The Laidlaw Dramatic Co. was a howling success Saturday night in the farce, "The Dressing Gown." Grover Gerking manipulated the dressing gown very artistically and his falls were both full of grace and from Grace considering the way he threw his wife, Mrs. B. C. Cady, and his daughter, Miss Margaret Mock, into fits of rage and floods of tears. The butler, Jack Wimer, and the maid, Miss Fay Gerking, were also caught in the tide of passion and had a lover's quarrel. But after the much-insulted wife had cut a foot or two of goods from the bottom of the offending gown, and the daughter, not knowing of the shortening, had also taken off a foot or so more, then both servants following suit, peace was restored and a very stylish Etou jacket was the result. Byron

Cady, as Miss Mock's lover, quite "extinguished" himself in the last act. Miss Ellen Crawford and Miss Dora Ford furnished the music, which all enjoyed, both young ladies being very efficient musicians. The solo, "My Persian Rose," by Miss Nellie James, and "The Pirate Chief," by Neal Ray, were greatly enjoyed, and the Laidlaw quartet, consisting of Neal Ray, Ray Gerking, Grover Gerking and Mr. Barr, sang "When the Dew is on the Rose" and encore "The Daisies Won't Tell." The boys are all good singers and did fine.

If it's a Deere it's Right

JOHN DEERE
MOLINE, ILL.

Because its made right, by a force of skilled plow experts whose equal cannot be found in any other plow factory in the world. There are many different makes of plows, each claiming to be the best, yet the fact remains that three John Deere plows are in use to one of any other kind. The John Deere Factory, the largest in the world, turns out every year more plows than any five other factories combined.

Standard of the World For Over 60 Years

The Pioneer Plow Maker, John Deere, made his first steel plow by hand from the blade of a saw in 1837. The first sash of steel rolled in the United States was rolled for the John Deere plows by William Woods, of Pittsburg, in 1846. And ever since those early days Deere Plows have shown the way and maintained the lead in this great national industry. Is it any wonder that the farmers of the world express their verdict in the familiar phrase,—"If it's a Deere—it's Right."

We make over 1000 styles of plows, each as good as it can be made,—the best that brains and perfect equipment can produce. No matter what your needs may be, we can supply them from our line.
