

THE BEND BULLETIN.

VOL. X.

BEND, OREGON, WEDNESDAY, SEPTEMBER 11, 1912.

NO. 27.

HALF MILE OF NEW SIDEWALK

CITY COUNCIL ORDERS IT LAID

Athletic Field Will be Cut in
Two by Bond Street Walk.
Are Light to be Installed
in Center Addition.

Approximately 2500 feet, or nearly a half mile, of sidewalks was ordered by the City Council, at its adjourned meeting last night. The walks are mostly in Park and Deschutes additions. This was the chief item of business transacted.

That in Park will extend from E. A. Sather's residence through to the home of A. M. Pringle, giving the residents of that part of town a walk all the way down town, by way of Front street. The other stretch of walk will connect that along the east side of Bond street with what was laid last fall in Deschutes.

One unfortunate feature of this new walk will be that the athletic ground will be cut in two, but it is believed that the field can be moved westward, although much work will be required to get a good baseball diamond in shape.

Owners of the following lots will have to build the walks ordered last night: Lots 24 and 25, blk 13, Park; lots 1 to 10, inc., blk 19, Park; lots 1 to 5, blk 18, Bend; lots 1 to 7, inc., blk 25, Park; lot 1, blk 23, Deschutes; lots 1 and 7, blk 18, Deschutes; lots 7 to 12, inc., blk 17, Deschutes.

The sidewalk into Deschutes was petitioned for by residents of that part of town.

Light in Center Addition.

On petition of residents in Center Addition and Westoria, an arc light was ordered installed at the corner of Greenwood avenue and Eighth street.

Councilmen Allen, French, Lattin, Steidl and Wenandy were present, President Allen presiding in the absence of the mayor. The following bills were allowed and ordered paid:

C. D. Brown, salary.....	\$100.00
S. E. Roberts, salary.....	100.00
Bend Co., lib.....	19.90
Water and Light.....	167.10
Sprinkling, etc.....	132.75
H. C. Ellis, salary.....	30.00
Bend Hdw. Co. supplies.....	11.20
Commercial and Financial Chronicle of New York, publishing bond sale notice.....	13.50
C. P. Niswonger, sexton.....	7.50
P. Peterson, labor.....	21.00
Tom Murphy, labor.....	34.00

Chief of Police Roberts reported \$23 collected in fines and fees during August.

Council adjourned to September 24, when bids on the sewer bonds are to be opened.

TWO MORE FARMS SOLD.
The sale of Crook county farm land has been quite brisk for some time, a number of important deals

having been closed by local real estate men. This week the Oregon Land & Immigration Co. reports the sale of two 160-acre tracts. One was sold by F. May of Powell Butte to Peter Pauls of Beatrice, Neb. This tract consists of both irrigated and dry land. The other 160 was purchased by Augustus Hallberg, this being the Emerson land under the Swalley ditch.

TWENTY MORE ARE COMING

Portland People Taking up Farming
in Central Oregon in Earnest.

So well pleased were the Portland people of the Hebrew Agricultural Association who filed on government land in northeastern Lake county that a party of 20 more is coming. Those who last week took up claims have already arranged to begin improvements, having let the contract for the clearing of considerable land this fall. Some of them are experienced farmers. The following is a list of those who have filed: H. Ritter, Louis Setzer, H. Wargaff, S. Rosen, Robert Wargaff, Charles Wargaff, Mabel Sherman, I. J. Sherman, B. Schlefer, Jacob Margolis and Mr. Barler.

SHOULD NOT EXPORT GRAIN

College Expert Says Feed it to
Livestock.

PORTLAND, Sept. 7.—That Oregon is making a great mistake in exporting its grain instead of feeding it to livestock, is the belief of Dr. James Withycombe, director of the experiment station at the Oregon Agricultural College, expressed strongly in a recent address before the Portland Ad Club.

He pointed out the fact that there are ten million acres of dairy land in Oregon, and that two acres can support a cow. Thus five million cows, each worth a \$100 profit annually, or five hundred million dollars all together in profit each year to the state, could be fed on this land.

By feeding the grain instead of exporting it, Dr. Withycombe estimates that the farmer would get fifty cents more a bushel, or, on a crop of fifteen million bushels for the state, \$7,500,000. The export of \$101,000,000 worth of dairy produce, bacon and eggs from Denmark, which supports a population of 2,600,000, under trying climatic conditions, proves conclusively what can be done under right management. Oregon, with its fine climate and rich variety of soils, should be able to do even better.

PRINEVILLE FAIR OCT. 16 TO 19.

The dates for the fair at Prineville this year are October 16 to 19, and the management has arranged to make it the best yet held. There will be exhibits from all parts of the county as far as they can be obtained. School children and active teachers will receive complimentary tickets this year. Next week The Bulletin will give more details of the program.

BOY SCOUTS' NIGHT.

A special program has been arranged to be given at the Star Theatre tomorrow evening, the performance being a benefit for the Boy Scouts of Bend. In addition to the usual three reels, there will be several musical numbers. Among these will be a duet by Misses Arrie Black and Margaret Thompson and a violin solo.

