

# THE BEND BULLETIN.

VOL. X.

BEND, OREGON, WEDNESDAY, JULY 31, 1912.

NO. 21

## WORK ON POWER PLANT STARTS

**COST OF NEW EQUIPMENT \$40,000**

As Soon As Working Drawings Are Completed, Erection of Permanent Structure Commences—Cost When Completed \$85,000.

The first actual work on the Bend Water Light & Power Company's new power house commenced Monday, with preliminary engineering surveying to secure final data for the drawing up of working maps for the new power station. The eminent engineering firm of Whistler & Stubbfield of Portland are in charge of the construction. As soon as working maps are completed, erection of the plant will commence. Already much material for it, including a carload of cement, is on hand. The new power station, as previously announced, will necessitate the ultimate expenditure of some \$85,000, for the completion of its several units. The immediate outlay, on that portion of the plant which will be built now, will be about \$40,000. The building that will house the initial units is to have dimensions of 100 by 45 feet. The complete building will be 100 by 45. It will stand 12 feet south of the present station, and will be of brick or concrete. The importance of this addition to Bend's already metropolitan electrical equipment is evidenced by the fact that the existing plant, which practically is to be discarded—it will be held as reserve station—cost some \$20,000. The new system, on which work has commenced, means that Bend will be equipped with enough "juice" to care for the needs of a town well up to the 10,000 population mark.

## SALE IS SUCCESSFUL

Ladies Realize More Than \$100 For Public Library.

The three-day sale by the ladies for the benefit of the public library proved to be very successful, something more than \$100 being realized for the public institution. The first floor of the Bean building was neatly arranged and decorated as the sales room, and Thursday, Friday and Saturday was visited by a large number of persons. The Japanese booth was very attractive and drew much comment from all who saw it.

## NEW MACHINE AT BANK.

By the addition to their equipment of the latest model Burroughs electric adding machine, the First National Bank has supplied itself with the best that is to be had in the line of these almost-human contrivances. The new machine adds, subtracts; it totals two columns simultaneously, and, where required, writes in the dates. Its cost was \$650.

## SELLING MACHINERY.

H. J. Eggleston is actively engaged in working up a distributing business from Bend, in connection with the sale of agricultural implements. Sunday he returned from a week's trip to the southeast, during which he sold several ranchers large orders of farming machinery, including a complete tractor outfit to A. E. Murphy, near Iron Mountain, some 140 miles from here. This sale and others he made in competition with Burns, says Mr. Eggleston, a considerable saving being effected for the purchaser through advantageous freight figures that apply here, and in delivery, as compared with the other routing. Yesterday Mr. Eggleston left on another selling junket, to be gone probably ten days.

## NO INTEREST SHOWN IN SCHOOL AFFAIRS

Only Three Patrons Attend Meeting and No Officers—Installation of New Courses Is Desired.

The meeting of school patrons that was scheduled for Monday evening, to talk over school matters and certain proposed improvements, proved a dismal failure, thanks to the entire lack of interest shown by those who should be concerned, and who, it is said, often have been loudest in their criticism of school affairs. The only people present were Principal Shouse, John H. Pittner and two others. No officer of the school board showed up. Mr. Shouse had particularly desired to talk over several matters, one of which was the possibility of installing a course in typewriting and stenography. He stated that he would be glad to give instruction in this line, although there was no regular school requirement for it, feeling that the benefit to pupils would more than offset the additional work that would be imposed upon him. The immediate problem seems to be the purchase or rental of a typewriter. It was pointed out that in at least one instance a graduate of the high school could have doubled her summer's salary—which is to aid in college expenses—had she been equipped with training in typewriting. It is also proposed to have some training in sewing and general cooking. Already certain ladies have volunteered assistance in the proposed course. Investigation last term developed the fact that about half of the girls in the high school could neither cook passably nor sew.

## HANDSOME NURSERY LEAFLET.

That Crook county is "on the map" in the line of fruit, and that it boasts a first class nursery, is indicated by the handsome booklet issued by the LaFollette Nursery Company of Prineville, advertising the various fruit trees and berry offerings of that institution, as well as containing some tabloid information concerning the local methods of fruit culture. The leaf is handsomely gotten up, is printed on heavy stock paper with a number of illustrations, and is the output of a shop in Seaside, Mo., the local nursery company, apparently, not favoring local printshops with this branch of its work.

The Knights of Pythias will have a social meeting tonight to which all knights and their ladies are invited.

## BULLETIN IN ITS NEW HOME

**FIRST BRICK BUSINESS BUILDING**

Permanent New Quarters Give Plant Greater Space and Modern Equipment in All Particulars—Fast Work by the Builders.

