BEND, OREGON, WEDNESDAY, NOV. 15, 1911.

NO. 36

PAY TOO MEAGER

MAIL CONTINUES TO COME BY STAGE

Government and Oregon Trunk Have Been Unable to Agree on Terms for Carrying Pouches Between Bend and Opal City—Appeals Made

Bend continues to get its mail by stage from Culver because the Postoffice Department and the Oregon Trunk Railway have not come to terms as to the amount the road shall receive for hauling the mail between here and Opal City.

In reply to a telegram sent Nov. 3, Postmaster Minor yesterday received a letter from Second Assistant Postmaster General Joseph Stewart saying "an offer of the maximum rate allowable under the law for the class of service has been wired to the company, and as soon as its acceptance has been received mail service over said line of railroad will be extended from Opal City to Bend, Oregon."

It is understood that this offer is unsatisfactory to the road inasmuch as it must pay for the transfer of mail between the depot and post-office here.

The Commercial Club has taken the matter up with President Gray and has also wired Senator Chamberlain.

The Bulletin today wired Senator Bourne as follows:

"On behalf of people of Bend, we urge you to use your influence to have mail come in and leave Bend by train. Your constituents here are indignant that they must suffer delay and loss by continued handling of mails by slow stage. Prompt attention to this matter will be duly appreciated by citizens here."

SOBIESKI NOVEMBER 24

Lecturer Will Return to Fill Date Which He Missed

Col. John Sobieski, the lecturer, who recently missed his date here in the lyceum course, will be in Bend on Friday, Nov. 24. He will combine two lectures, "Russian Prisons and Siberian Exiles" and that on Poland, giving a double treat to his audience. Single tickets for the evening will be 50c, on sale at the door.

On Dec. 4 the Ricketts, musical entertainers, will appear here as the second number in the course under the auspices of the "Whatsoevers."

TWO PASSENGER TRAINS

For one time, Bend had two passenger trains to arrive the same day. Sunday the O.W. R. & N. train from The Dalles to Metolius was more than two hours late and the Oregon Trunk train did not wait on it and arrived here on time. In order to get its passengers here, the O.W. R. & N. ran a special from Metolius which arrived here about 11 o'clock. Monday morning the trains were combined, going out as a double header.

NORTHERN LAKE "WET"

SILVER LAKE, Nov. 12.—In the election in northern Lake county last Tuesday the "wets" won. Among the towns voting for open saloons were Paisley, Fort Rock, Fremont and Summer Lake.

MUSICAL CONCERT

Chorus of About 30 Voices to Give Entertaining Program

A musical concert will be given at Linster's Hall Wednesday evening, Nov. 29, by the best talent in Bend. There will be a chorus of about 30 mixed voices, and the program will present both vocal and instrumental numbers. The entertainment will be under the direction of Mrs. Z. W. Lindborg, assisted by C. H. Hunter.

The best singers of Bend have been secured to take part, and no time is being spared rehearsing the selections chosen for the evening. The proceeds derived from the concert will be used in paying for chairs recently bought by the Methodists for the hall they are using.

It was at first intended to give the concert Nov. 24, but owing to the Sobieski lecture then the musical was postponed.

PROJECTS AT STAKE

Desert Board to Consider Crook Irrigation Undertakings

Next week the Desert Land Board at Salem will consider reclamation projects under the Carey act. The Columbia Southern project will receive attention Nov. 21 and the Central Oregon Irrigation Co. segregation Nov. 22. A Salem dispatch says: "Governor West said today that he has a plan to submit relative to the C. O. I. Co. which he believes will take care of the settlers and assure ample water if it is shown that that company is unable to deliver the goods and live up to the requirements of the State Board."

BULLETIN BUYS MACHINE THAT WILL SET ITS TYPE

Latest Model Linotype Will Be Installed About Last of Year— Machine Will Complete Equipment of the Plant, Making it One of the Most Up-To-Date in Eastern Oregon

NEW YORK, Nov. 14, 1911

U. N. Hoffman,
Bend, Ore.

Have completed arrangements for purchase of linotype for The Bulletin. New model 10 Mergenthaler which we buy is the finest typesetting machine made, and will be the only one of its kind in Oregon or Washington. It will be installed probably in December, just as soon as delivery can be made from factory.

(Signed) G. P. PUTNAM.

The above message from Mr. Putnam, proprietor of The Bulletin, announces a progressive step in the conduct of this paper which not only will vastly increase its scope and efficiency in the news field, but will place its plant in a position to handle all kinds of extensive job work speedily and with prices equal to those obtainable in any Coast city.

The Mergenthaler linotypes, the latest model of which The Bulletin is securing, are the world's greatest typesetting machines. They are used by the metropolitan press of the country. The purchase of a \$3,000

MODEL No. 10 MERGENTHALER LINOTYPE WHICH BULLETIN HAS BOUGHT FOR EARLY DELIVERY

linotype substantially indicates the faith which the management of The Bulletin holds in Bend's future.

