The cost of fires each year is one-half the cost of all the new buildings erected in a year.

The annual per capita fire waste in the United States is \$2.51, in Europe 32c. Cause: The latter has better construction, less carelessness and increased responsibility.

If buildings in the United States were as fireproof as in Europe, the annual cost of fire losses and protec-

MRS. ALFERETTA ORCUTT.

Is your table nice enough for a Thanksgiving dinner?

Dear Amy:-
 You and Bob must take Thanksgiving dinner with us. John has just made a good business deal, and bought me a new dining room set. I want "to show it off."

I'm not bashful about confessing this to an old friend like you, Amy. We women all do love pretty homes. If husbands, who can easily afford it, only knew how much happiness they could give their wives by buying what they wanted, wouldn't the furniture fly, though?
 Lovingly,
 Lou.
