

CORRESPONDENCE

WANTED

A good, live correspondent is wanted by The Bulletin at the following places: Prineville, Redmond, Sisters and Millican Valley, to send in news items and act as our agents. Liberal pay. Address, Bulletin, Bend, Oregon.

PINEHURST

PINEHURST, Aug. 19.—Crops in this vicinity are making a splendid yield. The hay crop consists chiefly of clover, alfalfa and rye, while wheat and oats are raised extensively for grain. Different varieties of clover were raised this season and some has yielded as high as two and one half tons to the acre the first crop. Alfalfa on the Jay Nichols place made two and one half tons to the acre the first cutting. Fred Wilson raised rye on a dry farm that produced on the average one ton to the acre. Wheat on the dry farm of A. McCallister will make near twenty bushels to the acre, while it is thought that the oats raised by G. M. Couch will run a good fifty bushels to the acre.

James Swisher who was injured in an automobile accident in Bend last week, is still suffering from the injury.

G. M. Couch recently purchased a new binder from G. W. Horner of Laidlaw.

A number of young men spent the entire day Sunday in trying to catch a horse belonging to Clifford Harrison.

G. M. Couch returned from a fishing trip on the Metolius.

A splendid rain fell here during Friday and Saturday which insures the farmers a good second crop of hay without irrigation.

POWELL BUTTE

POWELL BUTTE, Aug. 17.—W. J. Galbraith has cut his second crop of clover and it has made a very heavy yield, being of good height and very thick. It is the large red variety and Mr. Galbraith finds it one of the most profitable of farm crops.

Oscar Prickett has a fine field of cats coming on, part of it being grown on land that was only cleared this year.

The large potato crop being grown by George Hobbs is making a most promising outlook. The farmers here expect to combine and ship the enormous crop of potatoes being raised this year. By being graded they should bring top notch prices, as the quality of Powell Butte spuds is second to none.

J. P. Bowman is improving his homestead by building a very comfortable bungalow cottage. There will be five rooms, which will be plastered and finished up to date in every way. Mr. Bowman and family came here less than two years ago from North Yakima, Wash., and are making themselves a home on a 320-acre claim.

At the school meeting held recently for the purpose of choosing a teacher for the Butte Valley district Mrs. J. D. Davidson was elected for the ensuing year.

Ross Davis, who has been riding ditch here this season, will soon stop and it is expected that Walter Foster will take his place. The ranchers along Mr. Davis' ride are exceptionally well satisfied with his management of the water this summer.

Misses Della and Jessie Osborn have returned from a few weeks visit in the Willamette valley.

POWELL BUTTE, Aug. 18.—The orchard on Joe Elliotts homestead is a beautiful sight now, with the trees loaded with fruit until some of the limbs have to be propped. The plums are ripening now and the pears are beginning to drop. This orchard contains apple, pear, peach, plum, prune, and crabapple trees, all loaded with fruit.

Two threshing machines are busy in Powell Butte neighborhood, handling this year's crop. One is threshing on the D. A. Yates ranch, while C. H. Foster's machine is running on the Hendrichsen farm.

The sale of E. A. Bussett's ranch is reported to be satisfactorily closed. Mr. Bussett and family expect to spend the winter visiting home folks back east.

Jas. Moffitt and family are on an outing at Crane Prairie.

Mrs. Mary Brown and son, Fred, went to Portland last week.

ALFALFA

ALFALFA, Aug. 17.—H. L. Maloney has returned from Silver Lake where he went in search of his team, which got away while he was on a fishing trip up the Deschutes.

Billy Pyatt left recently for Land, Wash., to work in the harvest fields.

Alfalfa won in the ball game played Aug. 4 with Powell Butte by a score of 3 to 5. This makes two out of three games in favor of Alfalfa.

Mr. and Mrs. H. L. Maloney gave a dance on Saturday night, Aug. 10.

All report a fine time.

Andrew Warner has returned to Portland. Mrs. Warner will visit a few weeks longer.