SASH AND DOOR WORKS HERE

Construction Was Begun Saturday of Buildings,
in Riverside---Power Will be Obtained From
North Canal Dam---Starts About November 1

Everything for a house both inside and out in the line of finishing will be manufactured in Bend in the course of a few months. A sash and door factory is now under way, and the owners expect to have it running by November 1.

The promoters of the new industry, the first of its kind in Bend and Central Oregon, are J. J. Currie and H. Trumble of Seattle, who are experienced men in this line of work. They arrived in Bend Friday night and Saturday started to work on their buildings, the first of which is a camp house for tools and living quarters. This is practically completed already.

The location of the factory is on the railroad spur to the North Canal dam. Two lots having a frontage of about 250 feet on the track were donated by W. D. Cheney of the Bend Park company, and four other lots were secured by them on very liberal terms. The six are lots 4, 5, 6, 7, 8 and 9, block 25, Riverside, giving the factory men approximately an acre of ground.

Two buildings, with dimensions of 45 by 40 feet, will be erected along the spur. They will be of frame construction, but with stone foundation so that they can be rebuilt of stone later on.

The plant will be known probably as the Bend Sash and Door Works. It will turn out doors, sash, water

tanks and, later, boxes, it being the plan of the owners to begin making boxes during the winter. Local lumber will be used, and Messrs. Currie and Trumble believe that their output will compare very favorably with the fir-manufactured goods. They expect to sell most of their products locally at first, gradually building up a market outside and exporting.

A part carload of machinery has already come in for them, and the rest is ready to be shipped from Portland as soon as their building is ready for it to be installed.

Will Use Electric Power.

Power for operation of the machinery will be secured from the North Canal dam, only a few hundred feet away. The dam contractor expected to have this project completed by this date, but the work has not gone ahead fast enough for this and it will be November 1 at least before everything will be finished and electric power ready for delivery to consumers. Messrs. Currie and Trumble have secured very favorable terms on current. They will use 15 horsepower to start with.

The promoters are hard workers and having the means to carry on the industry they are starting here they will no doubt be very successful.

Mr. Currie's wife and son came in with him. Mr. Trumble is unmarried.

PROSPECTING IN MOUNTAINS.

A party of three men from Oakesdale, Wash., were piloted across the Cascades and back last week by Earl B. Houston, returning to Bend Sunday. They went by pack trail via Sparks lake, Soda springs and as far as Olalla mountain. It rained and snowed every day they were in the mountains. Mr. Houston said the men were looking for mineral prospects, but they may have been railway surveyors in disguise. Messrs. Roberts, McCoy and Holmes were the trio, and they returned home Monday.

SALES IN KENWOOD.

The Kenwood Promotion Company, owners of the town of Kenwood, reports that the sale of lots continues good. Among the recent purchasers are the following: E. R. Post, lot 3, blk 26; Edna Vinyard, lots 3 and 4, blk 12; Martha Rossom, lots 11 and 12, blk 12; Maurice P. Cashman, lot 1, blk 14; J. P. Arnold, lot 6, blk 25; A. A. Hanna, lots 1 and 2, blk 10; Fred Estes, lots 9 and 10, blk 12; Joe Innes, lots 1, 2, 7, and 8, blk 24; and lot 1, blk 25; W. M. Malone, lots 13 and 14, blk 6; Sadie Baker, lots 1 and 2, blk 12; Nina O. Buchanan, lots 4 and 5, blk 14.

DISPLAY OF NURSERY STOCK.

Guy Lafollette of the Lafollette Nursery Co. of Powell Butte is in town today on business. He has on exhibition in one of Lara's

windows several young apple trees, apples, shrubbery and photos of his nursery. The trees are grown without irrigation and are well rooted. See the nursery's ad elsewhere in this issue.

DICK VANDEVERT SELLS

(Prineville Review.)

Mrs. D. O. Vandever left with the children the first of the week for Eugene. She will be joined by her husband about Monday, and they will live permanently at that point. Dick sold the Powell Butte ranch today to G. M. Cornett. This is a ranch of 880 acres and while the consideration is not given out, it is reported to be a substantial sum. Dick says he walked into Prineville 27 years ago and has managed to accumulate a fortune to ride out on. He will be back later to drive some horses on the range over to Eugene, where they will be placed on the market.

ELECT THREE TRUSTEES.

The Presbyterian church of Bend is steadily progressing with a new building under way and the congregations rapidly increasing. The pastor expresses encouragement. At a regular congregational meeting at the close of the morning services last Sunday E. M. Lara, G. P. Putnam and Clyde McKay were chosen to fill vacancies on the board of trustees occasioned by the death of W. B. Sellers, the removal of L. B. Baird and the resignation of John H. Bittner, who, from other duties, finds it impossible to serve.

EASTERNERS BUY IN BEND.

