

THE BEND BULLETIN.

VOL. X.

BEND, OREGON, WEDNESDAY, MAY 1, 1912.

NO. 8

TOWN HAS MANY NEW BUILDINGS

RESIDENCE DISTRICT EAST OF CANAL

Center Addition Scene of Much Activity Since First of the Year. Houses Mostly of the Bungalow Type, and Make Good Showing

Center addition has been the scene of much home building since the first of the year, seven substantial houses representing approximately \$8800 having been erected. Most of these are of the bungalow style, and show up to good advantage among the juniper trees. The water main which was laid into that part of town some months ago serves nearly all of these, affording conveniences which others have had to wait for, in many instances, after their homes were built. Most of the owners occupy the houses with their families.

The sidewalk on the south side of Greenwood avenue extends about a block east of the Pilot Butte Canal, giving the Center addition residents a walkway to the business district.

Bungalow Among Junipers.

An attractive bungalow of five rooms with bath will be completed this week for George Michaelson, who recently came to Bend from Fort Rock, on lot 3, block 19, Greenwood avenue. The location is a good one, the building sitting among a cluster of small juniper trees. The house will have two additional rooms upstairs, but these will not be finished at the present time. The family expects to move in the last of the week. J. B. Goodrich is in charge of the construction work. The cost of the house was approximately \$1000.

At the corner of Ninth street and Hawthorne avenue, on lot 16, block 29, Supt. J. B. Shouse of the Bend school has erected a neat bungalow of six rooms and bath. It is situated on a high point and affords a fine view of the mountains to the west. The interior finishing is in brick, and it is sealed and papered. The family moved into it the first of last month. The cost was around \$1000. J. J. Cunningham was the contractor.

Two Seven-room Houses.

Two large and substantial two-story residences are those erected by G. J. Hauck and L. G. Grube, cousins, who, with their families, came to Bend the first of the year. Mr. Hauck has four rooms and bath down stairs and three rooms upstairs. The interior is neatly finished in brick. The location is lot 15, block 31, Fir avenue.

On the adjoining lot 14 stands Mr. Grube's house. It has two rooms upstairs, with five rooms, pantry and bathroom on the ground floor. Each

of these houses is valued at about \$1800.

A small but pretty bungalow is just being completed for Mr. and Mrs. H. H. Schlickeliser on lot 19, block 15, Fir avenue. It is 24x30 feet in dimensions and has four rooms and bath. The cost was approximately \$800. J. J. Cunningham was the contractor. Mrs. Schlickeliser and little son will probably move in this week. Mr. Schlickeliser works in Portland, being connected with the Portland Hotel.

E. P. Brosterhaus completed a modern bungalow on lot 9, block 19, Center addition, in March at a cost of \$1400. It is of two stories and contains five rooms, bath and pantry, and there is also a basement. The house is occupied by Charles Everett, of the forestry office, and family.

Cottage to be Remodeled.

Last fall two cottages were built on lots 11 and 12, block 19, by E. W. Richardson. W. H. Bently, who bought that on lot 12, plans to remodel it, converting it into a bungalow.

A cottage, the property of Paul E. Peterson, has been built recently on lot 10, block 15, Fir avenue. It has five rooms and bath. It has been leased by Glen Eyrle, who moved in about 10 days ago.

Three good residences were built on Greenwood avenue last fall by C. W. Martin, W. B. Cameron, and J. W. Irwin.

FINAL ELECTION FIGURES IN

Corrected County Returns Are Finally Fully Tabulated.

Because the election returns returns printed in The Bulletin last week were received over the telephone, for the most part before all precincts had been heard from, and tabulated here, in some cases the totals for the county were slightly in error.

The corrected official totals of the vote for Republican county candidates is as follows:

District attorney—Bell 340, Pepper 274, Smith 522.

Representative—Forbes 745, Smith 518.

Judge—Ellis 193, McFarlane 430, Pollard 289, Bogell 290.

Sheriff—Elkins 648, McTaggart 275, Brown 232.

Assessor—Van Allen 569, Wyld 510.

Surveyor—Brewster 552, Rice 527.

On the Democratic ticket the official count shows that for sheriff, Halford polled 251 and Edwards 194.

CRUISE GOVERNMENT TIMBER

Party of Forestry Men at Work in the Sisters Country.

Supervisor Harvey of the Deschutes National Forest has a party of ten men at work in the Sisters country cruising timber, or "taking stock of what Uncle Sam has." Deputy Supervisor W. G. Hastings of this district is in charge, the others in the party being Clarence Underwood, Bert Oney, Morton Smith, Marvin L. Merritt, Mr. Hodgson, Mr. Jacobson, Mr. Evans, Mr. Bright, Mr. Heintzleman.