Frank Roeborg has built a house on his homestead recently.

There has been quite a roundup of horses from the range lately. Over 50 have been taken up in the last few weeks.

ALFALFA, Aug. 20.—Born to Mr. and Mrs. Samuel Boyd, on Aug. 16, at the bend hospital, a fine nine pound girl.

Glen and Otha Maloney went to Bend Monday to work in the Overturf-Davis-Miller mill.

Mrs. Wallace Danberry is staying in Bend during the illness of her daughter, Mrs. Samuel Boyd.

Quite a number of Bend people

stopped in Alfalfa Sunday on their way to look over land lying east of here.

Samuel Janney Jr., made a business trip to Bend Monday.

Mrs. Mark Pyatt has been on the sick list for several days.

The Redmond creamery is to establish a cream route in this section beginning near the ice cave and passing through Alfalfa.

Bids are wanted for carrying the mail from Rural Route No. 1 to Alfalfa, three times a week, a distance of 7 1/2 miles. All bids must be in by Sept. 10, 1912.

Mr. Hans Hansen has taken a contract to clear a part of the old Chapman place.

Pyatt Brothers are clearing land for Samuel Janney.

CRESCENT

CRESCENT, Aug. 18.—E. G. Rourk and a number of friends returned Thursday from a hunting trip

in the hills.

W. W. Cryder, local forest supervisor, was called to North Yakima last Monday on account of an injury to his son. The boy was badly hurt by the explosion of a dynamite cap. The latest report is to the effect that he is on the road to recovery.

G. W. Anderson is working in La Pine.

Considerable rain has fallen in Crescent and vicinity during the last few days. Parties in the hills report as much as 8 inches of snow.

KNOCKS MAN SENSELESS

McCole Strikes Collins With Club at Depot Thursday Night.

When the train came in to the depot Thursday night, and Arthur Collins, a hotster man on the North Canal Dam works, stepped forward

to greet his wife, whom he expected, a man who proved to be Dennis McCole struck him on the head with a heavy club, felling him to the ground, unconscious. Then McCole made off, eluding several men who made an effort to detain him.

Collins was taken to Dr. Coe's office, and received treatment. He recovered consciousness shortly after the attack. He remained in the hospital for several days. McCole is a well known citizen, owning property near town, and has a reputation for orderliness. That the attack was premeditated is indicated by the fact that the club, which was evidently a portion of a fence rail, was carefully whittled for a hand hold. Collins makes the statement that he knows of no reason why he should have been struck. McCole vanished after the fracas. No arrest was made at the time, and it is understood no complaint has been entered.

THE COMING Hog Center

All indications point toward Bend as the center of a profitable and extensive hog raising section. The climatic conditions of this section are ideal. Shipping facilities make rapid transportation at low cost possible. Farmers will do well to look into the hog raising business as it is a paying one.

Getting the largest profit out of a pig, requires simply proper feeding to develop the greatest amount of weight in the shortest time, on the most economical feed.

FOR THIS PURPOSE, FEED UNION MEAT COMPANY'S DIGESTER TANKAGE

Union Meat Company's Digester Tankage develops bone and muscle in young pigs, and makes them grow. It prevents rheumatism, thumps and ricketts. It imparts such fit and finish to "show" swine and market hogs that it has won the title, "The feed that makes Prize Winners and Market Toppers."

Union Meat Company's Digester Tankage is the most economical feed obtainable. Experiments have shown that \$1 worth of Digester Tankage puts more weight on to a hog than \$1 worth of any other kind of food.

Digester Tankage is a concentrated Protein Meal. It is made from fresh, wholesome pieces of meat trimmed from beef. It is shipped in the form of a meal which makes it easily mixed in mash feeds. Shipped in convenient 100 pound sacks. Keeps indefinitely.

Digester Tankage has been tried and recommended and is now being used by best growers and authorities in the Northwest. It is becoming more popular every day. It will pay you to know more about it. Send at once for circular No. 49.