On Saturday, Sunday and Monday The Bulletin moved into its new home in the brick building erected on the back of the present First National Bank corner at Wall and Ohio streets, recently purchased by G. P. Putnam, and facing Ohio street. Construction of the new building was commenced just 20 days before the time its tenants moved in, which, it is believed, sets something of a record for Bend construction. The building is the first brick business structure finished and occupied in Bend. The brick work was done by Tanzy & Currie and the carpentering contract, which included all the work exclusive of brick and foundation construction, was in the hands of J. J. Cunningham. All the brick are Bend manufactured, being furnished by the Bend Brick & Lumber Co., about 27,000 being used. The dimensions of the building are 59 by 36 feet. The floor space gives the paper's shop about 39 per cent more space than it had formerly, and by a carefully planned arrangement of light and space gives the plant a home which should accommodate it comfortably for some years to come. The power for the operation of the three presses and linotype machine is furnished by two motors, while the electric lighting system includes 25 drops. The office is being completed today, this issue of the paper being gotten up chiefly on the top of printing cases in the shop.

## PECULIAR AUTO ACCIDENT

Bend People in Machine Have Difficulties Near Paisley. (Chewaucan Press).

A party consisting of two men and two women and a little babe met with an accident which might have proved a very serious one, this side of the William Currier ranch on Summer Lake, last Thursday. It seems they were as they supposed, up the hill, stopping the car. The man got out leaving the brake on, while the ladies remained in. By some means, the car began to back down hill and ran into a ditch which is about 10 to 12 feet deep. It turned turtle, but most fortunately the ladies escaped unharmed. It seems almost unbelievable that such a thing should happen and no one get hurt. They came on to Paisley to have the auto repaired as both axles were sprung and other difficulties had to be attended to.

Mr. and Mrs. Everson, Mr. and Mrs. Maicher of Bend were the members of the party. They camped here while their auto was repaired.

## PROGRAM OF BIG CONVENTION OUT

**THREE BUSY DAYS AT LAKEVIEW**

Secretary Gives Outline of What Will Be Doing at Sessions of Central Oregon Development Organization Next Month.

Tentative program of the convention of the Central Oregon Development League which will be held in Lakeview August 20-22 has been issued by Secretary Sawhill of Bend. It is as follows: All sessions will be held in the auditorium of the new Lakeview High School. Secretary's office and registration headquarters in rotunda of the building. Tuesday, August 20. Arrival and registration of delegates. Assignment to rooms. Band music on streets from 4 to 5 p. m. Music in convention hall, 5 p. m. Opening session of convention, at 8:30 p. m. Called to order by E. L. Britten, president Lakeview Commercial Club. Address of welcome, E. E. Rinehart, mayor of Lakeview. Response, William Hanley, president of Central Oregon Development League. Secretary's report of year's work, J. E. Sawhill of Bend. Address, "Work for the League to Do," W. Lair Thompson of Lakeview. Appointment of committees. Announcements. Wednesday, August 21. Farmers' Institute, 8 a. m. Presiding officer, W. J. Kerr, president Oregon Agricultural College. Address, Dr. James Withycombe, professor of animal husbandry and director of U. S. experiment station. Address, C. L. Smith, agriculturist, O.-W. R. & N. Co. Question box. Reports by farmers: I. S. Geer of Burns on dry farming, P. H. Deneer of Bend on irrigation. Remarks and general discussion. Visiting men's excursion to Drew's farm; lunch will be served, followed by toasts by railroad representatives and others; Frank P. Light of Lakeview, toastmaster. Open session of convention, 2 p. m. Subject, "Water," Presiding officer, J. W. Brewer of Redmond, vice president. Address, J. H. Lewis, state engineer. Discussion. Report by resolutions committee of resolutions concerning irrigation and water power legislation and practice. Open session of convention, 8 p. m. Subject, "Farm Demonstration and Extension of Agricultural Education," Presiding officers, J. N. Williamson of Prineville, honorary vice president. Address, W. J. Kerr. Address, L. R. Alderman, state superintendent of public instruction. Address, Emory Olmstead, vice president Portland Trust Co., chairman agricultural education committee of Oregon State Bankers' Association. Address, J. N. Teal of Portland. Re-

port by resolutions committee of resolutions recommending legislation for agricultural education extension.

Thursday August 22. Farmers' Institute, 8 a. m. Presiding officer, Dr. Withycombe. Address, Prof. H. D. Scudder, soil expert, O. A. C. Address, "The Bank and the Farmer," C. S. Hudson, cashier, First National Bank of Bend. Address, "Hogs," D. O. Lively, vice president Portland Union Stock Yards. Address, Prof. H. L. Kent, dairy expert, O. A. C. Question box. Reports by farmers. General discussion. Visiting business men's excursion to New Pine Creek, lunch will be served, followed by toasts from representatives of visiting commercial organizations. Open session of convention, 2 p. m. Presiding officer, C. C. Chapman, honorary vice president. Coman of Hill lines in Oregon, William McMurray of Harriman lines, H. V. McNamara of N. C. O. Ry., L. J. Bricker of Northern Pacific Ry., F. W. Graham of Great Northern Ry., and other representatives of railroad immigration bureaus and land products shows. Reports by resolutions committee of resolutions concerning publicity and exhibit work. Final session convention, 8 p. m. Subject, Good Roads. Presiding officer, Judge W. S. Worden, vice president. Address, "The Grange Good Roads Bills," C. A. Spence, master of the State Grange. Address, "The Harmony Good Roads Bills," C. T. Prall, president Oregon Association for Highway Improvement. Discussion. Report by resolutions committee of good roads resolutions. Report by resolutions committee of platform for ensuing year. Election of officers. Selection of next meeting place. Installation of officers and remarks. Farewell address, V. L. Snelling of Lakeview. Adjournment.

