LETTER OF THANKS.

We wish in this manner to express our heartfelt thanks for the kindly expressed sympathy of friends in the loss of our home and all our personal belongings by fire recently. We wish especially to thank Gentlemen A. M. Lara and L. B. Miser, both of whom came to our relief while the fire was still burning and kindly informed us that anything they had in their stores was at our disposal, and not to hesitate to call on them for anything we might need. Mr. Lara even offered us the use of a large tent to live in until we could do better. We wish to thank also Mr. Yoder for his timely assistance. He came and worked two days helping us put our barn into condition to live in and would not accept pay for it. W. J. McGillivray is also due our most sincere thanks for giving us the privilege of living in his house for

The Man Behind the Saw and Ax is the man who gets the wood, and CARTER is THE MAN when you want wood that will make the pot boil. And all it costs you is— \$4.00 A CORD FOR BLOCK OR LIMB WOOD. In town every day. F. M. CARTER THE WOOD MAN

Cost of Brick vs. Cost of Frame Some people think that "Brick is too expensive." This is a great mistake. The price of lumber has advanced until a house can be built with 8 inch solid brick walls for only a slight extra cost over frame. Not over 6 per cent, to 8 per cent, and in many cases at the same price as frame. The difference is soon wasted by painting and excessive repairs and cost of heating on a frame house. Also, the cost of insurance is greatly lowered. In a short time a brick house has cost less than wood. We have the figures and can prove it. However much the relative cost of Brick and Wood may vary in different localities, the first cost and maintenance of a wooden house soon exceeds the first cost and maintenance of a Brick House. When You Build Use Brick BEND BRICK & LUMBER CO.
