It is longer lasting—  
more fire resisting—  
more water and weather proof  
than any other known roofing.

Malthoid is made right  
in every detail  
and for that reason  
makes a most perfect  
roof covering.

No matter under what  
conditions it is used—  
what climate it is used in—  
the character of the  
building used on—

Malthoid is the best roofing that  
it is possible to make and we  
can prove it by  
the record of the makers—  
The Paraffine Paint Co.  
of San Francisco
