

BILL HANLEY

## Bill Hanley's Lands to Be Cut Up Into Small Farms

**I**N THE EARLY DAYS Bill Hanley started from the summit of the Cascade Mountains with nothing but a cayuse, a cow and a determination to find a land in which to build a home and a fortune. He traveled until he came to the **HARNEY VALLEY** in **CENTRAL OREGON** and there he stopped and stayed. How he stuck to it and became the owner of thousands of head of cattle and thousands of acres of land is too well known to need repeating.

The same keen judgment which Bill Hanley used in selecting the Harney Valley was employed in making his selections of lands in that valley so that his ranches now comprise the very choicest acreage in that entire country.

These ranches, perhaps the largest under one ownership in the United States, are now being classified and will soon be ready to place on the market.

**EVERY POSSIBLE INDUCEMENT AND HELP WILL BE GIVEN TO WORTHY SETTLERS.** Among other plans which Mr. Hanley has in mind is that payments will be extended over a period of ten (10) years and, what is very unusual in this western country, only four (4) per cent interest will be charged on deferred payments.

**Agricultural Demonstration and Experimental Work will be encouraged in every possible way.**

If you really want to build up a home and a competence for yourself and family and are willing to work hard with that end in view, do not hesitate because you do not feel that you have enough money to start. Just write us and tell us frankly how you are situated, and if there is anything that can be done toward helping you to become a prosperous and contented citizen of Oregon, you can rest assured that we will do it.

WRITE TO  
**MUTHERSHEAD & DONEGAN**  
Burns, Oregon, or  
**J. E. SAWHILL, Bend, Oregon.**
