

BULLETIN WILL HAVE NEW HOME

BRICK BUILDING TO START AT ONCE

Putnam Buys Bank Corner, Where Paper Will Have Largest and Most Complete Plant in Oregon East of Cascades.

Work upon a new home for The Bulletin will commence next week, and another modern brick building will be added to Bend's growing list.

The erection of the new plant follows the purchase by a company headed by G. P. Putnam, of the First National Bank property at the corner of Wall and Ohio streets.

The Bulletin building will be of brick, with dimensions of 36 by 50 feet. A roomy office will face Ohio street, with 336 square feet of space.

One addition which The Bulletin expects to install shortly is a folding machine, which will fold the large editions of the paper mechanically.

The linotype typesetting machine will be operated behind a window at the front of the shop. With its new quarters, its two job presses, large four-page cylinder press, modern cutter, stapler and simple type equipment.

The old log stable that still stands between the A. M. Lara residence and the river was the first home of The Bulletin, when it was founded in 1903.

BIG FIRE AT REDMOND

Vincent Barn Burned Tuesday, With Ten Horses.

REDMOND, July 3.—Fire that was discovered about 3 o'clock Tuesday morning totally destroyed the old Carl Woods livery barn here, now owned by Vincent. Ten horses perished. The loss is estimated at from \$16,000 to \$15,000, with partial insurance.

CLYDE M'KAY FIRE WARDEN.

Clyde McKay of Bend has been appointed state fire warden for Crook county, his territory including all the timber south of Bend.

WILL CLOSE EARLIER.

Beginning next Sunday, the local telephone office will close at 8 p. m. instead of 9. There will be no change in the week-day hours.

OPEN ONLY HALF HOUR.

Postmaster Minor announces that beginning July 7, the Sunday hours at the postoffice will be from 10 to 10:30 a. m.

WORK ALL DONE HERE.

Every line of type in this paper was set in The Bulletin's shop, and all the press work for the 7000 edition was done here.

CENSUS SHOWS 1760 PEOPLE LIVE HERE NOW

Careful Count Just Made Records Great Increase in Town's Population—1816 in City Limits.

According to a carefully made and accurate census that has been taken under the auspices of the Bend Commercial Club during the last ten days, the present population of Bend is 1760.

That there actually are more people in this territory which properly is regarded as Bend is undoubted, for careful as the enumerators were, they could not get the names of every person. It is conservative to reckon that at least 50 bona fide residents were not included in the count.

The population within the official boundaries of the city is 1316, according to the figures of this census. This territory, of course, does not nearly include all of the actual "Bend" residence districts, or even all the area where sidewalks are laid connecting directly with the center of town.

Below is given the report of the enumerators, a document which was officially sworn to, for the sake of making it a permanent record.

Table with 2 columns: Location and Population. Includes entries for Original townsite, Lytle and Riverside, Park Addition, Deschutes Addition, etc.

Total 1760. P. W. BROWN, A. M. PERRY, J. C. RHODES, L. D. WIEST, JOHN STEIDL, JAS. RYAN.

CITY EXPENDITURES ARE HEAVY

Bend Generous in City Upkeep and in Improvement Work.

What the city of Bend spends in the conduct of municipal business gives an excellent idea of the progressiveness of the town and the magnitude of the expenditures.

In the six months since January 1, 1912, the city has spent \$3486.02. Of this amount \$30 went for elections, \$30 toward the support of the library, \$789 for water and light, \$859 in street work, \$210 in salaries, \$1013.50 for police, \$194.40 for building and \$359.08 for miscellaneous expenses.

The record of the past six months is not unusual. In fact, in the same period last year there was a greater expenditure. The balance in the city treasury on June 20 was \$555.17. More than \$3500 is expected from license fees, due this month.

BEND LEADS WITH WOOL.

On June 21, 111,000 pounds of wool were disposed of at the sale at Madras, and on Saturday, at Metolius, nearly 200,000 pounds, the price ranging from 15 to 18 cents. Already more than 200,000 pounds has come to the Bend warehouse, some of which already has been sold and shipped.

