

# The Bend Park Company

**H**AVE been actively engaged in buying and selling property in BEND for the last five months, during which period they have sold upwards of 1100 lots. They are the largest owners of close-in business and residence property in the city. They have been the means of bringing many settlers to BEND and Central Oregon, and believe, as the Great Northern expresses it in their Oregon booklet, "that Bend will be the center of a great farming community, and will itself become a great manufacturing center because of the enormous waterpower in the Deschutes River." They thoroughly believe in the town and in the great future which lies before it.

They have just issued a very attractive illustrated folder on BEND, which they will mail upon request.

They still have a large number of highly desirable lots, at prices ranging from \$150 to \$300, which they will sell on the basis of \$10 down and \$10 per month per lot. Upon receipt of a remittance they will pick out the best unsold lot they have and send the contract for the same.

Those interested in the great future of BEND and Central Oregon can address any of the following offices.

### PROGRAM GIVEN BY SCHOOL GOOD

#### BIG CROWD ATTENDS EXERCISES

Dr. White's Address Excellent, and Class Oration is Delivered in Pleading Manner—Winners of Prizes Announced by Prof. Shouse.

The High School commencement exercises held at the Baptist church last Thursday evening were very interesting. The address of Dr. Calvin S. White was excellent. In a simple yet eloquent and forceful manner, he told of the necessity of efficiency in attaining success, in whatever field of endeavor.

There was a large attendance of persons interested in school work, the church being too small to accommodate all, although chairs were placed in the aisles. The colors of the class and flowers decorated the interior. The five graduates were seated on the platform, parents and teachers having reserved places on the front seats.

The class oration, delivered by Miss Emily Schroeder, was well received. It showed thoughtful preparation, and the delivery was splendid. Her subject was "The Educational Possibilities of Imprisonment."

#### Good Musical Numbers.

The musical part of the program was very entertaining. Miss Ruth Caldwell played the entrance march; Miss Black sang a solo; Miss Margaret West and Fred Lucas showed the musical abilities of the graduating class in duet; Miss Eva Graves played with admirable skill a piano solo, and Charles H. Hunter and Miss Iva West played on the trombone and violin, respectively, accompaniments to the various numbers of the evening.

In presenting diplomas to the graduates, Chairman H. J. Overturf of the school board congratulated the young people on having completed this part of their educational course. Margaret West, Emily Schroeder, Fred Lucas, John Sather and Laurence Smith composed the

#### Prizes are Awarded.

Supt. Shouse announced the winners of prizes for scholarship in the second to eighth grades, inclusive. Last fall the First National Bank offered \$25 in prizes to be distributed among the grades and the school teachers supplemented this amount with \$10 which they cleared from an entertainment, making a total of \$35. It was decided to award \$5 to the student making the best record in each of the grades except the first. A condition of the award is that the \$5 is to be spent for some article for the school which shall have inscribed thereon the name of the winner of the prize. The seven articles will be selected and bought next fall and placed in the different school rooms.

The following are the winners as announced by Mr. Shouse: Minnie Linster, second grade; Beryl Wing, third; Isaac Bedell, fourth; Virginia Averill, fifth; Nina Spilling, sixth; John True, seventh; Susie Kelley, eighth.

## FIVE OUTFITS TAKE FREIGHT

### WAGONS HAULING FROM HERE TO BURNS

Two Wells Needed Along the Route to Furnish Water for Stock. County Could Dig One at Little Cost, Says Mr. Hankins.

Five freighting outfits, drawn by 47 horses and carrying 59,000 pounds of freight, left Monday for Burns. This is the second big outfit to come here for goods consigned to Burns merchants.

The freighters, James and Ned Pierce, W. M. Parks, James Keaton and B. F. Hankins, expect to make the 140 miles in ten days. They were six days on the road coming over.

Included in the shipment was 9000 pounds of cement sent out by the Overturf-Davis-Miller Co.

#### Need Two Wells on Road.

Mr. Hankins said the road between here and Burns is all right. "All that is needed to make freighting by team from here," he said, "is two or three wells along the route. There are two stretches of 32 and 28 miles where we cannot get water, and this is killing on the horses. It would be an easy matter to get a well at each of the two places—Glass Butte and the gap—where water is needed. The county road force, with team and scraper, could scoop out a hole and wall it up in a short time. Harney county will dig one of the wells, and Crook county ought to dig the other. From here to Burns we can pull from 1000 to 1800 pounds more with an eight-horse outfit than we can over the old route by which Burns has been getting its freight. But we can't do it without water for our stock.

#### Spend Considerable Money Here

"It means quite a little for us to come here for freight. For grain alone this trip, we are spending about \$55 here, besides what we pay for board, lodging, etc."

Mr. Hanks has been in the freighting business for eight years, he said.

### NEW ROAD TO FISHTRAPS

Tholstrup Closes Old Route by Way of Sawhill Homestead.

News of importance to Bend fishermen is that the road to the Fishtraps or Pringle Falls, has been changed. Instead of turning off the La Pine road just beyond Allen's, on the new road that led to Sawhill's homestead, it is now necessary to keep south on the main road 1½ miles from Allen's ranch, and then turn off to the right on a new road made by I. T. Tholstrup. The distance is just the same and the new road is as good as the old.

The route was changed because the old road cut across Mr. Tholstrup's homestead, and has been fenced.