## NEW BRIDGE TO CROSS DESCHUTES AT BEND

Connects Lytle With Kenwood, and Will Probably be of Steel—Definite Action Next Court Term.

The installation of a county bridge across the Deschutes river at Bend has been practically decided upon by the county commissioners, although as yet no official action has been taken in the matter. The new bridge will span the river at a point almost due west of the George Bates house in Lytle, and will open a road that will connect with Ingleside avenue in Kenwood, and thence with the Tumalo road, via access to the bridge on the east side will be along a short stub, known as Hills avenue. This, probably, will have to be moved slightly northward, to align with Ingleside avenue, which already has been dedicated to the public. Arrangements have been made by the county commissioners for a right of way across the unplatted land that intervenes between the river's west bank and Kenwood, with its owners, the D. E. Hunter Realty Company. While it is nearly certain that the new bridge will be of steel, the matter of its material—wood or steel—remains, for the present, in abeyance. Final action doubtless will be taken at the next meeting of the County Court.

## THREE SPLENDID TALKS ARE MADE

**PATHFINDING PARTY ENTHUSIASTIC**

Chapman, Bates and Smith Give Excellent Account of Long Trip by Auto Through Central Oregon. Marked Development Seen.

Three as good addresses as have been heard in Bend in a long time were those delivered at the room of the Commercial Club last Wednesday evening by C. C. Chapman, Phil S. Bates and Prof. C. L. Smith. The room was well filled with interested listeners who enjoyed the talks of these members of the pathfinding party.

All of them touched upon various phases of the trip through the interior, those who had visited this territory before emphasizing the marked development of the country since the last visit. Mr. Chapman, among other interesting things, stated that the map makers who accompanied them would cover the entire interior and that Central Oregon would be properly represented in the tourist book of the Portland Automobile Association.

Mr. Bates, in his talk, referred to the publicity which this part of the state received on the recent tour of the East which he conducted. Miss Anne Markel, Bend's representative, in the party of women tourists, had a splendid story to tell the newspaper men and received a large share of publicity. Mr. Bates, as well as Mr. Chapman, spoke of roads in Central Oregon and of the building of a highway from Mexico to British Columbia. Klamath on the south and Wasco on the north are making efforts to get this road this side of the mountains, and the speaker urged that this road movement be joined in by Crook. He told of the many benefits that would be derived from being on it. Prof. Smith, whose talks to the farmers was one of the notable features of the trip, his colleagues said, was fast on the program and spoke very enthusiastically of Central Oregon agricultural possibilities. The trip took him into a territory which he had never visited and he said that everywhere he went he met farmers and settlers who are prospecting and intend to make this their home.

## SCHOOL ELECTION AUGUST 8.

On Thursday evening, August 8, there will be a meeting of the voters at the schoolhouse to elect a successor on the school board to Mrs. C. S. Hudson, who resigned recently when she discovered that she was not legally qualified to hold office.

## THIRD PAPER FOR REDMOND?

(Calver Tribune.) J. M. Crenshaw, who sold out his interest in the Staters Herald which he commenced publishing in April, will start a new paper in Redmond soon.

## After the Fire

The next morning after the fire how natural it is to hear the loser say, "And I had \$500 in currency in the bureau drawer." And the insurance policy don't cover such a loss! You can hide your money where thieves may not find it—but how about fire? For this reason alone, overlooking the many other advantages, you should keep your money in the bank. We call your attention to our fire and burglar proof vault and invite you to leave your money with us for safe keeping.

## The Deschutes Banking & Trust Company of Bend, Oregon

"Conservative Banking for Conservative People."

L. B. BAIRD, President F. O. MINOR, Secretary  
E. M. LARA, Cashier  
DIRECTORS:  
L. B. BAIRD, P. O. MINOR, E. M. LARA.

"We Say Nothing But Saw Wood"

In the Hardware business. Our rivals may be striving to make as big a success as we in this line, but we are going to keep right on giving high values for little money and pleasing our patrons with quality that will stand every kind of criticism. Tools, kitchen utensils, garden and farm implements of the best makes at popular prices.

Also Full Line of Builders' Supplies,  
Sash, Doors, Glass, etc.

**N. P. Smith**  
Wall Street

## The First National Bank OF BEND, BEND, OREGON

Dr. U. G. DOE, President S. A. BATHER, Vice President  
O. S. HUDSON, Cashier  
Capital fully paid \$25,000  
Stockholders' liability \$75,000  
Surplus \$6,500

## Your Vacation Assured

You must plan ahead if you are to take a vacation this summer. Else, when the time comes, you won't have the funds.

We invite you to start a Vacation Fund with this bank. You are at liberty to draw out your money whenever you need it.

It is high time you began to save for the vacation which is coming later in life—old age. A bank account added to from time to time will insure a happy vacation in later life when your work is over and you are ready to rest.

The sooner you begin, the quicker you'll be able to retire and the further away from helplessness. Small accounts will receive careful attention.
