

THE BEND BULLETIN.

VOL. VIII

BEND, OREGON, WEDNESDAY, JAN. 4, 1911.

NO. 43

COUNCIL MEETS

QUARTER OF A MILE OF SIDE-WALKS TO BE BUILT

Complaints Against Pollution of Deschutes River Have Been Received By State Health Board—Saloon Entrances Only on Bond.

At the meeting of the Common Council held Friday evening D. M. Davis presided as Mayor pro tem, in the absence of Mayor Caldwell. A letter from C. S. White, State Health Officer, stating that complaints had been filed with the Health Board in regard to the pollution of the Deschutes River, was read. Recorder Ellis was instructed to acknowledge receipt of the letter, and state to Mr. White that as a new Council would be in office within a short time, the matter would be left for it to take up. It is probable that Mayor-elect Coe, who is now in Portland, will see Mr. White and take up with him the question of a sewerage system for Bend.

Upon motion of Sellers the Recorder was instructed to issue legal notices for the construction of sidewalks on the north side of Ohio street 200 feet beyond the end of the present walk, the south side of Ironwood in block 20, 250 feet on the north side of Ironwood in block 21, 200 feet on the north side of Ironwood in block 26 and 200 feet on the south side of Ironwood in block 27.

These sidewalks when built will give a continuous walk from the eastern part of the city to the business district. The owners will be allowed 30 days in which to have the walks built.

Upon motion of Triplett, seconded by Sellers, the Recorder was instructed to issue legal notices to be served on parties petitioning for saloon licenses that no licenses will be granted to bars having entrance on any street other than Bond, except in the cases of bona fide hotels.

KOTZMAN LATERAL.

Water Will Be Available for 820 Acres February 1.

Work on the Adam Kotzman lateral, which takes water out of the Swalley ditch about a mile north of the city limits, is progressing very rapidly. This lateral which was started in July has been built a distance of one and a fourth miles, and is to be extended another half mile.

It is eight feet wide at the bottom, and will carry three feet of water. The heaviest of the work has been completed. There is a stretch of it which necessitated a cut of 16 feet

through rock. If the ground does not freeze too hard, the work will all be completed before the first of next month.

There is now a force of ten men and four teams on the work. Mr. Kotzman estimates that the cost of getting the water on the land will be less than \$20 per acre. The lateral will supply water for the following acreage:

Charles Boyd	30 acres
C. S. Benson	30 "
F. H. Mey	30 "
Archie Peltie	30 "
Niels Anderson	100 "
Walter Daniels	150 "
Adam Kotzman	200 "

SCHOOL BOARD MEETS

Miss Ida C. Young Appointed to Teach Young School.

The School Board met at Chairman Triplett's store Wednesday evening, and appointed Miss Ida C. Young as teacher for the Young school. C. B. Cutting was appointed for the position on December 24, but declined to accept because the term of four months was longer than he cared to teach.

The question of building a rear exit to the school building was discussed, and Messrs. Ray and Hotaling were appointed a committee to look the matter up. They were authorized to submit plans and obtain bids for the work. The Board expects to have this work done immediately.

SOCIETY ORGANIZED

Y. P. S. C. E. Elects Temporary Officers at Meeting at Union Church.

At a well attended meeting held at the close of the evening services at the Union Church Sunday, the Young Peoples Society of Christian Endeavor was temporarily organized, with the following officers:

President—H. J. Eggleston.
Vice President—Mrs. E. M. Thompson.
Secretary—Miss Florence Young.
Cor. Secretary—Julius Cortman.
Treasurer—C. I. Bozell.
Organist—Miss Pauline Wiest.
Assistant Organist—Miss Marion Lawrence.

Tomorrow evening there will be an open meeting at the church, to which everyone is invited. By-laws will be discussed, and adopted, and the organization perfected. Committees for the various phases of work the organizers have in view will be appointed, and the plans of the Society will be outlined.

Married New Year's Day.

Miss Jessie Belle Douglas and George Cornwell were married before Reverend J. Anthony Mitchell Sunday afternoon at the home of the bride's parents, Mr. and Mrs. W. M. Douglas, in Lytle. The couple will make their home in Bend.

Mr. Cornwell, who has been here for some time, is a carpenter, working with J. B. Montague.

RAILROAD WORK A RETURN GAME

ROAD BED RAPIDLY NEARING COMPLETION.

All Bridges and Trestles Between the Columbia and Crooked Rivers Are In—Road Bed Will All Be Ready for Track Layer.

E. W. Monahan, superintendent of construction for Henry & McFee, the Oregon Trunk contractors, was in Bend Tuesday, and announced that all bridge and trestle work beyond Crooked River is completed.

Work at the Crooked River bridge is being pushed, and it is the desire of the builders to have all work in, and the concrete piers well set in order to receive the steel as soon as the track is laid to the river. The 1500-foot trestle just south of the bridge will be completed this week.