With the only modern typesetting machine of metropolitan scope in Oregon outside of the four largest cities, with the only four-page drum cylinder press east of the Cascades, with new job presses, large paper cutter and other up-to-date appliances, and with the advantages of the largest paper stock in the interior, The Bulletin feels that it is contributing its full share to the upbuilding of Bend.

The new typesetting machine can do the work of three men setting type by hand. It will complete the equipment of The Bulletin for the

publication of a daily. Now that the plant is able to handle it, it is probable that a daily issue will be launched in the near future. Certainly a semi-weekly issue will be inaugurated, should it seem premature to attempt a daily.

As soon as the new machine is installed and operating satisfactorily, the size of The Bulletin will

OPERATOR SETTING TYPE ON MODEL 10 LINOTYPE

be increased materially. The special advantage of the new equipment will be the possibility of getting the latest news quickly into type. With hand composition and limited labor facilities, most small papers are compelled either to omit entirely the late news of press day or to "boil it down" to very uninteresting proportions.

The "Model 10" is operated entirely by one man. The slight motive power it requires—about one-third of a horsepower—is supplied by a special electric motor. As indicated in the accompanying illustrations, the operator uses a keyboard very similar to that of a typewriter. When the keys are touched, the corresponding piece of type is cast from a tank of molten metal, and properly spaced, punctuated and arranged, is automatically passed from the machine to a galley, from which the set type is transferred to the "stone" and the presses. After use the type, or "metal", is remelted. The "Model 10" has a wide scope of type faces, and besides being specially adapted to rapid newspaper composition, can set up two-face semi-display advertising and booklet work.

FOOTBALL GAME HERE

The Dalles High School Will Play the Local Team.

What will probably be a snappy game of football is scheduled for Saturday afternoon on the local grounds between the Bend High School and The Dalles High School teams. Although they have lost both games played this fall, the Bend boys are not discouraged and will endeavor to win over the visitors Saturday.

At Prineville last Saturday the team from here played the Crook County boys. The score was 21 to 0 in favor of Prineville.

SHIP OUT CREAM

FARMERS SEND IT TO PORTLAND

Once Each Week Product of 125 Cows Will Be Expensed to Hazelwood Creamery From Deschutes Station By Laidlaw and Sisters People

Dairying in the country adjacent to Bend has received a great impetus during the past six months as is evidenced by the fact that the farmers of the Sisters and Laidlaw country who have cows have made arrangements with the Hazelwood Creamery Co. to ship their cream to Portland. Several creameries for this part of Central Oregon have been talked of but never materialized, and in seeking a field for their product the Laidlaw and Sisters people decided to ship to the Rose City.

Once a week, probably on Tuesday, R. G. Sturgeon will gather up the cream and it will be expressed from Deschutes station, which is four miles from Laidlaw. It is not known yet how many gallons will be sent out each week, but it will be the product of about 125 cows.

NO REGISTRATION

Voters Who Show They are Qualified Can Cast Ballot on Charter

No registration before the election next Wednesday is required of voters. All they have to do is to appear at the polls and show that they are qualified, the election board being the judges. A residence of thirty days within the city is one of the required qualifications.

CROOK GETS CASH

County's Share of Land Sale Fund is \$1,074.44

SALEM, Nov. 12.—Apportionment of the 5 per cent received from the United States Government for the proceeds from land sales in Oregon was made by Secretary Olcott today. The total amount received for the year was \$12,785.67. Crook county, with an acreage of 5,122,560, gets \$1,074.44.

HUNTING UP RIVER GOOD

That long trips to Harney and Lake counties are not necessary to find ducks was evidenced by the success of J. W. Dimick and F. Hughey up the Deschutes over the week-end. Mr. Dimick drove up to Mr. Hughey's homestead, about 25 miles south, Saturday and the two men bagged forty-nine fine fowls. Mr. Dimick himself got nineteen Tuesday before leaving for home.

Size Doesn't Count

Size does not always count. The stinger is the small part of the bee, but you soon learn which end it's on.

It isn't always the size of a bank account that we consider, it's the man behind it. We feel that the humble depositor is entitled to the same consideration as the man who owns a mint. Our banking facilities are at the disposal of all alike. We are here to help you if we can. The farmer, planter, mechanic, business man, miner, stockman, laborer, professional man, all are invited to become patrons of our bank. The size of the account is not of first importance. Come in and let's talk it over.

We Have Money To Loan on Cattle.

Why not feed your hay and grain to stock, thereby getting the profit on both the hay and stock?

J. J. Hill says the fertilizer kept on the farm by home feeding is worth one-third of the value of the feed consumed. Our new land needs this fertilizer.

Farmers who are prepared to properly care for cattle can obtain the money from us on six months' time and secure a renewal for an additional six months if the stock has had proper attention.

Think it over and consult us as to the details.