The reconnaissance work will last probably six weeks, the territory covered being townships 13, 14, 15, south, ranges 8 and 9 east.

CIRCUIT COURT SITS NEXT WEEK

NUMBER OF CASES FROM WEST SIDE

Most Important that Against Ralph Patterson, Who is in Prineville Jail Charged With Serious Crime. List of Jurors Drawn for Term

Circuit Court, with Judge Bradshaw presiding, will convene at Prineville for the May term next Monday. The docket contains a number of cases from Bend and the West Side, chief of which are those against Ralph Patterson, held on a serious charge regarding his treatment of his 15-year-old stepdaughter, Irene Page, for which he has been in jail at the county seat since last fall, being unable to furnish the required bond. The minimum penalty for conviction of the crime in question is 20 years in the penitentiary. Vernon A. Forbes and Hittner & Staats will appear as attorneys for the defendant.

In connection with this case is another asking the court to set aside as fraudulent a mortgage given by Patterson in favor of W. E. Guerin, Jr., and Jesse L. Sumrall. Mrs. Patterson is suing for a divorce from her husband also, her attorney being C. S. Benson. Two mortgage foreclosure cases against Patterson are on the docket in addition, these being brought by A. C. Lucas for \$500 and the Deschutes Banking & Trust Co. for about \$100.

West Side Cases.

Other cases from the West Side are:

State vs. Fred Hahn ("Blackie") for shooting Herman Brauer ("Peoria Slim"). "Blackie" is in jail, having been unable to give bond.

State vs. Chris Wood on charge of stealing windows out of the house on J. M. Lawrence's ranch up river.

State vs. I. J. Wilkinson for cutting water ditch of the C. O. I. Co. This case was continued from the October term of court when Mr. Wilkinson was indicted by the grand jury. V. A. Forbes is the defendant's attorney.

J. H. Wensandy vs. J. L. Combs, an action brought to collect an account amounting to about \$475.

J. L. Combs vs. Pine Forest Lumber Co. to collect \$1900 on contract for hauling logs. Forbes attorney for the defense.

First National Bank vs. Silver-Booth & Brewer to collect note for \$800.

Persons vs. Eva Steele and Frank Walker, a water suit from Sisters which was continued last term for taking of testimony.

H. J. Overturf vs. Henry Linster to collect note for \$1500. Continued from last term.

White Motor Car Co. vs. D. L. Peterson.

(Continued on last page.)

FISH HATCHERY WITHIN REACH

LOCATION ON DESCHUTES NOW LIKELY

A. F. Shireman Appointed Warden Here, Usher Up-stream—Trout Fry Not for Streams that are Posted. Boat Fishing Perhaps Popular

That the Deschutes river has a good chance for a fish hatchery, is indicated by a letter received by The Bulletin from the office of William L. Finley, state game warden.

Below is an extract from the communication:

"Relative to establishing a fish hatchery on the Deschutes, will say the Commission still has that matter in abeyance. However, we shall state that our Fish Culturist reports as between the Deschutes and Klamath county that your waters and climate are much more adaptable to a hatchery site than the Southern Oregon District; however, the Southern Oregon District seems to have had the advantage over the Deschutes in the matter of transportation, which is a very important factor in trout distribution throughout the state. Just what decision the commission will come to, we are unable to state at this time, but you may rest assured that the Deschutes will be given careful consideration when the matter is taken up for final settlement."

The transportation difficulty referred to by Mr. Finley has, of course, been solved by the arrival of the railroads, as has been pointed out to him by The Bulletin in a letter which also calls attention to the growing need for trout stocking of Central Oregon's great river, which affords recreation to so many people throughout such a large section.

A. F. Shireman is Deputy.

A. F. Shireman has been appointed deputy game warden here, and is devoting all his time to the work. Mr. Shireman reports that while he has examined practically every person fishing on the river near Bend, he has found only one without a license. More than 170 have been issued here this spring.

John Usher, on Big River, is acting as special deputy, without compensation.

No Fry For Posted Streams.

An announcement of interest from the state game officials is that they will not be enthusiastic about furnishing trout fry for "planting" in streams which are posted heavily. The reasons for this, in brief, are that the licenses paid by city fishermen chiefly pay for the handling of the fry, and it is only right that they be placed where the people who pay for them can get some benefit.

Another statement is to the effect that land-owners cannot keep anglers

from fishing in streams running through their property, so long as actual trespass is not done. This means that by using a boat fishermen have the right to "whip" any stream they can navigate, no matter how many "keep off" signs and bear traps they bristle along the shores.

BIG SIGN BRILLIANT.

