### The Time to Do the Counting.

In the old days of impetuous warfare caution was not regarded as so much a virtue on the part of a military commander as at present. In a battle between French and Austrians, in which Marshal Bugeaud commanded the French forces, an officer of the staff said to the marshal: "The enemy are advancing. Shall I send a party to reconnoiter and see how numerous they are?" "No," said Bugeaud; "we'll count 'em after we've beaten 'em."

### Reading.

Were I to pray for a taste which should stand me instead under every variety of circumstances and be a source of happiness and cheerfulness to me during life and a shield against ill, however things might go amiss and the world frown upon me, it would be a taste for reading.—Sir John Herschel.

### Its Nature.

"Borely is a nuisance. No matter when you meet him, he wants to talk about his fine stamp collection."  
"Don't blame him for that, my boy. As a rule stamps are things which are naturally on the tip of every one's tongue."—Baltimore American.

### The Mule.

"Kicking is bad poetry. Behold the mule. Kicking never gets him anywhere."  
"That is exactly why the mule kicks."  
"Eh?"  
"He doesn't want to get anywhere."—Birmingham Age-Herald.

### Storms of Life.

The noblest characters are those who have steered the life saving vessel through storm tossed seas. A bed of down never nurtured a great soldier yet.

It is success to lose the approval of fools.—Kural.

### Glus Tonic.

Chinese medicine developed a special fondness for fossilized "dragon bones," derived from extinct herbivora. They are also fond of "dragon teeth," as fossilized shells are called. In Shantung glue is made from asses' skins. In a certain town of that province is a well, the water of which when drunk by asses makes their skins especially good for making glue. This glue brings a fancy prize, as it is a famous tonic throughout China.—Chicago Tribune.
