Clothes for the Boy.
 An occasional suit in heavy pongee is seen, even for the boy of ten, and this, too, is self-trimmed and finished with the strictest tailor effects, as a first-class outing shirt for a man would be. The waist which older boys are best pleased with has a center box plait and one or more pockets. A heavy leather belt, with large buckle and a soft tie, often a Windsor, are the usual accompaniments to such suits. Low, rolling collars are provided for the boy of five to seven, but a high turn-over form is preferred for the older boy—Harper's Bazaar.

HAZEL CAINE ON KING EDWARD.

Author Tells Story of Dead Monarch's Visit to Isle of Man.
 During a visit to the Isle of Man, where I first had the honor to come to close quarters with him, he took obvious pleasure in the freedom with which the people who surrounded his person spoke to him, Hazel Caine says in the New York Herald.
 I remembered that one of our company said, pointing to the little gray town of Ramsey, which in a few hours had become transfused into an oriental city, under the blaze of every available scrap of bunting.
 "This beats coronation day in London, your majesty."
 The King smiled and gracefully allowed himself to agree.
 There were no police with him that day, no detectives and hardly any escort—only a gentleman in light bowler, two ladies in sailor hats, with a few carriages full of friends behind them and a number of bicycle journalists straddling at their side. It was a charming picture—a picture probably without parallel in any foreign country. It was the picture of a sovereign who felt absolutely safe in the love and protection of the people over whom he ruled.
 "I trust we have not tired you to death, sir," I said.
 He answered:
 "It has been simply delightful. I've enjoyed it all immensely."
 The King's memory was an extraordinary gift. Pointing to a monument on top of a hill, one of our party said:
 "That is Albert Hill, sir. The tower is Albert Tower, so called after a picture of the prince consort's visit to Ramsey in 1847."
 "I remember perfectly," said the King. "I was on the yacht with the Queen, but I was only 7 years of age and the Queen was ill, so I did not come ashore."
 "Perhaps you remember, sir, what happened when the prince consort landed."
 "I do. He had come unexpectedly. There was nobody to receive him and a local barber took him to the top of the hill." A memory that retains an incident of such little moment can never have failed Edward VII. in relation to greater events of his life.

Japanese is Hardest to Learn.
 The Japanese language is claimed to be the hardest of all to learn. Even the Japanese find it hard, and several American army officers have found it impossible to master it. It takes the Japanese child seven years to learn the essential parts of the alphabet, and one must become familiar with 214 signs to learn this simple part of the language alone. The 214 signs serve as the English initial letters in our alphabet. To be able to read any of the higher class of Japanese newspapers one must be the master of from 2,500 to 3,000 ideographs.—Albany Journal.

FASHION HINT

The wardrobe of the summer girl who hasn't one or more little dresses on the order of the one sketched here, is decidedly incomplete.
 This is of light blue handkerchief linen, plentifully trimmed with Irish lace, but carried out very simply. The style is one that is not extreme but always dainty and becoming.

HOUSEHOLD HINTS.

A plain salt gargle is very good for sore throat.
 Gasoline is good to clean soft white leather shoes.
 All frozen puddings are improved by being served with whipped cream.
 Use ammonia and water rather than soap and water for washing marble.
 Milk is good to wash white paint; cold tea equally good to wash colored paint.
 In buying potatoes pick those that are firm and hard and have the fewest "eyes."
 Left-over biscuit are much better cut in two and toasted than if merely warmed over.
 When cooking mackerel or other salt fish, see that the skin side is placed uppermost.
 To lengthen the life of a tin wash basin, paint its inside with any good quality of paint.
 Clean zinc with kerosene, rubbed on with a soft cloth, and follow with boiling water.
 A whisk broom that has outlived its usefulness can be shortened and made into a sink brush.
 A few chopped almonds added to a custard or bread pudding will greatly improve its flavor.
 A sprig of mint in the water in which potatoes or peas are boiled will add a piquant flavor.
 Sounded Like Smoke.
 "Isn't it disgraceful the way women smoke nowadays?"
 "Why?"
 "I just saw an advertisement offering to any woman six puffs for a dollar."—Purple Cow.

