REPORT ON CROPS

Valuable Work of the New York
State Grange.

Monthly Compilations Furnished From
Data Supplied by Grange Lecturers.
Quotations Received From All Parts
of State Are Disseminated For In-
formation of Patrons and Farmers.

The New York state grange has be-
gun the work of establishing a month-
ly crop report compiled from reports
sent by the grange lecturer in each
county. In the spring this report will
contain the acreage planted in various
staples and through the summer will
note the conditions and prices prevail-
ing. During the winter there has been
a scarcity of hay, and prices have risen
accordingly, ranging from \$15 a ton
in Broome and Chenango counties, the
lowest paid, to \$25, the highest figure,
in Monroe county. Potatoes were re-
ported short in all counties except
Steuben, the prices ranging from 81
cents in Yates to \$1.05 in Delaware
county. Eggs have been high all win-
ter in all counties, none reporting less
than 30 nor more than 45 cents. Three
dollars a barrel is the highest reported
for apples and \$1.25 the lowest, with a
divided opinion as to the supply. Quo-
tations on corn and oats are about the
same from all parts of the state—50 to
60 cents a bushel for oats and 45 to
80 cents for corn.

For a long time there has been a dis-
trust among the farmers of many crop
reports published, it being believed
by the farmers and growers that that
method is taken to lower or boost
prices, as occasion may arise, for com-
mission men and middlemen. If there
is a fair crop of apples out goes the re-
port, say the apple growers, that the
crop is immense and prices paid the
orchardist will be accordingly low. This
naturally affects prices to the ad-
vantage of the buyer and the disadvan-
tage of the grower.
To furnish, so far as possible, an un-
biased and true report of prices and
conditions the state grange has adopt-
ed the plan above.

State Grange Scholarships.

The New York state grange has ap-
propriated \$600 to pay for twelve
scholarships at Cornell Agricultural
college. These scholarships will be
awarded by competitive examination
based on a general knowledge of arith-
metic, geography, history and English
composition. Examinations are to be
held in each county by the master of
Pomona grange and a committee of
two, chosen by him, at such place in
the county as he may designate, on
the third Saturday in June. Any one
seventeen years of age or older and a
member in good standing of any sub-
ordinate grange desiring to enter said
competition shall apply to the master
of Pomona grange in his or her county
or in case the county has no Pomona
to the county deputy. Said Pomona
master (or deputy) will then make
requestion on the secretary of state
grange for sufficient examination pa-
pers to supply his applicants, and pa-
pers will be sent to him sealed. At
the date of examination these papers
will be opened by the applicant in
presence of the committee, questions
answered and placed in sealed envel-
opes and sent on day of examination
to secretary of state grange. These
papers will then be examined and
graded by the undersigned committee
and scholarships will be awarded in
order of grade. These scholarships are
\$50 each.

National Grange to Meet in Spokane.
Already delegates from the east and
others not delegates are looking for-
ward to the next national grange meet-
ing in the state of Washington. That
it will be one of the greatest meetings
ever held may well be anticipated.
Several years ago the national body
met in California, at which time the
state legislature appropriated \$10,000
to entertain the visitors and show them
the state.
It is expected that exceptionally fa-
vorable railroad rates will be made to
Spokane, with liberal extension and
stopover privileges, so that not only
will a large number of grange mem-
bers be induced to take the trip, but
many other people as well because of
the advantages offered for a sight-
seeing trip to the Pacific coast.

mary nominating election in April

May Term—Cost of Election Last

Yet all Paid by County.

The May term of the County Court
was largely taken up by correcting
wrongful assessments of taxpayers,
the official minutes of the court show-
ing after item appears to this
effect: Wrongful assessment of
John Doe. It appearing to the court
by the affidavit of John Doe that he
has been wrongfully assessed for the
year 1911 for the sum of \$10 that
the sheriff under the provisions of the
statute has remitted the same from
the total amount of his taxes. It is
ordered that the county clerk credit
the sheriff on the 1911 tax roll with
said \$10.
The total amount of these errone-
ous assessments is shown by the
records of the May term to be more
than \$1300. The following amounts
of overpayment have been remitted
to taxpayers on the west side: De-
schutes Banking & Trust Co., \$316.22;
J. M. Lawrence, \$121.85; A. D.
Lewis, \$11; J. H. Bean, \$42.50; J. N.
Hogter and W. H. Staats, \$119.62;
Oregon Trunk Railway, \$242.55.
Cost of Election in April.
The cost to the county of the pri-
mary nominating election in April
was no small sum. There are no

figures available showing the total
amount, but the County Court has
already allowed bills amounting to
more than \$500. This is but a part
of the total sum, as none of the
election judges and clerks are in-
cluded in the list of persons paid for
election services.

Permitted to Blast in the River.
The County Court has given per-
mission to The Bend Co. to use ex-
plosives in removing certain rocks
from the Deschutes river, it being
shown the court that this is neces-
sary. The permit expires January
1, 1913, unless otherwise revoked.

Some folks can't see how it pays to
keep cows well groomed; looks to them
like a sheer waste of time. But the
fact is a cow that is carefully groomed
is healthier than one that is left all
dust covered and rough, and she eats
more and digests her food better, all
of which points to better returns from
the milk.

The farmer who this year intends
to raise sweet corn for a nearby fac-
tory can count on from \$5 to \$6 per
ton for the green ears and on from
seven to eight tons per acre. In fig-
uring the income he should also take
account of the value of the green
stalks, which may be fed fresh or con-
verted into silage.

In spite of the verdict of the jury
which heard the case brought by the
government against the Chicago pack-
ers, there will still persist in the minds
of most men who have been engaged
in raising stock during recent years
that the beef barons have manipulated
the market to their advantage, and that
in a most brazen manner.

FRATERNAL MEN, ATTENTION!

Apalling Fire Loss

The loss by fire in America is appal-
ling. Government reports show
that in 1907 the recorded loss includ-
ing the cost of fire protection and
insurance was over

\$450,000,000 DOLLARS

This enormous tax must be paid by all the people whether
taxpayers or not. The annual fire loss exceeded the total value of
gold, silver, copper and petroleum production in the U. S. for
that year, and it was not an exceptional year for fires either. The
first three months this year shows a startling increase. WHO
PAYS THIS ENORMOUS LOSS?
