

HAMPTON NEWS NOTES

Homesteaders Bring in Milk Cows From Washington

HAMPTON, Jan. 9.—Mr. Melvin and Hugh Crow came in from Bend the first of the year with three Jersey cows, which they recently brought from Chehalis, Wash.

A. S. Fogg and L. C. Peck are building a bungalow for Edward F. Bassett, who recently fled on a homestead near the 63rd mile post of the Bend-Burns road.

Mrs. Miller accompanied Louis Miller on a trip to Held last Tuesday.

Burr Black and W. T. Harrison are digging a well on the latter's homestead. Indications seem favorable for water.

The most severe weather this winter is being experienced at present. However, the settlers of this community are not only comfortable themselves but have their stock in shelter and well provided with feed.

Miss Ethel Fogg was called home from her school in Portland last week by the illness of her mother. Mrs. Fogg is on the road to recovery.

A. T. Frame went to Bend the last of December but expects to return to his homestead in the near future.

CHILDREN'S PRIZES

Industrial Exhibits Will be Encouraged Among School Boys and Girls

CORVALLIS.—Prizes totaling thousands of dollars have been offered to the children of Oregon for industrial exhibits at the state and county fairs and school fairs. State Superintendent of Schools Alderman, cooperating with the county superintendents, State Fair Association, Portland Commercial Club, Oregon Development League, State Bankers' Association and the extension division of the Oregon Agricultural College, will organize and conduct contests in corn growing, poultry raising, manual training, domestic science, potato growing and other industrial work, and every child in the state will have opportunity to compete for the prizes.

The State Fair Association has agreed to furnish \$1,400 in cash prizes for school exhibits, and promises of other prizes amounting to \$2,000 have also been made, while other interests which will doubtless contribute have not yet been approached. The commercial clubs all over the state will push the work, and a committee on agricultural education from the State Bankers' Association has agreed to raise at least \$1,800 to assist in the work.

Some 20 different branches of industry will be included in the contests, and those entering will be required to keep for the college accurate and complete records of their work from the beginning. Thus a vast amount of valuable data will be secured. One county superintendent states that there will be at least 4,000 children exhibiting from his county alone.

NOT CANDIDATE AGAIN

District Attorney Wilson Announces He Will Not be in Race.

To the Editor of The Bulletin: Since it is but a short time until the announcement of candidates for various offices at the coming primaries will have to be made, and knowing that the candidacy of some parties for the office of district attorney depends upon whether or not I should again desire to be a candidate, I deem it but fair to such aspirants, and any others, to definitely announce that I will not be a candidate for nomination at the coming primaries. Pressure of private business is such that I feel that a sacrifice of such business must be made, or the duties of the district attorney's office would not receive that close attention which they deserve and demand, and for that reason I have come to the above conclusion.

In making this announcement, I trust it is not out of place to express my sincere and heartfelt appreciation to those who have given me their loyal support and words of encouragement during the time I have performed the duties of the district attorneyship, which at times have been somewhat arduous, and I trust that my successor, whoever he may be, will enjoy this pleasant association and co-operation to the same full extent as it has been given me.

PRACTICAL POULTRY BOOK.

One of the most practical poultry books ever produced on the Pacific Coast has been received from the press of the Chas. H. Lilly Co. It is edited by Ralph H. Randall, one of the leading poultry experts of America. Some of the leading articles are "Care of Chickens," "The Development of Young Stock," "Breeds," "Feeding of Poultry," "Feeding for Eggs," "Fattening for Market," "Poultry Houses," "Poultry Hens," "Artificial Incubation," etc. The Chas. H. Lilly Co. of Seattle is sending this book free to all who will write for a copy.

RAILROAD MILEAGE GAINS.

SALEM.—Railroad mileage in Oregon has increased at a remarkable rate during the last few years and the outlook for 1912 is most encouraging. According to the report of the State Railroad Commission, there were 2382 miles of railways in Oregon at the end of June, 1910. By the end of December, 1911, this had grown to 2883 miles.

Too Suggestive.

"The health officer advised me to ask every man with whom we had domestic dealings if he was careful to boil the water he used in his business."

"Yes."

"Well, I asked the milkman first. And what do you think? He got mad and wanted to lick me."—Cleveland Plain Dealer.

No Previous Employment.

"You say, Rastus, that you want work for your wife," said Gunbusta, eyeing the husky dorky before him from head to foot. "Was she ever employed before?"

"No, sir," replied the negro nonchalantly; "dis am her first marriage."—New York Times.

The Sleep of Life.

We talk about the sleep of death. How much deeper, how much sadder, is the sleep of life—the unresponsive heart, the unawakened mind, the hand palsied by lack of will to do!
