BEND, OREGON, WEDNESDAY, AUG. 24, 1910.

NO. 24

SOUTHEAST ROAD

FROM BEND TOWARDS BURNS

Oregon Trunk Announces Intention of Building Trans-State Railroad Across Homestead Country Connecting at Bend.

The long expected announcement of Oregon Trunk plans to build southeasterly from Bend has been made. It is the intention of the Hill road to construct its trans-state line from this point 155 miles in the general direction of Burns, its further continuance as yet being unannounced. Also, Klamath Falls is set forth as the objective point of the Oregon Trunk, while a line from a point in township 35 south, range 7 east, in Klamath county to Medford, in accordance with President Stevens' recent announcement, is projected.

Such is an outline of Central Oregon construction plans as set forth in amended articles of incorporation filed at Olympia, Wash., on Aug. 17.

Francis B. Clark, ex-president of the North Bank road and Fred Forest, who was general superintendent of the same road, came through Bend last Wednesday from The Dalles in John F. Stevens' car.

The point at which the southeast line will tie on to the main road seems to be on the L. Reed place, 1 1/2 miles south of the Bend depot. It is understood that the location passes through the heart of the Hampton Butte country. Undoubtedly these new construction plans materially will hasten the homesteading of the big country to the southeast.

Some of the incidents connected with local railroad construction have not proved highly welcome to all concerned. A large rock from a shot on the grading crashed through the roof of Creed Triplett's house striking the handle of the buggy in which the Triplett's 1 1/2 year old baby was sitting. Passing but a few inches from the child it splintered the handle and side of the buggy, the baby miraculously escaping uninjured. Another rock was shot through the gable of the F. M. Ray house, which is but 60 feet from the grade. Mr. Ray threatened to enjoin the workers from further "shooting," finally the railroaders agreed to move the Rays' and now they are camping on the West's lawn in tents provided by the company.

Last week a party under Engineer Pringle moved to the vicinity of Round.

San Francisco People Visit Bend.

S. G. Johnson, Mr. and Mrs. L. Ehrman, Mr. and Mrs. M. and H. Fleishacker and B. C. Condit, all of San Francisco arrived Monday in two cars and were the guests of Mr. and Mrs. A. M. Drake. Today they left for Portland over the Santiam route.

CANDIDATES IN FIELD.

Bend Men Latest Additions in Race for County Honors.

Millard Triplett of Bend has announced himself as candidate for the Republican nomination for Sheriff. Mr. Triplett, who came to Bend six years ago from Lenoir, N. C., has held the office of Deputy Sheriff for two terms, has served twice on the City Council and at present is a member of the School Board. Upon leaving North Carolina he resigned a position as U. S. Deputy Marshal, previously to holding which he had been on the police force of Asheville, N. C. Other candidates now in the field for Republican indorsement are Frank Elkins and S. Hodges of Prineville and J. A. Coulter of Madras and T. N. Balfour of Fife, Democrat.

Another Bend man in the field for a county office is George S. Young, who is seeking the Republican nomination for County Surveyor. Mr. Young graduated from the University of California in 1904 both as Civil Engineer and Mining Engineer. In the foothills of the Sierras he had charge of the locating and constructing of extensive power flumes for the Bay County Power Co., and has had considerable mining experience in Nevada. He is now the engineer in charge of the Arnold Irrigation work near Bend.

FIRE COSTS A FIVER.

First Fine is Imposed for Breaking City Ordinance.

At a hearing before City Recorder Ellis on Monday A. M. Lara was fined \$5. for breaking section 17 of ordinance 12, which forbids the lighting of a bonfire within 100 feet of a building. The complaint, sworn out by Policeman Chapman, showed the fire to have been lit in the rear of Lara's store on August 16, after Mr. Lara had been warned by the officer.

The offender was let off with the minimum fine inasmuch as this was the first offense under the ordinance prosecuted and because his action clearly resulted from forgetfulness. Imprisonment and a fine of \$200 or less may be imposed.

Last Wednesday Charles Radcliff was fined \$5 on a charge of drunkenness.

Falls Heir to Valuable Property.

Word has been received that Mrs. T. J. Ludlow has fallen heir to some \$40,000 worth of property in Ashland, through the death of her foster father, E. Williams. She was but three months old when adopted. She expects to make her home in Bend. Recently her brother visited her at her homestead at Deschutes Meadows.

No Quorum at Council Meeting.

As only Mayor Merrill and Aldermen Hunter and Overturf put in an appearance the Council meeting scheduled for last night failed. There will be another attempted to get a quorum Saturday.

SETTLEMENT OF D. I. & P. AFFAIRS

Irrigation Company Soon Will Be On Feet, Actively Constructing Canals and Selling Lands.

