them!"

AERONAUTS FALL FOUR MILES; LIVE

Rip Cord Works Too Well, and Balloon Collapses.

Vice-President of Aero Club Passes Through Snow Storms on 400 Mile Flight.

Horse Cave, Ky., May 12.—After a thrilling flight of 400 miles, during which they ascended to an altitude of 20,000 feet and encountered two snow storms, A. L. L. Forbes, of Bridgeport, Conn., vice president of the Aero club of America, and J. C. Yates, of New York, lost control of their balloon, the Viking, yesterday afternoon and descended so rapidly that both were badly bruised and the balloon partly wrecked.

The balloon came to earth near Center, Ky., a hamlet about 20 miles from Horse Cave, and dropped through the final 100 feet of space like a stone.

The escape of the balloonists from instant death was little short of miraculous.

"We left Quincy, Ill., at 6:55 o'clock Monday evening," said Mr. Forbes. "We were hoping to strike favorable air currents from the West that might give us a chance at the long-distance record. We were carried in a semi-circle, passing over parts of Illinois, Missouri, Indiana and Kentucky.

"Tuesday morning we encountered intense cold and a severe snow storm at an altitude of 16,000 feet. Tuesday afternoon at an altitude of 16,000 feet we ran into another snow storm. Shortly afterward we shot up to 20,000 feet. From that time on the cold was so intense that we became numb and half stupefied and gradually lost power to control the balloon.

"I cannot tell what the altitude was just before we made our final drop, but efforts to let out the gas by the valve had not succeeded in bringing us to the ground as fast as desired.

"Finally I decided to use the rip cord before we lost consciousness entirely. In some manner as yet undiscovered, the cord did not work well and ripped the bag almost from top to bottom. The descent was terrific, and I judge that for the last 100 feet there was very little gas left in the balloon, as it fell like a stone."

Mr. Forbes was able to dictate a few letters and telegrams to friends and relatives. Both men are being cared for at the home of a farmer, Tilden Boston, near Center. Forbes' injuries are not serious, but the physicians are yet doubtful in the case of Yates.

DISCOVERS KEY TO NATURE.

Four Geometric Units Compose All Known Forms.

Los Angeles, May 12.—Philip W. T. R. Thompson has set local scientific circles agog by claiming to have discovered the fundamental forms upon which the entire physical world is reared.

He asserts that chemistry, the vegetable and mineral realms and mathematics in all its stages have their bases in certain fixed and unvarying forms, which are only four in number.

Explaining his new science, which he termed stereometry, before a body of Southern California educators, yesterday and today, Mr. Thompson declared that with the four units, which he illustrated with wood models, he could produce any geometric shape now known and many never dreamed of.

There was no limit to the minuteness or to the colossal proportions of the creations built of these forms. Combined in octaves or in series of seven, he said, they interpreted nature in its infinite variety from the tiniest molecule to the mightiest sun.

Mr. Thompson said that there was no form of crystal, snowflake or any geometrical conception which he would not produce with a combination of two or more of his four units.

Mr. Thompson labored nine years to bring his discovery to its present state. He says he devoted 20 hours of every day to the task.

Lion Toys With Tiny Babe.

Cleveland, Tenn., May 12.—A trained lion being exhibited on an opera stage here tonight suddenly became again the bloodthirsty beast of the jungle, and, snatching a babe from the arms of its mother, carried it to the back of the stage, dashed it to the floor and planted both his forepaws on the little one's body, licking the blood from the wounds on the baby's head and face. Frantic citizens advanced on the lion and diverted its attention, while a man snatched the baby. The child is terribly lacerated but may live.

Gohl Guilty in First Degree.

Montesano, Wash., May 12.—After requesting further instructions at 11:50 last night as to whether or not a verdict of murder in the second degree could be returned if premeditation was shown, and being ordered by the court to return to the jury room and read their instructions, the jury in the trial of William Gohl for the murder of Charles Hadberg at 12:35 this morning brought in a verdict of guilty of murder in the first degree.
