DOUBLE SHIFT AT SAW MILL AGAIN

OPERATIONS TO START NEXT WEEK

Repairs All Nearly Completed Now. Lumber Shipments to Eastern Points Increase Rapidly—Oregon Pine Is Popular Now.

If the new rolls for the gang edger arrive in time to be installed, The Bend Company will begin running double shifts at its lumber mill next week. The usual midwinter shut-down for repairs, and to give some of the men an opportunity to go home on a visit, has put the mill behind in filling orders. January showed the largest export shipments of lumber to Eastern points since the mill was established. About 70 men are now employed.

"We are now averaging nearly two cars a day to Dakota, Minnesota and Nebraska points," said Clyde McKay yesterday. "We expect to export to other Eastern markets shortly. We are just waiting for some new rolls to arrive to put our edger in shape, and we will be running our present equipment at full capacity day and night."

The logging camps have been open all winter, and the logs have been coming to the mill pretty fast, but as soon as the sawing begins again, the activity along this line will be greatly increased.

It is only within the past three months that the company has been selling stock to Eastern markets to any considerable extent, and the results obtained in that short time promise a limitless field for what is known in the lumber world as Oregon white pine. For building purposes, Oregon pine possesses advantages over other pine, one being that it is a trifle harder and for this reason contractors and architects who have used it are specifying it wherever practicable. Good prices are received for all the pine shipped out of the Bend country.

Excepting the placing of the rolls of the gang edger, all the repairs and additions to equipment at the mill have been completed, says Mr. McKay.

You ought to have a new book case

Dear Amy:-

Don't you hate books lying about all over the house? Well, it was getting to be that way in our house, so I made John give me the money to go down to the furniture store and I bought me a pretty, Golden Oak Book-case.

You need a new book case, too. Make Bob give you the money to buy it. Set a good one while you are at it. It does not pay to buy poor furniture at any price.

Always your friend,

- Lou.

P.S.-You can get good furniture that will last at a low price from