That the troubles of the Deschutes Irrigation & Power Company have been adjusted and development work will be resumed within 30 days is the welcome news brought to Bend by Fred S. Stanley, who was vice president of the corporation. All the conflicting interests have gotten together and agreed upon a plan of action. The gist of the matter is that the total capital stock of the corporation, \$2,500,000, is to be wiped out and count no longer as an obligation of the company, and the Howard contract is totally eliminated. The creditors of the corporation will bid in the property to be sold under foreclosure of first mortgage bonds. Starting thus with a clean sheet, it is found easy to get money to carry on the reclamation work and forces will be put at once constructing additional canals and ditches and marketing the lands. The entire business is expected to be out of the hands of the court within 30 days.

For the present it is arranged that the enterprise shall be conducted by a committee representing all interests. J. H. Farnham, manager of the big contracting concern of J. G. White & Co., New York, J. G. Addison, representing the Ohio bondholders, and Jesse Stearns, representing the Portland creditors, will probably constitute this committee, though no formal appointment has yet been made. Receiver Redfield will probably resume his former position as engineer of the company in the field. No local manager has yet been selected, and many other details have not yet been settled. But it is definitely announced that the career of the old company is ended, the water is squeezed out of the concern and a new organization will carry the big project forward to completion.

Mr. Stanley is quoted as saying that \$4,000,000 will be spent in improvement work and that the daming of the Deschutes just north of town and construction of the North Canal to water approximately 50,000 additional acres soon will be undertaken.

HOTALING IS DIRECTOR

Chosen for School Board at Lightly Attended Meeting.

Nine voters were present at the school election last Saturday afternoon. They chose C. L. Hotaling to fill the unexpired term of Dr. C. W. Merrill, resigned. Subsequently 13 more voters appeared but were informed that the election was over and took no part in the proceedings.

The clerk brought up the matter of a school organ, but it had not been considered by the directors and no action was taken.

NEW SCHOOL IS BUILT

District 73 Now Will Hold School in Own House.

School district number 73 has nearly completed its new school house near Elmer Warnstaff's place, about the middle of the west line of school section 36. The building is 24x34 feet. It has been constructed chiefly by the citizens of the district, those not being able to help in this way having contributed their services in hauling lumber. School clerk Nelson has been particularly active in putting the work through.

Miss Angie Young, who graduated from the Bend High School last year, will be the teacher of the new school.

Library Watermelons.

This year, instead of having their customary watermelon lawn social the Ladies' Library Club will sell the wagon load of melons that arrive from Matoles today at the Library. Six cents a pound will buy these delicious watermelons; while they last the Library will be open continuously.

Old Bend Man Writes.

Washington, D. C., Aug. 8.
To the Editor: I learn you are about to realize the long cherished dream of a railroad. I oftentimes recall my experiences of Bend's pioneer days and anticipate a visit into your prosperous midst next summer as I am scheduled for a western circuit next Chautauqua season. I am taking a furlough this year, as subsection chief in the Census Bureau and attending Art school as a side line.
F. MILO LONDELL.

TUMALO HAPPENINGS.

Everybody Harvesting Good Crops in Country to the West.

A number of young people attended the dance at Laidlaw Saturday night.

Several railroad surveyors stopped in Tumalo last week. They are prospecting a route west of here.

Elmer Pederson left Saturday for Portland.

George W. Wimer and son have finished putting up their clover crop.

I. E. Wimer and Charles Spangh have been harvesting a heavy crop of oat hay.

Auto roads seem to be the main idea nowadays. Ranchers seem to think it better to fix up the country roads for wagon first, and cut some of the fallen timber out of them.

George W. Wimer and son, I. E. Wimer and Charles Spangh have ordered a Lightning Steel hay press.

F. A. Woolley and sons are harvesting a good crop of grain hay on the Jensen place.

W. D. Clark and W. J. Baker are both busy putting up their hay crop and report a good yield.

Grover Pulliam and Lester Gist were in Tumalo one day last week looking for horses.

EXHIBITS TO BE SENT

Great Northern Ready for Agricultural Samples Collected Here.

The exhibits collected for the Great Northern will be assembled, packed and shipped to Portland the latter part of this week. About the only lines which are lacking are good exhibits of potatoes and threshed grain, both of which particularly are desired by the publicity people.

The following letter received by G. P. Putnam from the Great Northern's publicity chief, F. W. Graham, is of interest:

The "Dolly Varden" trout arrived safely, and were processed by Mr. Wright, who made eight jars of them, and they make a nice showing. This will give us a jar for each of our exhibits and several over.

Whatever you have already accumulated in the way of grains, grasses, etc., please box and ship.

I have arranged for space in the North Bank freight depot where we will assemble all of the Oregon exhibits, and outfit the car here, sending the balance east for use in our permanent exhibits at St. Paul, Chicago and St. Louis.

We will also send part of the material to the Western Pennsylvania Exposition at Pittsburg, the state fairs at Columbus, Ohio, and Springfield, Ill., and the National Corn Show at Columbus, Ohio. There are several other eastern fairs and expositions where we have engaged space and will make displays. Altogether through these numerous exhibits several million people will see them.

LIVE WIRES GET CASH

Goodly Sum Subscribed by Citizens Toward Exhibit Rooms.