NORTHWEST TOWNSITE BUYS.

The Northwest Townsite Company has added to its Bend holdings by the purchase of 70 acres on the west side of the river, the last 30 acres being bought from the Bend Company last week.

FIRST BRICK FOR BULLETIN'S NEW BUILDING DELIVERED TODAY

The Bulletin's First Home, in 1903.

DOUBLE SHIFT AT LUMBER MILL

MANY CARLOADS EAST THIS SUMMER

Electric Lights Being Installed at Plant of Bend Company Preparatory to Placing 30 More Men at Work There Shortly.

An announcement of considerable immediate importance to Bend is due any day now, according to J. P. Keyes, general manager of The Bend Company. It is that the company's lumber mill will run double shift.

Just now we cannot say positively when a night shift will be put on," said Mr. Keyes. "But I have every reason to believe that very soon—probably within a few weeks—we shall decide to take this step."

Yesterday work was commenced on erecting electric wires from the power station to The Bend Company's mill, so that the plant may be lit during the night by electricity. It is expected that just as soon as the lighting system is installed, the operation of the mill for two shifts will commence.

The reason for the enlargement is that the lumber market for the local product in the Mississippi valley and farther east is exceptionally good. The Bend Company expects to turn out for shipment eastward about 90 cars a month during the summer.

The lumber mill of The Bend Company is now cutting about 35,000 feet a day. This amount would be practically doubled by putting on a double shift.

LAWRENCE APPOINTED CLERK

Pointdexter is Disqualified—Mrs. Hudson Resigns.

At a meeting of the school board Thursday night, Chairman Overturf read a statement from County Clerk Brown showing that Ralph Pointdexter's name had not appeared on the last tax list, thus making him ineligible for the clerkship of the board.

Mrs. C. S. Hudson, who was elected a member of the board at the same time, resigned, declaring that she had found herself also ineligible, her name not having been on the last tax roll, and that as this action was being taken regarding Pointdexter she did not feel it fair or lawful that she be identified with the body which declared against him.

HERE ON VISIT FOR SUMMER

Mrs. A. H. Brown of Newton, Iowa, arrived last week for an all-summer visit to her daughter, Mrs. J. D. Davidson, and her son, C. D. Brown. The recent death of Mrs. Brown's companion left her alone in her home, and she came here for the pleasure of the company of her kin and for the climatic change.

BOND ISSUE UP BEFORE VOTERS

JULY TWENTIETH DATE FOR ELECTION

Expected Passage of \$65,000 Bond Issue Insures Bend Splendid Sewer System, and Means Big Labor Expenditure During Year.

At the regular council meeting on Tuesday night, it was decided to call a special election to submit to the voters the proposition of bonding the city for \$65,000 to pay for the installation of the sewer system, plans for which have been progressing for the past three months.

The election will be on Saturday, July 20. The cost of the sewer system, which includes only that part of the entire system required for the business districts of the town, will be in the neighborhood of 77,000, plus something for incidentals.

Should the voters favor the bond issue, which appears very probable, it would probably be several months until the bonds would be sold, and immediately thereafter construction would begin. This means that during practically a year more than \$25,000 would be spent in labor in the town, and that by next summer, if all goes well, Bend will have both the only sewer system in Central Oregon and also the best equipment in this direction, proportionately to size, of any town in the Northwest.

A full description of the proposed system, and the methods of securing it, will be placed before the voters next week.

BEND LOSES GAME TO COUNTY AGGREGATION

Tetherow Pitches Fine Game For Visitors, Fanning 16—Errors by Locals Prove to Be Costly.

Playing a Madras team plus Tetherow and Prineville talent, Bend was defeated Sunday in baseball by a score of 3 to 6. Tetherow was in the box for the visitors, and only one clean hit was obtained off him, this being a two-bagger by Will Spencer, shortstop. Brownlow got a scratch infield single. Sixteen Bend batters fanned. Immele struck out ten and allowed eight hits.

