BEND, OREGON, WEDNESDAY, NOV. 22, 1911.

NO. 37

SCHOOL CENSUS

CLERK WIEST TO MAKE COUNT SATURDAY

Increase of Fully 50 Per Cent is Expected. District Will Receive Larger Appropriation—Reception to Football Teams—School Notes.

The annual school census for Bend will be taken next Saturday by Clerk L. D. Wiest of the School Board. There has been a marked growth of the town since the last count of children here and an increase of fully 50 per cent is expected to be shown by the canvass this week. This will mean more money for the use of the district, the appropriation being on a per capita basis of children.

Last Saturday evening at the Lucas residence a reception was given by the Bend High School in honor of The Dalles football team. A very unique manner of getting acquainted was used. Cards were passed around and the object of the game was to see how many signatures could be secured in a given time. Light refreshments, consisting of punch, wafers and fruit, were served during the evening. After a few words of thanks from The Dalles coach, the young people dispersed, all reporting a very enjoyable evening.

Tuesday evening of last week a surprise farewell party was given at the home of Marie Fox, in honor of Maydew Triplett, by the seventh and eighth grades. The chief amusement of the evening was the game of indoor football.

Miss Maud Vandeventer has received word from the State Superintendent that her state certificate would be renewed for another term of five years, without examination, on work done at the Willamette University last year.

When school opened in September it was with an enrollment of 155. Now that number has increased to 212.

Miss Markel is in Portland this week receiving treatment for her eyes. Miss Marion Wiest is substituting for her.

AUTO TRUCK ARRIVES

Frank McKay Will Operate Machine to Towns to South and Southeast.

Frank McKay of Portland, brother of Clyde M. McKay, will run an auto truck from Bend to towns

VOTING ON CHARTER.

The election on the charter is being held today, with a light vote. Up to noon 51 voters had cast their ballots. The indications then were that the charter would be rejected.

south and southeast of here. Wherever freight offers, he will make trips. The machine was unloaded from the freight car Monday and will probably be loaded with goods and make its first trip this week.

The platform at the depot is crowded with goods waiting to be hauled out to various towns. For some reason not fully explained, the Packard auto-trucks which Harrison and Riggs of Portland announced would be operated between here and Burns have not arrived. According to Mr. McDade, who is here to start them, there was some trouble about the freight rates on them.

STONE SHIPPED OUT FOR REDMOND DEPOT

First Two Carloads Were Taken From Bend Sunday By Oregon Trunk, and Others Will Follow Soon

The first shipment of building stone from Bend went out on the Oregon Trunk Sunday to Redmond. There were two carloads. The stone will be used in the construction of the passenger station at Redmond. Other shipments will follow, contract having been let for all the rock needed to be secured here.

The stone work on the Bend depot will be completed this week, it is believed. Contractors Sutherland & McIntosh will then begin on the wood work, and it is likely that the building will be ready for use before Christmas.

Redmond's depot will hardly be completed before spring. More than two months will be required for the stone construction, and the winter weather may cause considerable delay. The work here has gone forward almost without interruption as the weather has been fine.

CAN SELL DUCKS.

For only one month during the year can wild ducks be sold legally. This is between Nov. 15 and Dec. 15. Local sportsmen say the loop in the law does not affect them much as they have none left to sell after they have provided their own tables with fowl and divided with their friends.

MAIL BY TRAIN NEXT MONDAY

Postmaster Minor Receives Notice That Change Will Be Made From Stage--Oregon Trunk Given The Contract

WASHINGTON, D. C., Nov. 22, 1911

Bend Bulletin, Bend, Ore.

Postoffice department has finally reached agreement with railroad company and has telegraphed instructions to establish mail service, beginning next Monday.

JONATHAN BOURNE, JR.

Effective Monday, Nov. 27, mail to and from Bend will be carried by railway. Notice to this effect was received Monday by Postmaster Minor, in a letter from Joseph Stewart, second assistant postmaster general. The Oregon Trunk Railway will carry the pouches over its line, the Wenandy Livery Co. transferring them between the depot and postoffice.

In his letter to Postmaster Minor, Mr. Stewart said:

"Every railroad company is required to take the mails from, and deliver them into, all terminal post-offices, whatever may be the distance between the station and post-office, except in cities where other provision for such service is made by the Postoffice Department. In all cases where the department has not made other provision, the distance between terminal postoffice and nearest station is computed in

and paid for, as part of the route."

The postal regulations require the postmaster to distribute the letter mail received in his office before 9 p. m., and every night the train is on time the first class mail will be worked out and placed in the boxes. The rest of the mail will be distributed the next morning. The Sunday hours, after the 27th, will be from 10 to 11 a. m. instead of from 5 to 6 p. m.

There is a great need for more lock boxes here, and an effort is being made by Mr. Minor to secure an appropriation for this purpose. The accommodations which the Government is giving Bend have become inadequate, with the rapid growth of the town. The present office quarters, as arranged, are much too small for the proper handling of the large amount of mail passing through the office.

FRAUD IS ALLEGED

Mrs. Patterson Makes Effort to Have Mortgage Annulled.

In the complaint which Mrs. Mary L. Patterson has filed against her husband, Ralph W. Patterson, in the Circuit Court at Prineville, she asks not only for a divorce decree but also that a mortgage executed by Patterson on Nov. 1 in favor of W. E. Guerin and J. L. Sumrall, his attorneys, be set aside. It is alleged in the complaint that "the defendant Patterson fraudulently executed and delivered to the defendants Guerin and Sumrall his promissory note for \$1500 due one day after date and secured by a mortgage" covering all his real estate, 240 acres. Mrs. Patterson asks that this mortgage be annulled and set aside as fraudulent and that she be awarded judgment against the defendant "in the sum of \$5,000 as maintenance and alimony and subjecting an undivided two-thirds" of Patterson's real estate to the payment thereof.

