

CORRESPONDENCE

WANTED

A good, live correspondent is wanted by The Bulletin at the following places: Prineville, Redmond, Sisters and Millican Valley, to send in news items and act as our agents. Liberal pay. Address, Bulletin, Bend, Oregon.

HAMPTON.

HAMPTON, July 23.—Messrs. Whitaker and Zierolf came in from Bend Wednesday with a load of supplies for the Hampton store.

A. S. Fugg made a business trip to Barnes yesterday.

Richard Krebs left here with his family, Thursday, and will spend a few months in Portland.

Hurr Black and W. T. Harrison are mowing hay for O. Drogsvold.

Fall rye is mostly harvested now, but much of the spring grain will not be ready for three weeks.

A special meeting of the development club was held at Louis Miller's last evening.

Some time ago it was mentioned in this correspondence that a lumber yard would be opened in the near future at Hampton store. Owing to lack of team service, Mr. Ammons of Maury mill has made other arrangements and will only haul as far as Fringle Flats, 12 miles north of Hampton valley.

Owing to the severe showers last Friday, the men harvesting at Barnes were unable to work Saturday and came home for the week end.

FORT ROCK

FORT ROCK, July 27.—F. A. Remington, postmaster and merchant of Lake, was in town Wednesday.

Mrs. Clyde Briggs has gone East where she will visit with friends and relatives in Kansas and Missouri.

Mrs. H. F. Swingle, who has been visiting in the Willamette valley the past month, arrived home the first of the week.

The cutting of hay and grain is on in full blast in this section.

Mr. and Mrs. Briggs of Ashland came in Wednesday by auto to visit with their son, Clyde Briggs. They came over the mountains from Ashland by way of Lakeview, making the trip of nearly 300 miles in two days.

Mrs. R. O. Reigel, postmistress at Arrow, was a business visitor here last Friday.

The 13-months-old baby of Mr. and Mrs. T. H. Brady came very near being killed the first of the week. Mr. Brady was leading one of the stage horses out to make place for a fresh one when the little fellow came out and got too close to the horses. One of them knocked him over and commenced to trample on him, bruising his face and one of his hips badly.

J. T. Rhoton was a business visitor in La Pine Monday.

E. T. Winans of Hood River is in this valley looking over the country with a view of locating. He is an old timer of Hood River and thinks this valley has a bright future.

F. M. Bosell of the Bend Milling & Warehouse Co. was a business visitor at this place recently.

Miss Blanche Graham, who has been visiting homefolks since the 4th

of July, left for Falls City Monday. Miss Estelle MacCauley, a stenographer for the O.-W. R. & N. Co., and her father, who have been visiting with the Crampsons, returned to Portland Sunday.

A. H. Carnes, one of the oldest drivers on this end of the stage line, resigned his position Wednesday and will take up ranch life on the homestead. Thomas H. Brady of this place will drive the stage in his place.

CRESCENT

CRESCENT, July 27.—A pleasant surprise party was given at the Hotel Crescent last Saturday evening in honor of Calvin Warner.

Mr. and Mrs. G. W. Anderson and Mrs. E. G. Rourke and two children returned from Odell Lake last Thursday. They had been camping and fishing there for about ten days.

F. M. Cleaves and Thomas Bracken spent Saturday afternoon and Sunday fishing in the vicinity of the Hoey ranch. Mr. Cleaves reports good fishing but poor weather.

Guy and D. L. Peterson of La Pine were Crescent visitors Monday.

Road Supervisor John Knotts reports the completion of new road from Crescent to the Summit stage station. The road has been cleared and leveled and will no doubt prove very popular with automobile parties.

Fred LaFollette, editor of the La Pine Inter-Mountain, entertained at Crescent Friday evening with a dancing party and luncheon. A number of people came from La Pine in the Peterson automobile. Dancing was enjoyed at the Keiser hall until 11 o'clock. Mr. Peterson then conveyed the party to the LaFollette bachelor home where a luncheon was served.

POWELL BUTTE

POWELL BUTTE, July 28.—The second crop of alfalfa is coming on wonderfully well these warm days. The second cutting promises to be heavier than the first was.

J. P. Bowman is hauling lumber to build a house with, on his homestead.

E. F. Archer is expecting about 10 head of dairy cattle from the Willamette valley about the middle of August. They will probably be Jerseys.

A thousand head of cattle will be brought from outside points to be wintered here. This, with the large number of dairy cows that ranchers are bringing in, will use about all the hay raised here.

