BEND, OREGON, WEDNESDAY, MAY 24, 1911.

NO. 11

DOUBLE SERVICE

HARRIMAN TRAINS TO RUN TO BEND.

As Soon as Oregon Trunk Line is Completed Here, Deschutes Road Will Use It—Party of Officials Here Yesterday.

That Bend is to have railroad service over the Harriman as well as the Oregon Trunk road immediately upon the completion of the latter to this point, is the statement made by the party of Harriman officials who were here yesterday.

Apparently there is no longer any question of the Deschutes road building its own line south from Redmond, at least for the present, it being the intention to use the Hill road, under some joint trackage arrangement as at points further north, for this 22 mile stretch. It is as yet uncertain whether or not the Harriman road will have terminal grounds and equipment here separate from that used by the Oregon Trunk, according to statements made yesterday by R. B. Miller, General Freight Agent of the Harriman roads in the Northwest.

Eight of the big chiefs of the Harriman system arrived shortly after 1 o'clock yesterday and were entertained at an informal luncheon at the Pilot Butte Inn under the auspices of the Bend Commercial Club. The visitors were: R. B. Miller, Gen. Frt. Agt.; Wm. McMurray, Gen. Pass. Agt.; L. J. Spence, Asst. Supt. of Traffic; F. W. Robinson, Gen. Frt. Agt.; H. E. Lounsbury, Asst. Gen. Frt. Agt.; W. S. Basenger, of the passenger department, F. R. Dunn, Trav. Frt. Agt., and F. H. Maloney, Mr. Spence's secretary.

While no definite statements were made, it is generally understood that the primary purpose of the visit was to investigate terminal facilities here.

For Mr. Spence, whose headquarters are in Chicago, this was a first visit to Central Oregon. He expressed himself as being greatly impressed with the vastness of the country, both in miles and in possibility of development, and was most enthusiastic in his admiration for Bend.

Mr. McMurray, who has been at the head of the great publicity work conducted by the Harriman system in the west for the past few years, was especially interested in taking

up with the local commercial organization plans for cooperative advertising.

FATAL ACCIDENT

E. C. Cribb Meets Death By Fall Last Wednesday.

Wednesday night, E. C. Cribb, Central Oregon agent for the Oregon Life Insurance Co., fell from the balcony of the Thorbjornson building on Bond Street, sustaining concussion of the brain which resulted in his death Saturday at 3:45 p. m. From the time of the accident the injured man never regained consciousness.

A coroner's jury, at a hearing Saturday evening, over which County Coroner E. O. Hyde presided, found that the deceased had met his death by accident, attaching absolutely no blame in connection with the tragedy. The remains were taken from Bend Sunday, to be transported to the home of the deceased.

SCATTERED ABROAD

Lease, Expiring, Happy Home of Bachelors is no More.

With the closing of the Guerin house last week by Mrs. A. M. Lara, whose lease of the property expires June 1st, those who have been residing there have been obliged to seek housing elsewhere.

Mr. and Mrs. J. W. Dimick have moved to a temporary house on their lots in block 13 of Park Addition, Mr. and Mrs. William Douglas have rented one of the Jones cottages near the railroad, D. M. Davis left Saturday to visit his people in Kansas City, H. A. Miller and R. B. Gould have taken rooms at the A. T. Frame house, J. T. Robinson Jr. and G. P. Putnam are living in the annex to the old Drake house, and C. G. Seward and D. J. Robideau have moved to quarters in connection with their new studio on Minnesota Street.

School Board Meeting.

At the School Board meeting last Saturday night signed contracts were received from the following teachers for next year: Principal J. B. Shouse of Grand Island, Neb., and Assistant Principals Ethel Border of Minneapolis and Anne Markel. Miss Annette Coe did not accept the assistant principalship and Miss Markel was selected to fill the vacancy. The Board will meet again Saturday night and if all contracts are not signed by then new selections will be made to fill the vacancies.

Did you know that the Bulletin job shop can print your visiting cards of the best stock with handsome script type?