The "Live Wire" volunteers who got out with the Realty Board yesterday succeeded in getting subscribed \$423 for the establishment of an exhibit room and the conduct of a commercial club. Some 96 citizens entered their names as members. When the town has been thoroughly canvassed a meeting of all who have subscribed will be called and an organization perfected.

Make 500-Mile Auto Trip.

A party consisting of Mr. and Mrs. C. S. Hudson, Mr. and Mrs. L. B. Baird, Mrs. J. O. Johnston and Mrs. C. A. Jones returned Monday from a 500-mile auto trip southward. From Bend they went to Crater Lake, Klamath Falls and Lakeview, returning by way of Silver Lake. The car used was one of the Central Oregon Auto Co.'s Chalmers "40" driven by Van Tyle. In the entire trip no stop was made for repairs.

Lumber Mill Near Sisters Burns.

On Monday afternoon at 5 o'clock Burkhardt & Spoo's mill, three miles east of Sisters, was destroyed by fire. Practically all the lumber was saved.

MUCH BUILDING

AUGUST SHOWS NO LET-UP

Many Residences are Under Way in all Parts of Town—Library Soon to Have Ample New Home.

Despite the fact that August normally is credited—or discredited—with being the "dull" month of the twelve, the last weeks have seen a notable spurt in the construction of Bend buildings.

One of the most important additions to the town for some months is the wood-working machine shop just erected by Sherritt & Wolley near the Central Oregon Auto Co.'s garage on Bond street. This with dimensions of 30x40 feet will be equipped with a full line of wood-working machinery, including lathes, planer, etc.

Work has been commenced on the new building, to be occupied by the Bend Library, opposite The Bulletin Building on the south end of Wall street. The building is being erected by the Bend Town-site Co. It will have a 50-foot frontage and be 40 feet deep. The Library is to occupy a 20x25 room, a second front room will be used either as an office or exhibit room, while the rear is to be a store room for electrical equipment for the Bend Water Light & Power Co. Sutherland & McIntosh have the construction contract.

On lot 2 of block 5, facing west on Front Street, almost directly in the rear of The Bulletin Building, Mr. and Mrs. A. J. Frame have commenced the construction of a handsome 36x30 two-story residence, with a 14x24 addition. Mr. Frame is superintending the work himself. The building will have a cellar, furnace, and hot and cold water in every room.

J. H. Oneil is erecting a substantial store building on Minnesota street, 24x40, with a large store room down stairs and eight rooms on the second floor. Golden & Chastain have the contract. Carlyle Triplett is erecting a 4-room cottage in Lytle, next door to Creed Triplett's home, the work being done by Sutherland & McIntosh. For T. H. Foley Sherritt & Wolley are building a residence on Kentucky street near O. L. Johnson's house.

The basement work on the new Lara residence on Congress street in Park addition is practically

(Continued on page 8.)

Your Bank and Your Business

ARE ALIKE IN THIS ONE RESPECT:

Success Depends upon Satisfactory Service.

The Deschutes Banking & Trust Company trusts for its popularity to giving its customers kindly and intelligent service. And expects to advance its own interests by being of service to the public.

We invite correspondence and welcome all who may desire our services in a business capacity.

LIDLAW LOCALETTES

Camp Loses Camping Party—Big Crops Near Sister Town.

LIDLAW, Aug. 23.—J. L. Couch, his son and E. R. James last week made an attempt to visit Lewis Lake. They lost not only the lake but their way and were rescued by a searching party at 11 P. M. several miles from camp. Mr. James said that they were not lost but that the camp was.

A. D. Parks cut 17 loads of hay from five acres, and C. P. Becker baled three tons an acre.

W. D. Barnes headed a party composed of his sister-in-law and daughter Mrs. and Miss Barnes of Iowa, A. Thompson and family, Theo. Becker and Mrs. G. W. Horner for an outing on the Matoles last Friday.

A. J. Ringo, with Mr. Moore, from Madras, went to the Mt. Jefferson berry patch Sunday morning.

C. W. Allen's son, Phillip, is quite sick.

F. N. Wallace, superintendent for the O. W. & I. F. Co. is quite ill.

G. W. Horner's mother arrived last Friday from Oregon City, where she has been visiting relatives.

I. E. Wimer and Charles Spanger brought in a sample of oats measuring 6 feet in height.

G. Stiles is over at Matoles making hay.

Rev. B. J. Harper will hold services Sunday, August 28, at 11 o'clock, at Bayley School House; Sunday evening, at Laidlaw.

On Monday morning Ray Gerking drove a team for Miss Nellie James and Miss Faye Gerking to their homesteads on the "high desert."

Miss White, a friend of Mr. and Mrs. Allen, have left on a visit to Spokane.

The Odd Fellows have purchased the Bennett building. The upstairs will be fitted up for lodge room. The lower story is where Johnny Moore is spreading paint for Mr. Bullard.

Marsh Aubrey bid his friends goodbye last week and hid himself over the mountains in his old stamping ground, in the southwest corner of the state, there to spend the winter.