All of the visitors' runs came as the result of errors by N. Springer in left field and McReynolds on third. The following men played for the locals: Brownlow, rf; McReynolds, 3b; Carmody, 2b; Spencer, ss; Chet Springer, 1b, cf; Van Mater, c; N. Springer, lf; Boszell, cf; Finis, 1b; Immele, p.

Owing to lack of space, the box score is omitted, the summary being: R H E Madras 0 0 0 1 2 0 0 0 0 3 8 1 Bend 0 0 0 0 0 0 0 0 0 0 2 3 Batteries: Tetherow and Brewster; Immele and Van Mater.

Two base hits—Spencer, Ashley. Struck out—By Tetherow 16, by Immele 10. Bases on balls—OR Tetherow 1, off Immele 3. Wild pitches—Tetherow 1, Immele 3. Hit by pitched ball—Tetherow, Jackson, C. Springer. Stolen bases—C. Springer, Brewster. Sacrifice fly—Jackson. Umpire—Dr. R. D. Ketchum.

POSTAGE THREE CENTS. This issue of The Bulletin weighs more than half a pound. The postage on each copy is 3 cents.

SEATTLE MEN PAY \$75,000 FOR 700 BEND LOTS

Bend Park Company Acquires Riverside and Lytle, Buying Out Steidl, Hudson and Dr. Coe.

One of the largest realty transfers that has occurred in Bend for many months was consummated the first of the week, when the Bend Park Company of Seattle acquired all the holdings of the Lytle Townsite Company, including Lytle and Riverside, which immediately adjoin Bend on the north.

The deal is a cash one, involving a straight transfer, say both contracting parties. Although the price is not mentioned, it is understood that the consideration is in the neighborhood of \$75,000. Some 700 lots are included in the transfer.

W. D. Cheney of Seattle is at the head of the Bend Park Company, which already has extensive holdings in Bend. The owners of the property sold are John Steidl, C. S. Hudson and Dr. U. C. Coe. These men state that they will devote the profits of the transaction to making permanent developments on some of the business property they own in the town.

FINED FOR GAMBLING.

On a charge of gambling, preferred by Jay Reeder, William Taylor and George Worden Tuesday afternoon were fined \$25 each by Mayor Putnam, acting recorder, in the absence of H. C. Ellis. Both pleaded guilty to participating in a "crap" game.

DEVELOPMENT NUMBER INDEX.

Section 1. Sewer bond election July 20. Local payroll \$49,000. Bend's population 1760. Much lumber to go East this summer. Bend Park Co. buys Riverside and Lytle. Bulletin to have new quarters. Big lumber mills at Bend. Many recent realty transfers. New homestead law. North canal and dam work rapid. Bend Hospital doing good. Five church denominations here. Forestry headquarters at Bend. Dairy ranch makes fine showing. Hog raising brings rancher big sum. Town has good fire department.

Section 2. Brick and stone buildings cost \$80,000. Many new frame business houses. Five miles of sidewalks. Water system of town is first class. Bend to be big city, says W. D. Cheney. Brick plant here is kept busy. Plenty of stone for building purposes. Postoffice growth shows prosperity. Town has fine electric system. First wool sale here on July 8. History of the incorporated city Deschutes river power enormous, says state engineer. Bend has good band. Six fraternal lodges here strong. Library big asset of the town. Only ice plant in interior at Bend. Creamery gives dairying impetus.

Section 3. History of Central Oregon railways. Railroad's coming to Bend celebrated October 5, 1911. Bend distributing point of interior. Passenger traffic heavy. Stone depot to be enlarged. Veterans have association. Agricultural opportunities many. Central Oregon towns thrive. Plans made for city sewer system.

