PINK, BLACK AND  
BROWN COLORS

Many Perch Being Taken Out of  
Quarry West of River—Use Not  
Confined to Local Construction  
Work—May Ship Much.

Just west of the river and north of the sawmill of The Bend Company, the Bend Stone Company is engaged in quarrying pink, brown and black stone for the construction of buildings here and in other towns. From this quarry, which is located on the land of The Bend Company, was taken the stone for the Bend and Redmond depots, the Boyd building, the front of the Bean and Marley-Simpson buildings here and of the Irvin building in Redmond.

The quarry is only about a mile from the center of town, with an easy grade for hauling. There is a solid front or ledge of the rock 25 feet long, and the quantity is unlimited. The stone is being taken out by W. A. Beaver and sons Ray and Troy and W. A. Bates, who have leased it from the owners. They already have quarried ready to deliver some 500 perch.

**Makes Handsome Buildings.**  
This stone is a durable and cheap material and makes a handsome building. Mr. Beaver says it is absolutely fireproof and absorbs but little water. It does not hold frost as has been erroneously believed by some people, he declares.

The stone is being used not only here but elsewhere. It will doubtless become a big item of export from Bend. The quarrying company has recently been asked to quote prices on 50 carloads to be shipped to Portland.

Yesterday A. O. Hunter sent some carefully cut samples of the various kinds of local stone to be examined by experts in Portland.

"The men who are doing the big building down there," said Mr. Hunter, "tell me that Oregon has thus far produced no satisfactory stone. Most of what they use is

Imported from Washington and the East. If the Bend stone proves satisfactory, as seems probable, there will be the biggest kind of a field for its use."
