

CORRESPONDENCE

"What is Worth Having is Worth Paying for." That excellent saying applies to correspondence for The Bend Bulletin. Hereafter The Bulletin pays good hard cash for all its country correspondence.

In addition, it offers a prize of TEN DOLLARS GOLD to the correspondent who has the best record from now to August first. The prize will not be awarded for quantity alone; quality also will count. A second prize of five dollars in trade goes to the correspondent with the second best record.

The Bulletin wants good live correspondents in every community throughout the western Crook county territory. If YOUR locality is not represented, write immediately and become our correspondent; you can make a little money in an easy way, perhaps win a prize, and certainly help your neighborhood and help us make The Bulletin bigger and more interesting.

PRINEVILLE

PRINEVILLE, March 24.—Monday was "Bend Day" at Prineville, if not officially, at least in the number of Bend people seen on Prineville streets and around the court house.

Among those present from the west side were H. C. Ellis, Jas. H. Bean, H. J. Overturf, R. H. Bayley, Will P. Vandeventer, John N. Hunter, W. H. Staats, R. F. Averill, J. M. Lawrence, F. F. Smith, D. L. and Clyde McKay, A. S. Collins, Linster Brothers, J. P. Keyes and John Bloss. Most of these gentlemen spent a more or less lengthy period in the Tax Collector's Department.

Considerable interest is being taken in the proposal to have the timber of the county daly and systematically cruised.

Assessor Lafollette, under whose department the cruising of the county's timber properly belongs, is very much opposed to the movement at the present time. While realizing the importance of an expert estimation of the taxable timber, Mr. Lafollette claims that now is quite the wrong time to burden the tax payers with an extra \$59,000, the amount he estimates would be necessary to have the job done by experts. Mr. Lafollette estimates the county's timber land at from 500,000 to 800,000 acres.

John Vanderpool, until recent an inmate of the state asylum, has again been adjudged insane. Dr. Edwards took him to the court house and he has been given temporary accommodation by the county while waiting for an attendant from the asylum to come and take him down again.

Guy Crompton of Antelope is on

the warpath to locate the man who broke into his cabin and helped himself to various valuables. He started off with his team and wagon and seemed to be heading for Hillman or Redmond.

Frank Archer is making improvements also, with an addition of two rooms to his house on his ditch right.

Mr. Culver recently had a Jersey cow shot, presumably accidentally by someone hunting through the junipers. The cow was a valuable animal, and, as usual, someone is paying rather dearly for some careless hunter's promiscuous rifle shooting in the timber.

Miss Hattie Frost entertained a number of her friends at her home Sunday evening. The evening was pleasantly spent playing games. Refreshments of popcorn and candy were served.

GIST

GIST, March 24.—Considerable excitement was caused here the first of the week by the strange disappearance of F. W. Leverenz, who lives alone on his ranch a few miles south. Several efforts were made to reach him by phone, which were unfruitful, and during Sunday several neighbors called at his ranch but were unable to find any trace of him. His failure to keep an important engagement on that day added to the belief that he had met with foul play. An investigation was made by Henry Schumacher, brother-in-law of Mr. Leverenz, and it was found that the latter had been quietly grubbing sagebrush on a distant part of his ranch, thinking the day was Saturday instead of Sunday.

School opened last Monday after a short vacation, and the work was taken up with renewed interest by both pupils and teacher. A visit by L. J. Murdock, school supervisor, on Thursday proved very helpful, and while here Mr. Murdock said, "I am well pleased with the school in every respect. The deportment of the pupils is exceptionally good, and the district is fortunate to have secured the services of so competent and painstaking a teacher as Mrs. Nichols."

A two-story addition 24x28 feet in dimensions will be built to the south end of the house. The present building will also be remodeled. There will be a large reception room, a family chamber, dining room and a number of bedrooms. A large fireplace and bathroom will be features.

The house will be on the bungalow style, and will be given a rustic appearance by the use of rough pine slabs for the exterior. The dining room, reception room and living room may also be finished similarly, giving the appearance of a log house. Lumber will be hauled from the Clark and Pine Forest mills near Bend, and it is expected that work will be started in a short time.

The blacksmith shop conducted at the Millican ranch by Dwight Holden is doing a good business. A number of automobiles have been recently repaired and put in good running condition.