CLASS EXERCISES CONTRACT IS LET

OUT-OF-DOOR CELEBRATION YESTERDAY

High School Seniors Crown Angeline Young as May Queen—Students Present Farce—Fortune of Boys and Girls Told.

The Class Day exercises held on the Hudson lawn yesterday proved by all odds the prettiest affair of the kind ever seen in Bend. Despite a chill wind, a large and enthusiastic gathering witnessed the unique out-of-door celebration.

First was a very pretty procession and crowning of the May Queen, 14 school girls, all clad in white, participating. Angeline Young was Queen of the May. Lyle Richardson bestowed the regal crown upon her. Before their Queen the girls then performed a well enacted May dance, and unwound the May Pole with all the pretty customary form.

"Her Old Sweethearts", a farce, was presented, the Hudson piazza being used for a stage, and the western lawn furnishing a place for the audience, many of whom found "standing room only." In this clever little sketch Margaret Wiest and Ivan McGillivray played the principal parts. The others in the play were: John Bates, Steve Steidl, Warren Wheelock, John Sather, Bruce Deyarmond, Lyle Richardson, Max Richardson and Ray Deyarmond.

Not the least attractive feature of the afternoon was the class fortune telling, when Emily Schrader, dressed as a Gipsy, told what the future held for each member of the high school.

Senior President Lyle Richardson closed the exercises by bequeathing the senior mantle to the next year's senior class. Throughout the afternoon the Bend Band added much with its excellent music.

CITY ELECTION AT PRINEVILLE

On May 29 Prineville holds a special election, three questions coming up for vote. One is to bond the city to an amount not to exceed 10 per cent of the taxable property, for water, light, sewage, parks and buildings. Another is a proposed tax issue amendment to the city charter to raise the millage from 10 to 15. The third is to have minor city officials appointed by the mayor and council, and not elected.

J. H. WENANDY TO DO SPRINKLING.

New Wagon, Finest in Central Oregon, Will Be Delivered Here This Week—R. B. Gould Employed By Council as City Engineer

At a session of the City Council last night, which lasted only a few minutes, the contract was let to J. H. Wenandy, at \$6.50 a day for a 3500-pound team, for sprinkling the streets of Bend. Charles Goetjen submitted a bid of \$6.75 a day for a 3000-pound team.

The sprinkler, an all steel Studebaker of 600 gallons capacity, with four-inch tire, is now at Opal City and will probably arrive here in time to be put in service this week. It is the best street sprinkler in Central Oregon. A special feature of it is the vertical spray which gives an even flow of water over the street and which can be shut off on either side without stopping the water on the other side.

Bids were received from Robert B. Gould and George S. Young for doing the city engineering work. Mr. Gould offered his services at 75 cents an hour and Mr. Young at \$10 a day. The council voted to employ Mr. Gould and he will in a short time begin the preliminary work of designing a sewer system for the city.

The council adjourned to meet on Tuesday, June 6.

GOOD FERRY SERVICE

Oregon Trunk Makes Improvements in Crossing Columbia River.

Improvements have been made by the Oregon Trunk Railway in its ferry service across the Columbia River between Fallbridge and Moody which will enable it to operate regular ferry service at all times, without regard to the stage of water, for the handling of freight and passenger business pending the completion of the bridge.

The freight business is now handled without transfer by car ferry, while the passengers are promptly transferred by the steamer Norma, which lands at the slip adjoining passenger trains on both sides. This improvement, with the recent shortening of the running time of passenger trains, gives Central Oregon travelers a quick service to and from Portland.

The Bend Base Ball Team plays its first game of the season with Prineville this Sunday, at 2:30. Both nines claim they are sure winners. Everybody should turn out and root for Bend.

ENTERTAIN OLD FOLKS

Second Grade Youngsters Sing and Recite Friday Night.

The entertainment given by the second grade of the Bend public school Friday night at the Baptist church certainly was "first grade" in all but title.