The Bend Company has sold to L. H. Shipman, trustee, representing Eastern capitalists, 75 lots in Center Addition, the price being \$21,000. The following is the property: Lots 1 to 6, blk 9; lots 1, 2, 3, 4, 5, 6, 9, 10, 11, 12, blk 10; lots 1 to 12, inc., blk 11; lots 3 to 6, inc., blk 12; lots 3 to 14, blk 21; lots 4 to 15, inc., blk 22; lots 1 to 13, inc., blk 23; lots 3, 4, 5, 6, 7, 8, blk 24.

ENROLLMENT IS NOW 218

Pupils Continue to Enter the
Local School.

The enrollment of pupils in the Bend school is now 218, this being a gain of 26 during the past week. More furniture has been ordered to provide them all with desks.

In the primary grade Miss Sidner now has 40, and in the High School the enrollment is 34.

The Arnold school, which is in this district, has 8 enrolled this fall.

SCHOOL OF JOURNALISM

New Department Added to University
of Oregon.

EUGENE, Sept. 10.—Journalism, which is the catalogue word for what the newspaper men usually prefer to call "newspaper work," will appear among the subjects taught when the University of Oregon opens its doors September 17.

The newspaper is the last of the great public institutions and professions to gain official recognition from the universities of the country, but faculties all over the United States have awakened to its surpassing importance in a democratic society, and the training of newspaper men has become an important duty in many of the best colleges. The universities were conservative about entering a new field, but the two great middle western state institutions of Wisconsin and Missouri went ahead and established schools of journalism. It was not until practical editors, sceptical at first, began to admit that the training brought excellent results, that the movement spread rapidly.

The work at Oregon has been placed in charge of Eric W. Allen, recently Northwest editor of the Seattle Post-Intelligencer. He was selected because he combined experience of both the metropolitan and country press with adequate university training and a successful record as a teacher. He has never been far from the smell of printer's ink since his boyhood.

Mr. Allen's idea is to keep the work in close touch with the practical newspaper men of the state, and he has already arranged with many of them to address his classes later in the year. Journalism is a subject on which there are as yet virtually no textbooks. The best newspapers of the country will be studied in the class room, and all the newspapers of Oregon will be in daily use. The students will get practical training on the many publications issued at the university, and will be encouraged to offer their work to the outside press.

RAND CONCERT SUNDAY.

The band gave a concert Sunday afternoon on the old Drake lawn that was enjoyed by a good-sized crowd. The weather was favorable, though earlier in the day it looked as if the concert would have to be postponed. Next Sunday afternoon the boys will play from the balcony of the Pilot Butte Inn.

TIMBER CRUISE WILL NOT DOWN

DONOHUE CONTRACT ASSIGNED

J. H. Haner Petitions Court to Transfer
It to Him, and Such is Done.

Judge Ellis Opposes This, as He
Did Award of Contract.

Taxpayers of this county who believed that the proposed timber cruise which stirred up such a hornet's nest of protest in May was dead, find that, like the famous ghost of Mr. Banguo, it will not die. The latest development in the matter is the assignment of the contract which was awarded to A. P. Donohue of Portland, in May, to J. H. Haner of Prineville, by the County Court last week. As before, Judge H. C. Ellis opposed such action. Readers of The Bulletin will recall that the award was made to Donohue at 5 cents an acre, his bid being the highest of all those submitted. The Grand Jury took the matter up and advised that no contract for cruising the timber of the county be entered into by the present County Court, citing a number of instances why such was inadvisable. The matter was continued until the July term of court and as nothing was done at that time the people of the county thought the whole matter had been dropped.

The following is from the official minutes of the court session last week:

Comes now J. H. Haner, by V. A. Forbes, his attorney, and presents to the court, the following petition:

To the Honorable County Court, Crook County, Oregon.

Now at this time comes J. H. Haner and respectfully shows to the court:

That at the May term of said court held in the year 1912, said court received bids from various and diverse persons for the cruising of the timber lands of Crook county, Oregon, to aid in levy of taxes;

That said court considered said bids so received at said May term of court and after due consideration awarded the bid and contract for cruising said timber lands to one A. P. Donohue, according to and in conformity with the bid of said Donohue as made in writing at said May term of court and now on file in the records of this court and to which reference is hereby made;

That said J. H. Haner further shows to this court that the said A. P. Donohue on the 1st day of September, 1912, duly and in writing assigned all his right, title and interest under the award aforesaid to the said J. H. Haner and authorized by said assignment this court to enter said contract for cruising of said timber lands with said J. H. Haner in accordance with said award and accepted bid of said Donohue;

Wherefore, said J. H. Haner respectfully requests this court to ratify the agreement of said award

(Continued on Page Twelve)

The Golden Rule

A YOUNG FARMER went to his banker a short time ago and asked to borrow \$300.00. After consulting the depositors ledger and noting the condition of said farmer's account the banker said: "Alright sir, you can have it. I observe that while your account is not large, yet it has been gradually increasing, which shows that you are succeeding. I also note that you are apparently doing all your business with us, which shows that you are our friend, and we always feel like helping our friends." Was the banker's conclusion logical? This bank preaches and practices the Golden Rule.