Section 4. County's natural resources varied. Irrigated and dry farming and stock raising. Laidlaw district attractive. Central Oregon Irrigation Company's segregation. District northeast of Bend develops. Powell Butte section rich. Settlers have good road to Bend. Crop outlook is splendid. Two demonstration farms in county. Columbia Southern segregation. "Swalley ditch" project. Fremont and Fort Rock districts. Auto excursions many. Free lands for homeseekers. Boy Scouts strong in Bend. La Pine and the upper Deschutes valley. Arnold irrigation system co-operative.

Section 5. Bend a city of beautiful homes. Scenic points nearby numerous. Flower show held annually. Editorial. Bulletin's plant and force. History told by newspaper clippings. Sidelights on Bend's growth. Ice caves are nature's wonders. Central Oregon climate ideal. Paradise for sportsmen. Town's school facilities excellent.

JUNE PAYROLL NEARLY \$50,000

FIGURES SURPRISE EVEN OPTIMISTS

Permanent Prosperity Indicated by Conservative Data Gathered at a Comparatively Inactive Time of the Year Locally.

While most people familiar with affairs in Bend today know in a hazy way that the town has a surprisingly large payroll—the largest in the interior—very few of even the most ardent Bend boosters realize the magnitude of the amount spent here for labor each month. For June it reached at least \$48,000. Not less than \$33,000 of this was paid out directly at Bend. More than \$29,000 can be considered as a minimum permanent payroll, less than which has never been paid out monthly here for at least two years, and less than which it is practically impossible ever will be paid out in the future.

The figures are taken at a time when there is no particular "boom." With the exception of the North Canal construction work, there is no extraordinary amount of labor in use in the country. The payroll of the local mills, the brick yard, etc., will increase from now on, if anything. For instance, should The Bend Company run two shifts, as is probable, an additional \$5000 would result. Also, local construction work is not particularly rushing; there is a substantial building development, but no real "building boom"—in the past there have been more carpenters and masons employed, and there will be many more in the future. So it is seen that the time is opportune for the compilation of a fair and conservative estimate.

The Payroll Figures.

Below is given the monthly payroll as reported from the offices of the various organizations: U. S. Forestry Service \$ 1200.00 Bend Brick & Lumber Co. 2000.00 The Bend Company 7000.00 Overturf-Davis-Miller Co. 2200.00 The Railroads 2391.00 Cent. Ore. Irrigation Co. 10000.00 "North Canal Dam" 17000.00 Local construction 2500.00 Minor local payroll 2900.00 Total \$48191.00 Local construction includes the average payroll for the last month among contractors and builders, reckoning only 25 mechanics regularly employed, which is very conservative. During July this number will average 50 or more. Minor local payrolls include those at the flour mill, machine shops, ice plant, creamery, printing plant, etc. In addition to these many thousands of dollars could be included in other labor payrolls, such as livery stables, clerks, police, etc., not to mention the large amounts that are spent during the summer for farm labor, road improvement, auto-line labor, etc.

COMMERCIAL CLUB ACTIVE

Organization Has Accomplished Much For Town's Upbuilding.

The Bend Commercial Club, with a large representative membership, has accomplished much in the way of upbuilding the town. It has a paid manager, who devotes his entire time to giving reliable information to inquirers regarding the town and surrounding country.

The club's officers are: E. M. Lara, president; H. W. Skuse, secretary; R. B. Gould, treasurer; P. W. Brown, manager.

MURPHY BUILDS RESIDENCE.

Tom Murphy is having a four-room house built on lot 12, block 15, in Park addition. It will be occupied by H. P. Palmer and family. Mr. Palmer is employed by the Bend Hardware Company.

HIT BY STRAY BULLET.

While fishing from the bridge at The Bend Co. mill Sunday, Mrs. Tansy, who lives in Kenwood, was hit on the right hand by a stray rifle bullet. Who had the gun is not known. The wound is not serious.

WANT EXHIBITS FOR POTLATCH.

If there is anyone having fine specimens of fern or garden produce they would like to exhibit at the Golden Potlatch in Seattle, they are requested to leave same at the Bend Commercial Club or Bend Park Co.'s office before July 10.