That the track-laying machine will not be tied up, by unfinished grades now seems certain. From Madras to a point three miles south of Redmond the road bed is completed, with the exception of one heavy cut a mile south of Hillman. Between Bend and Redmond stretches of the road bed are being completed every few days.

Joe Rock, who has charge of the work a mile south of the railroad crossing over the Pilot Butte canal, has all of the right-of-way cleared, and the grading work is progressing very rapidly. This is where the Y is to be located.

TO PLAY HANDBALL

Bend Athletic Association to Begin Tonight on Tournament.

The Bend Athletic Association has installed the larger part of its gymnasium apparatus, and regular class work will begin tonight under the direction of A. R. Dorris. The club will hold a meeting in its rooms over Linsters' Hall Friday night, at which time the matter of arranging various athletic teams will be taken up.

The handball tournament which starts tonight is open to all members of the association, but names will have to be turned in by Saturday. The schedule of games to date follows:

Carl Hunter vs. Guy McReynolds, Wednesday, Jan. 4, 7:30 p. m.
Claude Kelley vs. Prince Staats, Wednesday, Jan. 4, 8:30 p. m.
Willard Huston vs. Vera Hotaling, Wednesday, Jan. 4, 9:30 p. m.
Warren Wheelock vs. Leroy Hotaling, Thursday, Jan. 5, 7:30 p. m.

John Bates vs. George Woods, Thursday, Jan. 5, 8:30 p. m.
Alf Linsters vs. A. R. Dorris, Thursday, Jan. 5, 9:30 p. m.

Winner in Hunter-McReynolds match will meet winner in Kelley-Staats match Friday, Jan. 6, 7:30 p. m.; winner of this match will meet the winner of the Huston-Hotaling match Friday, Jan. 6, 8:30 p. m.; winner of this match will meet the winner of the Wheelock-Hotaling match Friday, Jan. 6, 9:30 p. m.; winner of this match will meet the winner of the Bates-Woods match Saturday, Jan. 7, 7:30 p. m.; winner of this match will meet the winner of the Linsters-Dorris match Saturday, Jan. 7, 8:30 p. m.

Pioneer Editor Passes Away.

The Bulletin received a card today announcing the death of William Holder, editor of the Silver Lake Leader. He died last Saturday, and was buried at Paisley, near his ranch. Mr. Holder was 56 years old, and had been actively engaged in newspaper work for many years.

Glut Notes.

Glut, Or., Jan. 1, 1911—George McCallister is now very busy bulging his eye hay.

Louis McCallister is making a business trip to his former placer mine.

Evert Case has returned home to spend the holidays, and take a little rest as he has been working steadily for the Deschutes Irrigation & Power Co. and the Central Oregon Irrigation Co. for the past eight months.

Walter Case is busy grubbing sagebrush for F. M. Phillips.

Mrs. Pulliam gave a party last Friday night and all had a good time.

C. C. Cooper is making efforts to trap coyotes.

The New Year has been ushered in with a very pleasant eve. "So let time sin and fully flee, but let me remain with those that are kind and true to me."

FOOTBALL SATURDAY AFTER-NOON AT PRINEVILLE.

Teams That Played Tie Game Here to Settle Championship Honors—Bend Team Practicing Regularly—New Officials.

The Prineville and Bend "All Star" football teams, which played a 0-0 game on the Bend field a week ago Monday, will meet again on the Prineville grounds next Saturday afternoon at two. The Bend team will leave here Friday morning, and drive to Prineville in wagons, returning Sunday afternoon.

Although the details of the game have not all been arranged, Arthur Seeley of Bend, and J. M. Alexander of Redmond will probably officiate as referee and umpire. As each of them played on the team of the Multnomah Athletic Club of Portland two years ago, such unsatisfactory decisions as marred the recent game should not be given.

The line-up of the Bend team will be somewhat changed. Captain Pringle, who strained a ligament in his leg while playing in the last game, will go with the team, and will play, at least until his leg gives way. L. Main will play right tackle in place of Clinton Vandever, who has returned to Salem. J. D. Rice will probably play a guard. Ray DeYarmond is practicing with the squad, and will play in the game. If Dr. Coe returns from Portland in time for the game he will go in at full-back.

Signal practice was held at Linsters' Hall Sunday night, and will be held again tonight. Last night the squad met at Ray Wilkinson's office and discussed the rules of the game. Tomorrow afternoon the squad will have a scrimmage practice on the old baseball field. The line-up of the Prineville team will be practically the same as before. The probable line-up of the Bend team follows: H. B. Kinner, c.; R. Wilkinson, 1 g.; J. D. Rice, r g.; R. M. Connors, 1 t.; L. Main, r t.; L. Metke, 1 e.; N. Weider, r e.; H. F. Kepple, quarter; A. M. Pringle, 1 h.; W. Houston, r h.; and S. Steidl, f. b. R. Dearmond, M. Richardson, P. W. Brackett and A. R. Dorris, will accompany the team as substitutes.