When the Hair Falls
 Stop it! And why not? Falling hair is a disease, a regular disease; and Ayer's Hair Vigor, as made from our new improved formula, quickly and completely destroys that disease. The hair stops falling out, grows more rapidly, and all dandruff disappears.

Mothers Will Find Mrs. Winslow's Soothing Syrup the best remedy to use for their children during the teething period.
Practical Experience.
 The old farmer, equipped with the tools of his trade, was busy near the road.
 "What have you growing in that field," asked the innocent passer-by.
 "Weeds," answered the granger.
 "But why are you cultivating weeds?" queried the other.
 "Because," replied the man behind the hoe, "after years of experience I am convinced that is the only way to exterminate them."

What We May Expect.
 The suffragette meeting had grown red-hot.
 "And what will become of the great brewery buildings when we control the votes?" shouted the leader.
 And the little man who had crept in unobserved shrugged his shoulders.
 "I guess they'll be turned into chewing gum factories and complexion-powder mills," he muttered simply.

Another Catch.
 Gunner—What's the latest news today?
 Guyer—George Washington's auto sold for \$500 in New York.
 Gunner—What are you trying to hand me? There were no autos in George Washington's day.
 Guyer—Who said anything about automobiles? This refers to his autograph.
Modern Education.
 "What are you doing out here on the marsh?"
 "Helping to prepare my boy's lessons."
 "What on earth do you mean?"
 "He is studying natural history, and I have to catch a bullfrog for him to take to school."

WITHDRAW MANY MILLION ACRES

Most of Nation's Attractive Lands Now Tied Up.

Pacific Northwest Suffers Most—Homebuilders Are Almost Completely Shut Out.

Washington—Nearly 300,000,000 acres of public land, the cream of the West, has been withdrawn from entry, and held beyond the reach of the settler and the home-builder. Some of it is permanently withdrawn, as, for instance, the forest reserves, national parks, etc., and other portions may in time be again placed within the reach of the people of the West. But at the present time this enormous acreage is absolutely tied up, undeveloped, inaccessible, and for the most part uninhabited.
 There remains of the public domain only about 700,000,000 acres that is unappropriated and unreserved, and a very small percentage of this residue is attractive or will ever be attractive to settlers. Included in this acreage are the bad lands of the West, the ir-reclaimable deserts, barren mountain summits and worthless mountain country. Only a small portion is arable, and very little is of a character that will permit of agricultural development. The best lands that have not passed to private ownership are now held up by the government.
 In the Pacific Northwest, nearly 55,000,000 acres of public land are today withheld from the reach of settlers.

QUEEN WILL LEAVE MADRID.

Wife of Spain's King to Visit Relatives on Isle of Wight.
 Cowes, Isle of Wight—Within a day or two Queen Victoria, of Spain, will arrive in the Isle of Wight, to visit her relative at Osborne cottage. She needs a rest badly, for Madrid has been full of anxiety of late for the Spanish royal family. She will remain about a month and will be accompanied by her three children, but unless the situation clears in Spain, King Alfonso will not be able to leave for Madrid before the end of the month.
 Queen Victoria's visit is to be purely private throughout, but she will visit Windsor in order to lay a wreath on the tomb of the late King Edward, and she will probably spend a few days in her old home in Kensington palace. It is expected that during her stay, King Alfonso will extend a formal invitation to the king and queen of England to pay him a state visit at Madrid.

Campaign Devoid of Mercy.
 Paris—All danger of serious disturbances in Catalonia appears to have been warded off by Captain General Weyler's energetic precautionary measures and his well known decision of character. General Weyler said: "The moment a revolutionary outbreak in Barcelona compels me, as captain-general, to assume the supreme command, I want the revolutionists to know they must prepare for a merciless fight. There will be neither prisoners nor wounded. The walls of the hospitals will become useless and the cemeteries will have to be enlarged."

Espanto to Be Spoken.
 Washington—The sixth international congress of Esperanto will be in session the week beginning August 14. This will be the first time that the congress has met in the Western Hemisphere, its previous meetings having been in Europe. Esperanto will be spoken in Washington by clergy in the pulpit, by actors in a Shakespearean play, part of the police force and in all the proceedings of the congress. Furthermore, for the first time probably in the history of the world, it will be used at a baseball game.