The big electric sign of The Bend Company, swung across Wall street in front of its office, was lit for the first time last Wednesday. It shows up well and is undoubtedly as fine an electric sign as there is in the state outside of Portland. Monday's high wind tested Tom Foley's engineering work thoroughly, for the big affair showed no signs of being affected.

ALL COWS SOLD.

All of the cows brought in by the First National Bank were sold last Friday and Saturday at the old experiment farm. The cows, numbering 40, were imported from Illinois. They were Holsteins.

SURPRISE THEIR FRIENDS

Miss Bessie Main and Frank Hearn Married Last Friday Night.

At the home of Mrs. Weider, Friday evening at 9:30 o'clock, Miss Bessie Main and Frank Hearn were married by Rev. I. I. Gorby. Those present as witnesses were Mrs. Weider, N. P. Weider and Mr. Jennie Harper. The ceremony came as a surprise to friends of the young people, and they added to this by keeping the fact a secret from the public until Sunday.

The bride is a daughter of Mr. and Mrs. M. J. Main. Mr. Hearn is connected with the W. C. McCulston Co. They will make their home in Park addition.

MARRIED IN PORTLAND

W. E. Parker Returned Thursday Night With His Bride.

William E. Parker returned last Thursday night from Portland, bringing with him his bride, who is Miss Adelaide Nelson. The couple were married Wednesday in the metropolis. They will make their home here where Mr. Parker is engaged in the plumbing business. He came to Bend last summer from Portland.

Mrs. Parker is a very attractive and accomplished young woman, and is Miss Nelson was quite popular in Portland. A number of pre-nuptial social affairs were given in her honor.

FOREST RANGERS BUSY NOW

Preparations Being Made for the Summer Season's Strenuous Work.

The local forestry office is getting ready for the summer season, which is the busy part of the year for this branch of government service. Supervisor Harvey has his rangers out doing various kinds of work, and within a month or so he will appoint a number of fire guards to patrol the reserves. The Deschutes forest has six year-round rangers and others are appointed for the busy season, making a total of about 20 during the summer. E. H. Mann of La Pine has recently been appointed by Mr. Harvey and begun work.

DEMONSTRATION WORK IS BEGUN

FARMING EXPERIMENTS UNDERTAKEN

Oregon Agricultural College Experts Ask Settlers to Co-Operate With Them—Superintendents to Visit Various Parts of County.

BY H. D. SCUDDER.

Agronomist Oregon Agricultural College and Experiment Station.

The demonstration farms recently located in Crook county are rapidly being put into operation, the early seeding being practically completed. A great many varieties of seed of many different crops have been secured from all parts of the United States. What special machinery and equipment as is required is now in transit to these farms. Soon the late seeding will be started, guide boards put up explaining the work being carried on in each field, and as the crops appear above the ground these two farms will come into full operation.

The work on demonstration farms, is only a minor part of the program to be carried out. The first step is the establishment of co-operative fields in each important section of the county. These fields may be only from one-half an acre to five acres in size but if established in each of the important farming communities of the county they will be the local center for the advisory and instructional work of the college experts. To get this co-operative work started at once it is desired that every farmer who is anxious to see some demonstration work in his neighborhood started and who will be willing to furnish the use of a couple of acres of ground and take care of it under the instruction of the college authorities, make this known at once by letter or in person to the superintendents of the demonstration farms.

Urges Co-operative Work.

Those located in the dry farming sections should address themselves to the superintendent of the college dry land demonstration farm at Metolius, and those farmers located in the irrigated section should address themselves to Superintendent Powers of the college demonstration farm at Redmond. Make known to these superintendents what special problems in tillage or cropping your neighborhood is interested in, state that you are willing to devote a half acre or more of your land lying adjacent to a main traveled road to demonstration work, and that you will furnish the tools and put in and take care of a certain amount of crop under the directions of the superintendent, describe the location of your land, and ask for a visit. A letter of this kind directed to either

(Continued on last page.)

Mr. Blank's Mistake

"I made a bad mistake today" said Blank to his wife. "I went to pay that subscription to the daily, which was \$5. I found out afterward that I had handed the agent a \$100 bill and didn't notice it until he was gone—guess he didn't either. I suppose the fellow is honest and I'll get my money back, but it'll be some trouble." "I've been telling you" said his wife "that you should deposit your money in the bank and then pay by check. Then you won't be making such mistakes and having so much trouble."

Was she right? She was. We invite one and all to open a checking account at our bank.

WHY NOT

devote more time to the man on the ground?
Make an actual demonstration farm out of yours.
If we apply this theory and practice it, not only as to farms, but all lines of industry, prosperity is sure to follow.
Let's help the fellow who is here now to make good. Isn't that also the quickest way to help the newcomer?
We desire your business and will make ourselves useful to you, as we are already to over nine hundred different people who now have accounts with us.
