BEND, OREGON, WEDNESDAY, OCT. 5, 1910.

NO. 30

D. I. & P. CO. WINS

COURT RULES AGAINST THE INTERVENTION SUITS.

Sale Under Previous Order Takes Place and Reorganization Will Proceed as Before Agreed Upon with Creditors.

PORTLAND, Or., Oct. 5.—Judge Bean, of the United States court, has decided the intervention suits of R. S. Howard and A. M. Drake, in the matter of the insolvency of the Deschutes Irrigation & Power Co., against the intervenors. On every point in the controversy the court rules in favor of the company. The sale under decree of foreclosure previously made takes place today and the reorganization of the company, it is announced, will proceed according to the arrangement made before the intervention suits were filed.

BIG FISH IN MILKHOUSE

Dan Helsing Brings Story from Metolus Ranch.

LIDLAW, Or., Oct. 3.—Dan Helsing, who lives on the Metolus but is in Laidlaw for the winter in order to school his children, brought into town a few days ago a Dolly Varden trout weighing 12 1/2 pounds that he caught in his milkhouse at Metolus. Mr. Horner took a photo of the fish for newcomers to see and comment on. Some of them wish they had a milkhouse on the Metolus.

Who says this is a cold country? We went over the river on October 1 and gathered a bouquet of wild flowers.

Rev. J. E. Yonal of Union, Oregon, missionary evangelist of the Presbyterian church, met with the people of Laidlaw Monday evening in the church. His manhood, earnestness and zeal proclaimed his mission.

Mr. Trahan, who sold part of his land holdings last spring in Cloverdale, and spent the time since in Canada and Minnesota, has returned to the old stamping grounds, glad to get back to a good country.

R. G. Sturgeon and family visited at Prineville over Sunday.

J. M. Siry had the misfortune to lose a valuable horse last Sunday night. Cause: Stoppage of intestines.

The Ice Company is making improvements to its plant, ready for cutting ice when the days grow cold.

W. P. Myers and family spent a few

days at Cloverdale visiting S. H. Davis, father of Mrs. Myers.

J. P. Hansen has moved his household goods to Redmond where he expects to reside this winter.

W. P. Myers and family left Friday for their new home at Culver.

J. R. Couch and Mr. Peterson have gone to the Metolus to fish and hunt.

Women Raid a Blind Pig

The Silver Lake Leader says that a dozen prominent women of Paisley, "whose standing and veracity cannot be questioned," raided a "blind pig" on primary election day, said unfortunate quadruped being the near bear emporium of W. K. McCall. They found McCall in the act of filling up a bottle from a jug of whiskey and took into their possession some of the stuff. Incidentally it is put up to the Sheriff to explain why he did not serve three subpoenas put into his hands last May, involving illegal selling of liquor in Paisley.

Mare Mothers Young Antelope.

Oscar Peterson and Lester Mencer, who returned last week from railroad location work with Engineer Stacer, report that at a recent round-up of horses for Bill Brown, at the Narrows, one of the brood mares was found to be suckling a good-sized young antelope. The antelope was somewhat wary and ran away on the approach of men, and the mare ran after the youngster, whinnying and giving every evidence of motherly devotion.

MARRIED.

At 9 o'clock on the morning of Oct. 3, at the home of the bride's parents, Mr. and Mrs. W. G. Waugh, seven miles east of Bend, Mrs. Pearl A. Cooper and Orville C. Cardwell. The ceremony was performed by Rev. J. Anthony Michell, and was followed by a bountiful repast. The new home will be established at the ranch of Mr. Cardwell, seven miles north-east of Bend.

The young people have gone for a visit in Portland before settling down in their new home.

WILLIS S. DUNIWAY, REPUBLICAN NOMINEE FOR STATE PRINTER.

COSTLY VENISON NEW CANAL DONE

SELLER AND BUYER FINED FOR VIOLATING LAW.

Indian Sent to Jail but Fine of \$50 Subsequently Paid—Purchaser of Meat Pays \$50 Cash—Another Case Pending.

Traffic in venison received a setback in Bend within the past week. Last Thursday morning Deputy Game Warden S. G. Dorris swore to an information before Justice Lawrence that John Doe, Indian, had sold some venison. Warrant was duly issued and Deputy Sheriff Dick Vandevort arrested and brought into court the offender, who proved to be Jake Culp, a wealthy Indian from Warm Spring Reservation. He pleaded guilty to the charge and was fined \$50, and in default of payment was committed to the county jail for a period of one day for each dollar of fine remaining unpaid, as the law provides.

Then Deputy Dorris the same day filed information against H. J. Eggleston, who bought venison of Culp. He also pleaded guilty and was fined \$50, which he paid. Dorris had seized the venison thus bought and held it for evidence. After the case was disposed of the meat was restored to Eggleston.

Monday morning H. J. Eggleston filed information charging C. A. Chapman with buying venison of the Indian on the same day the other offenses were committed. On being arraigned the defendant pleaded not guilty. Deputy District Attorney Duffey requested continuance, owing to the absence of a material witness and the request was granted, for one day. Yesterday another continuance was granted, over the protest of defense, the defendant having been released on his own recognizance.

School Notes.

Both the boys and girls of the Bend High School have organized basketball teams.

Marion and Bessie Smith, also Lester Smith, have entered the First grade.

The directors of the Bend schools have bought dictionaries for the Fourth, Fifth and Sixth grades.

Calvin Smith has been enrolled in the Fifth grade.

There has been no case of tardiness in the Fifth and Sixth grades for two weeks.

In a recent meeting of the teachers a fire drill was decided upon. They will soon prepare a system of signals.

Willie Linster has entered the Eighth grade.

WATER NOW GOING THROUGH THE ARNOLD DITCH.