Fires Again Menacing.
 White Horse, Mont.—Forest fires that were partly subdued by the rains ten days ago, have broken out afresh, after another siege of hot, dry weather, and are threatening to do damage in the heavy timber at the head of Whitefish lake. A new fire has been discovered burning fiercely in the vicinity of the Great Northern tunnel, 10 miles northwest of here. Sheriff O'Connell drafted a small army of men into service and took them to the scene to fight the flames, but the fire had such a start that it is doubtful if they can control it.

Oklahoma Corn Damaged.
 Guthrie, Okla.—The report of the state board of agriculture up to July 25, just made public, estimates the damage to the corn crop in Oklahoma in the last month at 21.3 per cent. This is against a damage of 25.6 per cent in 1909. The board reports the cotton crop holding up well. Since July 25 the hottest and driest weather of the year has been felt and the damage is said to be much increased over the figures made public.

Entire Train is Burned.
 Augusta, Ga.—A Charleston & Western Carolina passenger train ran into a burning trestle 19 miles from Augusta on the Spartanburg division. The entire train was burned. The engineer and fireman were killed and 16 passengers slightly injured.

WITHOUT ARMY, NAVY, POLICE
 Little Nation Less than Half the Size of Greater New York.
 They come together like the teeth of a dog, do the frontiers of France and Spain, and between the teeth is a bone—such a small bone that one wonders why it was not swallowed up long ago, and the name of the bone is Andorra.
 "The whole area of this lonely little nation is something less than half that of Greater New York," says a writer in the Metropolitan, "and its entire population does not equal that of one of New York's great office buildings."
 "For want of a better name the geographers have called it a republic, but the Andorrans part their allegiance carefully in the middle, as they do their hair, dividing it (the allegiance, not the hair), between the pope and the French President.
 "If Tolstoy himself had framed its government he could not have built anything more after his own heart. The heads of families—the patriarchs of Scripture—elect representatives who several times each year saddle their mules and go riding down to the 400-year-old Parliament House, where it nestles cozily in the mountain valley of Andorra la Vieja, to make such few and simple laws as the well-being of none is needed.
 "So slight are the expenses of government in Andorra, for all told there are but four salaried officials, that a small poll tax on goats and sheep amply meets them all. There is no army, even of the smallest—for who is there to fight? There are no police.
 "When I was in Andorra," the writer says, "the prison—there is but one—was used as a poultry house. There is no fire department, for the houses are all of stone. There is no coinage, for the people pay in kind. No postal system is there either, for when an Andorran writes a letter, which rarely happens, he entrusts it to some accommodating person who is going over the border into France or Spain."
His Experience.
 "Algy, don't you find married life more expensive than bachelorhood?"
 "Well, it may be more expensive than a rigidly single life, but it's cheaper than courtship."
A Cautious Game.
 "Does Bliggins ever bluff when he plays cards?"
 "Never until he gets home and explains where he has been."
Parceling It Out.
 The gypsy moth and the English sparrows had agreed upon an amicable division of the earth.
 "That suits me," said the German carp. "I'll take the waters of the earth."

Became Household Word.
 An old doctor was operated on in a hospital in Berlin. On leaving he was sympathized with and pitied by all his old friends who met him, for his hair had suddenly turned white as snow. The truth of the matter was that Foxy Grandpa had no chance to dye his hair in the hospital. So when he got out he made the most of the matter with the first person he met, and became so famous that he was appointed one of the king's physicians and died rich, and his name, like the prisoner of Chillon, became a household word—New York Press.

"Nice People."
 "Do nice people go to baseball games?" asks a reader of the New York Sun. We hope not. "Nice people" are the most tiresome people in the world and if they went to baseball games in any considerable numbers they would make the players so tired they wouldn't be able to put up an snappy game and the umpire would get so bored he wouldn't care whether he had his skull cracked with a baseball bat or not.
An Illustration.
 Little Willie—Say, pa, what is a paradox?
 Pa—Well, my son, a coal stove is one kind of paradox. It won't burn until it is put up, then it won't burn until it is shaken down.
