A COMMUNICATION.

To the Editor of The Bulletin: Please permit a taxpayer to ask publicly a question about a public matter. How does it happen that our public school house is used for sectarian religious services? This is

not fair to the owners of other property that could be used for such meetings, nor is it fair to the general taxpayers. If the school house were opened to all churches, lodges and meetings, it would not be unfair, but of course that would be improper use of school property. Who permits this? Certainly the taxpayers have not been consulted, and is it not their property?