After Six Years' Effort this Important Enterprise will Water 3000 New Acres for Crops Next Season in Bend Vicinity.

Last Saturday night water flowed down the Arnold Irrigation Company's canal to the Silver Lake road in sufficient quantity to irrigate land. For about six years work has been prosecuted on this enterprise more or less intermittently and now for the first time water sufficient for practical use is flowing there. Water rights for 6000 acres under this ditch are now outstanding, about half of which will raise irrigated crops next year for the first time. More than \$30,000 have been spent on this project.

For the first two or three years the shareholders alone worked away on the flume and ditch. The original flume was found to run uphill in parts after considerable of it had been built. The first engineering work, by H. W. Reed, was found to be very defective and water could not be gotten out to land as expected, and the affairs, of the company languished for months. Then L. D. West became interested in the project and entered into contract whereby he was to render professional service in extricating the concern from its difficulties. A reorganization was effected and last spring the serious work of building a system that would actually water the land was entered upon.

Since last April Engineer George S. Young has had charge of construction work and has put in headworks with gates 22 feet wide, built a flume 12 feet wide for a distance of 5500 feet and dug about 3000 feet of new ditch which takes the place of an old flume. The flume is of extra heavy construction and cost \$17,000. To take all the water the flume can deliver, that is for 12,000 acres of land, will require the enlargement of part of the old canal at a cost of \$2000 to \$3000. But there is no immediate necessity of this, the present works being more than sufficient in size to carry for all water rights sold. However, it is the intention of the company to complete the enlargement of the canal in the near future.

The Arnold Irrigation Company's system ends at the Silver Lake road, where the canal debouches into two laterals known as the North lateral and the Pine Forest canal, owned by two subsidiary companies. The first named lateral will serve about 2000 acres about Bend and the latter about

10,000 acres lying south and south-east of Bend. Construction work has been carried on in 1909-10 on both these laterals. The North lateral will be finished by November 1 and the other some time next year.

In the spring of 1907 the stock of the Arnold Irrigation Co. was worthless—the works were nowhere near completed and funds were exhausted. Now a share of stock carrying water right for 100 acres is worth \$1000. That is, the water right for an acre under this system now cost \$10. The company is in a solvent condition and the officers say it will be out of debt by January 1. The costs of maintaining the works will be trifling, probably not exceeding 25 cents an acre annually.

Bend Weather for September.

Following is the temperature record for Bend for the month of September, as recorded by E. L. Kirk, co-operative observer:

Date	Max	Min	Date	Max	Min
1	61	28	17	61	28
2	68	28	18	68	28
3	71	28	19	71	28
4	68	28	20	68	28
5	65	28	21	65	28
6	58	27	22	58	27
7	54	26	23	54	26
8	57	27	24	57	27
9	74	28	25	74	28
10	69	25	26	69	25
11	68	25	27	68	25
12	61	25	28	61	25
13	61	25	29	61	25
14	61	25	30	61	25
15	61	25	31	61	25
16	61	25	Mean	69	30

Maximum 81 degrees.
Minimum 20 degrees.
Precipitation .86 inches.
*No observation.

Remarks: It is reported by old settlers that less snow was to be seen on the Three Sisters mountains the last of September than at any time within the past 30 years.

Gust Bartman returned from Portland last Sunday and has entered upon the construction of a building on Wall street to be occupied by H. J. Eggleston's harness and implement store.

E. W. LAFFERTY, REPUBLICAN NOMINEE FOR REPRESENTATIVE IN CONGRESS.

HOUSES BUILDING

PROVISION FOR ACCOMMODATING MANY FAMILIES.

One Putting Up Four Modern Apartments, Another Three Cottages, Several Others Have Started on New Structures.

Harry A. Miller has bought of the Townsite Company lots 4, 5 and 6 of block 2, Lava Road Addition, being on the south side of Kentucky street southerly from Oliver Johnson's. He will build there at once three modern five-room cottages, each to be 26x30 feet on the ground. Carpenters have been hired and construction will begin next Monday morning if the lumber can be obtained so soon. One of the cottages is already rented and there is no doubt that the others will be taken by the time they are ready to occupy.

Mrs. Waite's four-room Swiss cottage on Tumalo street is enclosed and ready for the roof. It is 28 feet square on the ground. Unless unexpected delay occurs in the delivery of the lumber this cottage will be finished within 30 days.

Frank May is excavating a basement and has part of the lumber on the ground for an apartment house on his lot on Bond street near "10. The building will be 45x52 feet, two stories, and will contain four apartments, each having five rooms and bath. This structure will be completed within 60 days.

Millard Triplett has a new cottage on the rear end of his residence lot, next Linster's Hall, well along toward completion. It is 24x26 feet, contains four rooms and is expected to be ready to occupy in two weeks.

Creed Triplett is building a six-room bungalow on his lot on the north side of Ohio street between Bond and Lava Road. It is 26x36 feet on the ground. Probably it will be ready to occupy early in November.

George Brosterhaus is putting up a building on the north side of Oregon street adjoining M. L. Latin's office. It is 20x30 feet and will be used for the express office of the Cornet Stage & Stable Co., of which Mr. Scott will have charge.

The Basic Problem of Life.

THE GREATEST OF ALL PROBLEMS TO THE GENERAL PUBLIC IS THE BREAD AND BUTTER PROBLEM

INDUSTRY alone will not solve the bread and butter problem; but if one lays by something, however small, from the fruits of his industry, he has found the solution of this problem. To the man with a bank account opportunities arise, which would otherwise be beyond his reach. You have often heard a man say, that were it not for his family responsibility he would do this or that. With a bank balance to his credit the bread and butter problem is solved for the present, and he is therefore able to make it a less important problem in the future.
