### CELEBRATION BY THREE LODGES

#### K. OF P.'S HAVE BIG BANQUET

Delegation of Visitors From Redmond Attends—Rebekahs and Fraternal Brotherhood Have Special Sessions in New Hall.

Further celebration of the opening of the lodge hall in the Sather building was had by three lodges last week, in addition to the festivities of the Odd Fellows on the evening of the 4th.

The Knights of Pythias, on Wednesday evening, held their first meeting in the new quarters, winding it up with a big banquet. There were present a large delegation from the Redmond lodge who participated in the evening's program. There was work in the first and third ranks, until about midnight. Following this came the feasting, at Hotel Wright. Plates were laid for 40, and the diners were at the table for several hours. Nearly everyone present was required to make a speech by Toastmaster M. A. Palmer. The following menu was served:

- Minced Sea Clam Soup, a la Creme
- Canapes de Saumon
- Green Olives
- Celery
- Cold Roasted Young Turkey
- Salad de Croquettes
- Cold Boiled Ham
- Vinegar Pickles
- Salad de Fruits
- Hop Gold on Ice
- Assorted Cakes
- Finger Rolls
- Fruits
- Cigars

Other Lodges Celebrate.  
On Thursday evening the Fraternal Brotherhood met in the new hall. A feature of the evening was a shower given Mr. and Mrs. John Linster. Refreshments were served during the evening. The Bend lodge was invited to a banquet given by the Redmond lodge Monday evening.  
On Friday night the Rebekahs installed a large class of candidates and had a spread. Later there was dancing. The lodge expects a visit this Friday from the Supreme President of the Rebekah Assembly.

### Before You Let the Contract

for that new building, consider these facts about brick.

In building with all other material no allowance is made for doors, windows and other openings.

With brick you can make an allowance of 10 to 25 per cent.

With lumber 15 to 25 per cent is added for sizing, laps, etc. With brick it is unnecessary.

With all other material 5 to 10 per cent added for waste, such as cutting, fitting, knots, shakes, etc. With brick there is absolutely no waste.

When a building is finished, built with any other material, there is always a lot of waste to haul away.

With brick, if you have any left we will take them off your hands at the full price you paid for them.

There is a hundred other reasons why you should build with brick.