The evening opened with an informal lecture by Principal Harrington, illustrated with excellent stereoscopic views, chiefly dealing with South American Travel. The second grade then gave a "Welcome Song," followed by a well executed reading by Mrs. Wing. A quartet, composed of Messrs. Chittington, French, Gates and Sandborg, sang "My Childhood Home." Donald Hudson and Marjorie Baird contributed two youthful recitations, well meriting the generous applause they received. Several more songs and a cantata, "The Captured Princess", by the second graders and chorus closed the entertainment. Miss Haskins had charge of the program's preparation.

DECISIONS UPHELD

Water Adjudication By Board of Control O. K'd. By Bradshaw.

SALEM, May 22.—The recent adjudications of Squaw and Tumalo Creek water rights made by the Board of Control have been upheld by Judge Bradshaw.

A total of 238 rights to water were involved in the Squaw Creek determination and the decree to be entered will confirm rights to irrigate 16,018.85 acres of land, 6651.35 acres of which are at present under irrigation.

In the Tumalo decree, 150 rights to water were involved, affecting about 30,000 acres of land, only 3058 acres of which are under irrigation.

Eight determinations have now been confirmed by the courts, involving in all 660 rights to water. These rights have been thus defined at an average cost to the claimants on the different streams ranging from \$6 to \$10 each and at no expense to the state, as the fees paid to the state more than equaled the appropriations made for such purposes.

WORKING 40 MEN

FULL FORCE BUILDING BRIDGE.

Crooked River Span Will Require Several Months for Completion—Actual Laying of the Steel Not Yet Begun.

OPAL CITY, May 24.—Work has commenced in earnest upon the Crooked River bridge. About half the steel for the big structure is on the ground. A crew of 40 men is employed. It will require between 60 and 90 days to complete the work.

Ernest H. Barkman is the resident engineer in charge of the work. He also superintends the construction of the Columbia River bridge at Celilo, three spans of which already have been installed. C. H. Kelly is superintendent of construction.

It is understood about 30 days will be required upon preliminary work, such as the building of approaches etc., before the actual laying of steel can commence. The largest crew that can be worked to advantage, 40 men, is employed. While all the steel has not yet arrived, there will be no delay, as practically all of it now is scattered along the road from Fallbridge, and can be brought in quickly as required.

Half of the steel will be taken across the canyon on cables, so that construction can be pushed from both ends simultaneously. The actual bridge will be 320 feet long; in addition to this, however, there are two girder approaches at each end, making the total length of steel work 440 feet. The track will be 320 feet above the canyon's bottom.

It is estimated that after the laying of steel has commenced, about 60 days will be required to complete the structure. However, construction trains will be able to get across perhaps two weeks before the entire work is finished.

Open Lodge and Supper.

The Royal Neighbors of Bend will have open lodge Thursday, May 25. Supper and amusement for the evening, 25c. Everybody invited. Royal Neighbors are requested to bring refreshments. 11

Why not get out some advertising blotters, large or small? The Bulletin has the stock and can do the work on its new press.

TRUE BANKING FACTS

If you have a checking account, the Bank does your bookkeeping free of charge, and renders you a statement of your receipts, and your expenditures, whenever you ask for it.

Your cancelled checks are your receipts for the bills you have paid. You need never pay a bill twice if paid by check. The check is positive proof that you paid the money.

You cannot be robbed, if you carry a check book, instead of the actual money. You cannot lose your money by carelessness or fire if you keep it in our Bank, and pay by check.

If you have a check book in your pocket you will always have the right change, for you can make out a check for any odd amount.

If you pay by check, people will see that you have a Bank account, and your credit will be greatly improved.

If you have a checking account at our Bank, you will be given special consideration, should you wish to borrow money.

Your money in the Bank keeps the mills running, employs labor, and makes good and prosperous times for all.

If you have a checking account, you need not send money through the mails. You can send your check. If check is lost, your money is still safe in the Bank.

If a check is stolen, or forged, you do not lose anything. The Bank is liable for forged checks, if it pays them.

All check books, bank books, etc., are free, and it costs you absolutely nothing to have a banking account.

If you have a checking account at our Bank, you will always feel free to ask for advice, or for a recommendation. We will be glad to furnish either. Nine-tenths of the business of the world is done by checks. Why not do yours that way?

The officers of this Bank are at your service. They invite you to make this Bank your business home.