A tremendously exciting ball game was played last Sunday near Powell Butte station, between the home team and the Alfalfa nine. The score was 20 to 4, favor of the home boys. The Powell Butte players are

Roy Elliott, pitcher; Earl Saunders, catcher; "Shorty" Foster, first base; Bert Reynolds, second; Jack Davis, third; Woolley, short; Ralph Davis, George Bayn and Fred Brown, outfielders. Earl Forrest acted as umpire.

FEATHERS AND EGGSHELLS.

A lady's nice enameled gold watch was found in the crop of a turkey dressed at the Cafe Boulevard, Tenth street and Second avenue, New York. The turkey was shipped from Vermont, but the watch may belong to some western belle, for it is whispered that many western turks are shipped to Vermont and then are retagged and shipped and sold in New York for bon ton blue-stocking New England stock.

An investigating committee declares food passes through as many as five hands before reaching the New York consumer and that 50 per cent of the city consumer's dollar goes to the middleman after the food reaches the city. The farmer and his "city kopeks" by this feeding method are between the devil and the deep sea.

When the mayor of Indianapolis put up seventy-five turkeys to lower the market price, just 400 buyers grabbed for them at once. The turkey crop has shrunk to 3,000,000 per year, with 85,000,000 to eat them. What a grand rush there will be for the last turkey!

One thousand skunk skins were bought from trappers in Wyoming county, Pa., by a fur dealer.

The Audubon society is awfully down on the house cat, but the fair dames never say a word against the pestiferous skunk that robs bird nests and henroosts. Missy even wears skunk furs (Alaska sables, and they are just too lovely for anything).

The crows killed off many partridges in Pennsylvania during the past severe winter. It's about time the crows get it in the neck. They catch thousands of chicks, rob the bird boxes of eggs and young; kill many game birds and destroy the corn. Let some society bells wear crow wings on her hat. That will start the slaughter. The other women will wear them, and presto, the nasty crow will be no more.

California is specially strong on breed clubs and certainly sets a good example to many fanciers in the eastern states. If you wish to boost your breed, about the only way to do so is to organize and then loose. This puts the variety before the public and of course makes sales. Yes, advertising pays in many ways.

That poultry is moving up in other countries is shown by the last Crystal Palace show, London. There were 12,500 entries and \$25,000 was awarded in prizes. The American breeds stood next to the Orpington, England's favorite, of which there were 618 caged.

Cracking glass for poultry grit is bad business. Glass is too sharp for crop and gizzard, often pierces both gets lodged in the mouth, and then glass is not good grit anyhow, for it soon wears smooth. Why feed such dangerous material when good granite-crystal grit is cheap?

Peruvian insect powder is made of a Japanese chrysanthemum and is very effective for lice and fleas in having see that it is dry, fresh and unadulterated with flour. When fresh it has a very bitter taste.

Pure Breds Versus Scrubs.
The pure bred animal is not one that will make good on poor feed and care. The scrub will beat the pure bred every time when it comes to "rustling" its own way. But the scrub will not and cannot make money for its owner. And right here is where the pure bred exceeds. He has capacity which the scrub has not. Give the pure bred animal good feed and care and he will make money and do it quickly. At least three crops of pure bred beef animals can be turned out ready for market to every two crops of scrubs of grades. Grades make money for their owners sometimes, but the amount and the quickness with which results are obtained are in direct proportion to the infusion of pure blood, which makes them grades and better than scrubs.

RECORD OF TRANSFERS
The Bend Co. to Paul E. Peterson, lot 10, blk 15, Center Add., Bend.

Free GOVERNMENT Lands

THERE are thousands of acres of Government lands in Central Oregon, still open to entry in 160 and 320 acre tracts and can be taken as Homestead or Desert Claim. The soil is very fertile and with sufficient rainfall to insure good crops. These lands lie in Beautiful Valleys, in sight of the big, Snow-Cap Mountains and along the right-of-way of the extension of two big Trunk Railroads that now have their terminus at Bend.

We have located hundreds of good farmers in these valleys, who are making a success and there is lots of room for you and the country needs you.

For full information and descriptive literature address

Oregon Land & Immigration Co.
O. C. Henkle and E. R. Post, Locators.

Boys' Aches

are various and sometimes serious. Small boys have a knack of eating what they shouldn't and that often means a prescription that the boy won't like. But you will get prescriptions for children put up all right here. The drugs and medicines are of the best quality and doctor's orders are scrupulously filled, with care and speed, and at reasonable prices.

Patterson Drug Company.

Vacations At The Sea Shore
Clatsop Beach, Pacific Ocean

Low round trip fares are in effect all summer. This beautiful beach stretches twenty-five miles south of the Columbia River. Seaside and Gearhart have first class hotels, cottages and camping places, surf bathing, fishing, mountain water, etc.
