

CLOSE MERGER DEAL

Bend Lumber Co. and Brick & Tile Co. Consolidated.

A deal was closed this week whereby the Bend Lumber Co. and the Bend Brick & Tile Co. was merged. A. H. Horn, who owned the latter concern, has sold a third interest to W. E. Scott and a third to R. C. Colver of Seattle. The price paid was \$10,000 for the two-thirds share, says Mr. Scott. Mr. Colver also bought the interest of W. F. McNaught in the lumber company. The name of the new organization will be the Bend Brick & Lumber Co. A. H. Horn is president and W. E. Scott secretary and treasurer. The organization is capitalized at \$20,000.

Mr. Colver and family are already here to make their home and he will take an active interest in the affairs of the company. The saw-mill plant one and a half miles southeast of town will be enlarged and kept running all the time.

Brickmaking will be started as soon as improved machinery which is now on the way is received and installed. A sand mold power press will be used, insuring a good quality of brick. The clay field of the company southwest of town is nearly ninety feet deep, as was shown during well drilling operations, and is of fine quality to make durable brick. Work continues on the well being drilled at the brick-yard, the hole being 190 feet deep yesterday.

JUSTICE COURT BUSY

Four Held to Grand Jury on Bawdy House Charges.

Justice-of-the-Peace Lawrence's court did a big business last week, on complaint of W. R. Wilkinson and Millard Triplett four persons being bound over to the grand jury each with \$500 bond, all charged with keeping or permitting to be kept bawdy houses.

On complaint of W. R. Wilkinson, the local deputy sheriff who has just resigned, Earl Myers was brought up, and after a hearing was bound over to the grand jury. James Girton, Ada Hunt, alias Mary Doe, and J. S. Parminter, complaint against whom was made by Triplett, each furnished the same bond, having waived examination.

The charges against B. Girton were dismissed on a motion of the state.

Invisible Indians.

All Indians seem to have learned a wonderful way of walking unseen, making themselves invisible like certain spiders, which, in case of alarm, caused, for example, by a bird alighting on the bush their webs are spread upon, immediately bounce themselves up and down on their elastic threads so rapidly that only a blur is visible. The wild Indian power of escaping observation, even where there is little or no cover to hide in, was probably slowly acquired in hard hunting and fighting lessons while trying to approach game, take enemies by surprise or get safely away when compelled to retreat. And this experience transmitted through many generations seems at length to have become what is vaguely called instinct.—John Muir in Atlantic.
