The Pioneer states that the Epworth League at Madras will erect a building to be used for the advancement of moral, religious and intellectual purposes. Among other things, it will be a public reading and rest room.

FINE GRADE OF APPLES.
(Terrebonne Oregonian.)
E. L. Mead, who has a fifteen-acre orchard of three and four year old apple trees one and one half miles east of town, is busy this week picking his apples. He will have upwards of 100 boxes of a fine grade of apples. Pretty good for a first year's crop.

LATE STRAWBERRIES.
(Sisters Herald.)
Mr. and Mrs. Hindman were in town Thursday and left a box of strawberries at this office. This is not so bad for the 10th of October.

DOING SCIENTIFIC FARMING.
(Prineville Journal.)
J. W. Brown was in from Culver Tuesday. He has a 400-acre ranch near Culver which he is cultivating on approved dry farming methods. Two hundred and eighty acres are in cultivation. This year he raised 100 bushels of onions (retail at 2 cents a pound). He harvested 2500 bushels of wheat and 462 bushels of oats. He got 1300 bushels of good volunteer wheat off ninety acres. He

ELECTRIC LIGHT SOON.
(Metolius Central Oregonian.)
An enormous amount of electric wiring material was unloaded at Metolius last week, including three carloads of poles, three tons of wire, and much other "juice" material. The crew of men engaged in erecting the poles are now within four miles of town and next week will begin hauling material from this place.

HAVE RABBIT DRIVE.
(Redmond Spokesman.)
Last Sunday seven men from Redmond and eight men from the country had a rabbit drive at Lone Pine. The terms of the contest were that the losers should provide an oyster supper for the victors. The city men won by killing 172 rabbits to 164 by the country men.

If it's a Deere it's Right

Because its made right, by a force of skilled plow experts whose equal cannot be found in any other plow factory in the world. There are many different makes of plows, each claiming to be the best, yet the fact remains that three John Deere plows are in use to one of any other kind. The John Deere Factory, the largest in the world, turns out every year more plows than any five other factories combined.

Standard of the World For Over 60 Years

The Pioneer Plow Maker, John Deere, made his first steel plow by hand from the blade of a saw in 1837. The first slab of steel rolled in the United States was rolled for the John Deere plows by William Woods, of Pittsburgh, in 1846. And ever since those early days Deere Plows have shown the way and maintained the lead in this great national industry. Is it any wonder that the farmers of the world express their verdict in the familiar phrase,—"If it's a Deere—It's Right."

We make over 1000 styles of plows, each as good as it can be made,—the best that brains and perfect equipment can produce. No matter what your needs may be, we can supply them from our line.

THE COMING Hog Center

All indications point toward Bend as the center of a profitable and extensive hog raising section. The climatic conditions of this section are ideal. Shipping facilities make rapid transportation at low cost possible. Farmers will do well to look into the hog raising business as it is a paying one.

Getting the largest profit out of a pig, requires simply proper feeding to develop the greatest amount of weight in the shortest time, on the most economical feed.

FOR THIS PURPOSE, FEED UNION MEAT COMPANY'S DIGESTER TANKAGE

Union Meat Company's Digester Tankage develops bone and muscle in young pigs, and makes them grow. It prevents rheumatism, thumps and ricketts. It imparts such fit and finish to "show" swine and market hogs that it has won the title, "The feed that makes Prize Winners and Market Toppers."

Union Meat Company's Digester Tankage is the most economical feed obtainable. Experiments have shown that \$1 worth of Digester Tankage puts more weight on to a hog than \$1 worth of any other kind of food.

Digester Tankage is a concentrated Protein Meal. It is made from fresh, wholesome pieces of meat trimmed from beef. It is shipped in the form of a meal which makes it easily mixed in mash feeds. Shipped in convenient 100 pound sacks. Keeps indefinitely.

Digester Tankage has been tried and recommended and is now being used by best growers and authorities in the Northwest. It is becoming more popular every day. It will pay you to know more about it. Send at once for circular No. 49.