BUILD ON BOND STREET

C. E. Myers and F. J. Wilkey to Construct Two-story Building

C. E. Myers and F. J. Wilkey recently bought lot 11, block 11, Bend, from the Bend Townsite Co. This property is on the west side of Bond street, opposite the Wandy bara. J. B. Montague now has a force of men constructing a two-story building 24x60 feet, the lower floor of which will be used for a saloon. The building will be constructed as rapidly as possible as the owners desire to have it completed by February 1.

L. B. Baird has leased to J. R. Williams the lot adjoining the J. R. Williams saloon on bond and Oregon streets. The Bend Construction Co. is now erecting for Mr. Williams a building 50x60 feet on this lot. It will be one story and arranged for a lodging house of 28 rooms. The contractors expect to finish their work within a month.

Pollution of Deschutes

BEND, Ore., Jan. 3.—To the Editor of The Bend Bulletin: As it is probable that within the year the city of Bend will have the sewage problem to solve, would it not be well to consider the results which would ensue should the sewers be permitted to discharge into the Deschutes River, as some propose?

The Deschutes has been aptly called the "River of Gold," for like many other streams of the west, it is the very life of the country through which it flows, the fountain head upon which depends all agricultural wealth and prosperity and on this agricultural foundation must be built the permanent and final prosperity of the towns which will spring up along its course. For twenty miles east and thirty miles north of Bend, on account of the geologic formation of the country, surface water cannot be obtained and the settler must depend absolutely upon the Deschutes River for his supply for domestic and all other uses.

Would it not be the height of folly to

pollute this beautiful stream and thus scatter disease to thousands of people who will dwell along its banks? The purity of this stream has always been advertised as one of the greatest assets of this country and any act which would destroy that reputation could only react to the lasting injury of the entire country.

With the coming of the railroad will also come annually thousands of tourists and fishermen to the banks of the stream to praise its beauties and fish in its waters. Destroy its purity and you drive the trout from its depths and the fisherman from its shores, and with their departure no small source of revenue will end.

There is a better and more modern way for Bend to dispose of her sewage, namely to run it out on to some of the waste lands of the desert, there treat it, and dispose of it where it will harm no one. I am satisfied that when the people of Bend give this subject their serious consideration they will decide that they cannot afford to contaminate this beautiful river but hand it down to posterity as pure as when they received it fresh from the hand of creation.

C. A. STANBROUGH.

Tumalo News.

TUMALO, Or., Jan. 1, 1911—Chas. L. Wimer made a business visit to Redmond last week. He reports much building and improvements going on.

C. L. Branton, the real estate man, visited with G. W. Wimer & Sons last week. Mr. Branton is an old-timer in these parts. He is at present located at Redmond. He says there is not much activity in the real estate business at present on account of the bad condition of the roads. People are not able to get in from Shaniko, but he expects that there will be a big rush just as soon as the roads improve. Mr. Branton has been spending some time in Spokane lately.

There is quite an acreage of ground being cleared between this place and Laidlaw. People are taking advantage of the open winter and clearing preparatory to putting in crops next season.

Cattle about here are doing fine. A great many are on the range and looking as well as stock that are fed.

John B. Wimer of this place is at present at Medford, Oregon. He reports cold foggy and disagreeable weather there with considerable rain. Where could we go to enjoy such a delightful climate as Central Oregon is blessed with? Here we have sunshine, pure fresh air, good water, wood in abundance and a soil which cannot be surpassed. Everybody who tries is doing well, and a man who does not try is a barker no matter where you find him. So let us all be hoppers for Central Oregon. With the coming of the railroad, we will no longer be cut off from the markets of the world.

We will soon expect to hear of something being done with the O. W. J. Finance Co. which took over the Columbia Southern segregation. They expect to begin work on the reservoir early in January and later build canal, preparatory to completing the contract with the state as outlined by the Columbia Southern company.

C. E. Shaffer owner of the Clover Leaf ranch at Ft. Rock was in Bend last week purchasing supplies. He secured a number of blooded chickens at Prineville, and about \$500 worth supplies here in Bend, including a Schuttler wagon bought from A. M. Lara & Co.

Library Club Meets.

The Ladies' Library Club met in the library room yesterday afternoon and made arrangements for the programme dance to be given at Linsters' Hall Saturday evening, January 14. The ladies of the club will serve refreshments. It is the desire of the members to begin the dance promptly at 8:30.

ANOTHER NEW LEAF

Last year, perhaps, you turned over a nice, clean sheet and headed it "More money saved in 1910." How did you come out? If not as well as you expected, try it again in 1911. If you are satisfied with your profits, why not head the new leaf for 1911—"Keep up the record for 1910"?

We do not have to tell you that we will assist you in every way possible in your banking business in the New Year—our new leaf is headed, "More and better banking service for 1911."
