Cook in Comfort
You no longer need wear yourself out with the weakening heat of an intensely hot kitchen. You can cook in comfort.

Here is a stove that gives no outside heat. All its heat is concentrated at the burners. An intense blue flame (hotter than either white or red) is thrown upwards but not around. All the heat is utilized in cooking—none in outside heating.

New Perfection
WICK-BLUE-FLAME
Oil Cook-stove

entirely removes the discomfort of cooking. Apply a match and immediately the stove is ready. Instantly an intense heat is projected upwards against the pot, pan, kettle or boiler, and yet there is no surrounding heat—no smell—no smoke.

Why? Because The New Perfection Oil Cook-stove is scientifically and practically perfect. You cannot use too much wick—it is automatically controlled. You get the maximum heat—no smoke. The burner is simple. One wipe with a cloth cleans it—consequently there is no smell.

The New Perfection Oil Cook-stove is wonderful for year-round use, especially in summer. Its heat operates upward to pan, pot, or kettle, but not beyond or around. It is useless for heating a room.

It has a Cabinet Top with shelf for keeping plates and food hot. It has long turquoise-blue enamel chimneys. The nickel finish, with the bright blue of the chimneys, makes the stove ornamental and attractive. Made with 1, 2 and 3 burners; the 2 and 3-burner stoves can be had with or without Cabinet.

Not Mr. McQuinn, Scotch highlanders, who still speak the Gaelic at times, settled much of the country north of Toronto. One day Dr. Rutherford, locally famous, was looking for some men to do some work for him. He went to a village blacksmith shop and found several of these Scotchmen standing about.

"Are you a mechanic?" he asked one of them.

"Nay," he replied, "I'm a McQuinn."
—Philadelphia Saturday Evening Post.

Almost a Failure.
"Doctor, you operated on that patient in No. 49, didn't you?"
"Yes."
"Make a successful job of it?"
"No, I didn't. The operation was disgustingly simple, and the man wasn't in the slightest danger at any time. The elaborate preparations I had made for handling a critical case were wholly wasted."

With the Eye of Faith.
"Dr. Fourthly, don't you believe the time is coming when the swords shall be beaten into plowshares and the spears into pruning hooks, and men shall learn war no more?"
"Indeed I do, Brother Millier."
"But when?"
"About the time when that other prophecy is fulfilled—and then shall the end come."—Chicago Tribune.

Environment.
The person with the Van Dyke beard and the artistic temperament had died and gone to the abode of the blest.

"Well, what do you think of it?" they asked him.

"The scenery is not bad," he answered, "but the music is hopelessly crude and archaic."

Spring-Cleaning
The Human System Needs It.

Mrs. M. Morgan, 411 4th Ave. E., Brainerd, Minn., writes: "I take from one to two bottles of Hood's Sarsaparilla in the spring to purify the blood just as regularly as I do my house-cleaning, and go around light-footed and light-hearted. I believe it is the best blood purifier known."

Hood's Sarsaparilla so combines the curative principles of roots, herbs and salts as to raise them to their highest efficiency; hence its unequalled cures. Get it today in usual liquid form or tablets called Sarsatabs.

PAULHAN VICTOR
IN AIRSHIP RACE
Frenchman Wins Prize of \$50,000 by Long Flight.

Flies Half the Length of England, Making Trip from London to Manchester with One Stop.

London, April 28.—The Frenchman, Louis Paulhan, whose efforts have frequently been crowned with victory, today won the greatest race in the history of mankind and \$50,000 when he flew into Manchester at 5:30 o'clock this morning, having traveled by aeroplane from London, a distance by railway of 186 miles, with only a single overnight stop at Lichfield.

His competitor in the contest, Graham White, the English aviator, after making a successful new start at Reade, where he made his first landing, descended at Polesworth and no advice has yet reached London of his having resumed his flight.

White, who was sleeping peacefully at the time he was apprised of this fact, made a quick start from Park Royal at 6:30 p. m. Paulhan flying high and fast covered 117 miles before he landed, making that distance in two hours and 50 minutes. He descended at Lichfield at 8:10 p. m., and reascended at 4:08 a. m. to complete the journey. White succeeded in reaching Reade, a distance of about 60 miles, descending on account of darkness at 7:55 p. m. He managed to overcome some of the handicap by starting again on the long journey to Manchester at 2:50 a. m. He landed, however, at Polesworth, which is about 60 miles from Manchester.

The struggle for the coveted prize took a dramatic turn last night when Paulhan stole a march on his English rival, Graham White, which placed him 20 miles ahead of the race when darkness compelled him to alight for the night. This forenoon the weather was favorable, but owing to the heavy work of preparing the machine, it was supposed the start would be deferred until Thursday. The two aviators had met early and discussed plans, expressing hope that they would meet each other in Manchester.

Late in the day White, tired from his heavy labors, returned to his hotel and went to sleep, intending to start tomorrow morning. Meanwhile the spectators at Hendon were surprised to see Paulhan, after trying his engine, take farewell of his wife, who tied a large map of the route around his waist, and take his seat in the aeroplane.

Word that the Frenchman had started quickly reached Park Royal. Rushing into White's room, his friends awakened him. White sprang to his feet, flew downstairs, jumped into a motor car and made for the garage at full speed, and within 20 minutes was sailing around the gasometer at Kensal Green in the first stage of what will certainly be the most exciting contest ever held in Great Britain.

While passing over Bletchley, 18 miles south of London, 70 minutes behind Paulhan, he was flying considerably higher than the Frenchman and seemed to be making faster time and taking a straighter course.

The news of the race spread like magic in the towns and villages along the railway, which the aviators followed closely, Paulhan being followed by a special train steaming rapidly northward. The people gathered everywhere to get a view of the novel sight. The sun went down and the cloudless sky gave the spectators an opportunity to watch the aviators as they flew at varying heights.

Anarchists Dog Roosevelt.
Paris, April 28.—Great relief comes tonight to the French government with the close of the visit of ex-President Roosevelt, for it is reported to have been considerably alarmed for his safety. According to an evening newspaper, the police were advised from Naples that the American anarchists were following him and a most rigorous surveillance has been instituted here. The ex-president has been accompanied everywhere by two inspectors of the anarchist brigade in plain clothes.

Hermann Grows Weaker.
Roseburg, April 28.—According to a bulletin issued by Dr. Miller, the attending physician today, Binger Hermann's condition is considered about the same as yesterday. The bloating condition of the spleen has practically disappeared and he partakes of limited rations regularly. However, the physicians believe that he is growing weaker, presumably due to his advanced age and prolonged confinement. His final recovery is considered doubtful.

500 Miners Are Entombed.
London, April 28.—Five hundred miners were entombed today at the Tyn-y-Betu colliery in Wales as a result of the breaking down of the cage machinery. The managers are endeavoring to make connection with the miners through another shaft half a mile distant.

Not a drop of Alcohol

Doctors prescribe very little, if any, alcohol these days. They prefer strong tonics and alteratives. This is all in keeping with modern medical science. It explains why Ayer's Sarsaparilla is now made entirely free from alcohol. Ask your doctor. Follow his advice.
