

We Are Reclaiming 227,383 Acres of Fertile GOVERNMENT LAND

Under the Carey Act, of which about 80,000 have been reclaimed and about 65,000 acres have been filed upon by settlers. We have built over 400 miles of canals and laterals, diverting water from the Deschutes River.

We are now constructing one of the largest canals in the United States, called the "North Canal and Dam," in the Deschutes River, which will divert 1000 cubic feet of water per second of time, to irrigate 70,000 new acres soon to be placed on the market.

The land is fertile and returns abundant crops; now \$40 per acre, will be raised soon to \$45 per acre. It is worth at least \$100 per acre. Write for booklet describing crops, how to get to the land, testimonials from successful settlers, etc.

Central Oregon Irrigation Company Deschutes, Oregon

Men's Furnishings

This Store has built up a reputation that others envy by handling the best lines of goods---"EVERYTHING TO WEAR FOR MEN WHO CARE." Once you buy here, you are sure to come back.