MRS. UNRUH COMING

W. C. T. U. Worker Will Speak Here Sunday.

Mrs. Ada Wallace Unruh, state president of the Oregon W. C. T. U., will be in Bend Sunday and hold three union meetings. She is a speaker of nation-wide fame and her addresses are said to be forceful and eloquent. She will speak at the Baptist church at 11 a. m., hold a mothers' meeting at 3 p. m. to which all the women are invited and lecture in the evening at 7:30. There will be no regular church services except Sunday school.

SOBIESKI FRIDAY NIGHT.

Col. John Sobieski, the lecturer, will be here Friday evening, speaking at Linster's Hall at 8 p. m. Those who do not have season tickets may secure single tickets at the door that evening for 50c.

HOGS ON WAY HERE.

The first shipment of live-stock ever to be received in Bend is expected to arrive tonight over the O-W. R. & N. from Nebraska. It is the carload of brood sows for farmers of this community which were ordered through the First National Bank and the Portland Union Stock Yards. W. H. Daughtry, president of the stock company, arrived last night to look after the shipment when it reaches here.

WAITS 12 YEARS TO COME IN BY RAIL

An Old-Fashioned Clock Made in 1805 Received By L. D. Wiest Last Friday From Wyoming.

Stored away and silent for twelve years, a valuable family clock which was made in York, Pa., in 1805 has been restored to its place of honor in the L. D. Wiest home by the coming of a railroad to Bend. The clock was received in Bend Friday from Sheridan, Wyo., where Mr. Wiest stored it more than a decade ago, declaring he would not bring it to Central Oregon until it could come in by rail.

This timepiece belonged to Mr. Wiest's grandfather, Michael Wiest, then to his father, John Wiest, and in 1894 became the property of the present owner. It is eight feet tall and is run by weights suspended from long cords.

When it comes to telling time, this clock has about all the others outdone. Not only does it have hour and minute hands like an ordinary timekeeper, but boasts of a day and second hand and a "moon regulator." Mr. Wiest explained that the latter does not presume to dictate to Luna, but indicates the phases of the moon as they occur.

What with dust accumulations and the strenuousness of a long rail journey, the old clock is somewhat "under the weather," but Clock Doctor Thorson is tenderly ministering to his patient and will doubtless "bring it around" in short order.

LINOTYPE BY XMAS

Typesetting Machine to be Shipped First of Next Month.

The San Francisco office of the Mergenthaler Linotype Co. has notified The Bulletin that the Model 10 linotype which G. P. Putnam has purchased for this paper will be shipped from there to Bend about Dec. 1. In that case, the machine will arrive earlier than was expected and be installed about Christmas. A special machinist will come from San Francisco to set it up.

The new job press received last week has been set up and is now being used. It is a high speed machine and will enable The Bulletin to turn out job work faster than has been possible on its old press.

GIRLS BALL TEAM

LOCAL ASSOCIATION REORGANIZES

Practice Will Be Started Dec. 4, Under Direction of Mrs. Faulkner—First Game Will Be Played About First of Year—Strong Team Assured

The Girls' Athletic Association of Bend has just been reorganized for the purpose of playing basket ball. The officers are: Pres., Miss Angie Young; vice pres., Miss Arrie Black; sec-treas., Miss Gertrude Markel; coach, Mrs. W. W. Faulkner.

Practice will be started Dec. 5 in Linster's Hall and held every Tuesday night. The first game will probably be played about the first of the year, with Prineville.

All the girls' of last winter's strong team are here except Miss Dolson, and with new material there will be enough players for two good teams. The High School girls are also considering organizing.

On account of the practice, the Priscilla Club has changed its meeting night to Monday.

UNDER UNLUCKY STAR.

That Silver Lake-to-Bend auto truck scheme appears to be traveling under an unlucky star. Last reports said that the truck was without gasoline and had stranded at the Summit stage station. La Pine has a gasoline famine and the truck drivers must await the arrival of power juice from Bend. After leaving here two weeks ago, the truck went wrong at Fremont and was delayed several days.—Silver Lake Leader.

RECEIVE LIFE TERMS.

Del Howell, who shot Mayor J. C. Fowle of Shaniko, pleaded guilty last week at The Dalles to murder in the second degree and was sentenced to life imprisonment in the penitentiary. William Gleson, who slew his aged mother near Antelope by stabbing her in the back with a butcher knife, also pleaded guilty to second degree murder and received a life sentence. He and Howell both were indicted for murder in the first degree.

GOVERNORS' SPECIAL TO RUN.

Carrying exhibits to demonstrate the natural resources of the States of the Northwest, a train known as the Governors' Special will start from St. Paul Nov. 27 to make a tour of the East. Governor West of Oregon is expected to accompany it.

Size Doesn't Count.

Size does not always count. The stinger is the small part of the bee, but you soon learn which end it's on.

It isn't always the size of a bank account that we consider, it's the man behind it. We feel that the humble depositor is entitled to the same consideration as the man who owns a mint. Our banking facilities are at the disposal of all alike. We are here to help you if we can. The farmer, planter, mechanic, business man, miner, stockman, laborer, professional man, all are invited to become patrons of our bank. The size of the account is not of first importance. Come in and let's talk it over.

We Have Money To Loan on Cattle.

Why not feed your hay and grain to stock, thereby getting the profit on both the hay and stock?

J. J. Hill says the fertilizer kept on the farm by home feeding is worth one-third of the value of the feed consumed. Our new land needs this fertilizer.

Farmers who are prepared to properly care for cattle can obtain the money from us on six months' time and secure a renewal for an additional six months if the stock has had proper attention.

Think it over and consult us as to the details.
