

THE BEND BULLETIN.

VOL. XI.

BEND, OREGON, WEDNESDAY, APRIL 9, 1913.

NO. 5

VOTERS CHOOSE SCHOOL SITE

LOCATION PICKED IN WIESTORIA

Vote Between Park Addition and Wiestoria First Results in Tie—Plot Endorsed is 300 by 285 Feet and Price is \$4500.

At a meeting of school voters Monday night, the question of selecting a site for the proposed high school building was decided by ballot. Of three sites offered that in Wiestoria was chosen on a second ballot by a narrow margin, the first ballot vote having resulted in a tie.

While school meetings thus far have claimed a maximum attendance of about three persons, this one brought out in excess of 100, and the largest room at the school was filled, representatives of the east-of-the-tracks territory being especially in evidence.

The three sites offered were as follows: Lots 2 to 8 inclusive in block 24, Park Addition, \$3500; lots 1, 2, 3, 4, 13, 14, 15 and 16, block 28, Center Addition, \$3000; lots 1 to 12 inclusive, block 44, replot of Wiestoria, \$4500. The first two were offered by the D. E. Hunter Realty Company and the third by L. D. West.

The first ballot resulted in the Park Addition site receiving 47 votes, the Center Addition site 27 and the Wiestoria site 31 votes. Throwing out the lowest, as announced would be done at the outset, a second vote resulted in a tie, 50 persons voting for Wiestoria and 50 for Park Addition. A third ballot, taken after many had left the room, showed Wiestoria the winner by 50 to 29, apparently indicating that all the Wiestorians present stood pat.

The tract chosen is 300 by 285 feet, and occupies what on the original plat was lot 1 of block 1, Wiestoria, and lots 1 to 6 inclusive of block 16, Center Addition. It is two blocks east of the railroad and two blocks north of Greenwood avenue, and is somewhat low.

The bond issue, it will be remembered, is to be called for \$45,000. The date of election has not yet been posted by the school board. Interviews with a score of representative men yesterday, including some from the district that presumably would be most benefited, disclosed what seems to be a strong belief that the bond issue will not carry at the election.

BAKERY STORE UP TOWN.

R. A. Puett of the American Bakery has rented the store on Wall street now occupied by C. D. Rowe and will conduct a bakery store there after May 1. Mr. Puett says that O. A. Thorson will continue to occupy half of the store. J. E. Sheriff of Portland, an expert baker, is now with the American Bakery.

COWS HERE MAY 1.
C. R. Hudson received a telegram Monday from Hampshire, Ill., stating that the first carload of young cows which the First National Bank is bringing to Bend will be started in a few days. This shipment will consist of 75 high grade Holstein cows and will be put on sale about May 1. The Holsteins will be followed by two cars of Jerseys. The bank has experienced some difficulty in making its purchases but now expects to have no more trouble.

DISCOVERED: AN HONEST MAN; PLACE BURNS; NAME, DAVEY

(But Everybody Lies in Our Town)—Paper Says Pringle and The Bulletin Are Prevaricators.

The other day Diogenes, with his electric lantern, was encountered in Bend. He was pretty sad-eyed; said he couldn't find one honest man. But a friend solved his difficulty by showing him a copy of Editor Davey's Harney County News of Burns. It showed conclusively that there is at least one honest man extant.

The clipping which Mr. Diogenes read follows:
"Either The Bend Bulletin or A. M. Pringle of the United Warehouse Co. of that town is suffering from a severe attack of prevarication, as witness the following from The Bulletin:
"There wasn't a single kick from a Burns merchant," said Mr. Pringle yesterday. "The talk which a Burns paper has been spreading about discontent with the freight forwarding from here is all twaddle, and worse. There is no foundation to it, and the merchants went out of their way to show their friendliness for Bend and their contempt for those who have attempted to throw mud at us."
"The depth of the falsehood conveyed in the above is apparent, from the fact that there has not been a line in a Burns paper about any discontent here with the freight handling from Bend. The News has also learned from the merchants that not one of them gave Mr. Pringle any cause or warrant for the closing declaration credited to him."

Everybody lies but Davey. Who writes the truth all day. Scrapping Burns' detractors in his own particular way. Pringle fits most shocking. So does The Bulletin. Everybody lies in our town. Says that truthful man—The dear old Davey.

Orders for the "juice" are coming so fast to the Bend Water, Light & Power Co. that it has begun to rush the work on its new power plant in order to get into position to take care of the demand. In addition to the regular day crew, a night shift has been put on and will be continued until the work is done, says Local Manager Foley. Just now the new water wheels are being installed. With the arrival of the generator, now on the road from the General Electric Company's plant at Schenectady, N. Y., all the machinery will be on the ground and, it is expected, by May 1 everything will be in working order.

As a result of the lectures given by Mr. Turnbull last Thursday, the company has received orders for new service amounting to 75 horsepower. Among the largest of these are special installations contracted for by Corbett's and W. D. Cursey. Both will equip their kitchens with electric composite ranges, ovens, griddles and hot plates. At the Mountain View, where the installation will be made for Mr. Cursey, a situation otherwise difficult to provide for will be taken care of.

In addition to these equipments, arrangements have been made for a water heater with a capacity of 40 gallons per day by the owner of a private residence in town.

Bend already holds a record as a consumer of electric current, using about 150 kilowatts per thousand of population, while the general average is only 100 kilowatts. With this new consumption, it seems probable that the record will be put at a still higher figure, and another step taken in establishing Bend as a real "electric city."

City Engineer Young presented a detailed report dealing with proposed street improvement and grading on Nevada street and elsewhere. The total cost will be about \$4500, and when completed the work will place practically all the main streets in good shape, and on grade.

DOUBLE SHIFT AT POWER PLANT

ADDITIONS ARE BEING RUSHED

Company to Finish New Work by May 1—Installing Electric Cooking and Heating Equipment. Bend Holds Record.

Orders for the "juice" are coming so fast to the Bend Water, Light & Power Co. that it has begun to rush the work on its new power plant in order to get into position to take care of the demand. In addition to the regular day crew, a night shift has been put on and will be continued until the work is done, says Local Manager Foley. Just now the new water wheels are being installed. With the arrival of the generator, now on the road from the General Electric Company's plant at Schenectady, N. Y., all the machinery will be on the ground and, it is expected, by May 1 everything will be in working order.

As a result of the lectures given by Mr. Turnbull last Thursday, the company has received orders for new service amounting to 75 horsepower. Among the largest of these are special installations contracted for by Corbett's and W. D. Cursey. Both will equip their kitchens with electric composite ranges, ovens, griddles and hot plates. At the Mountain View, where the installation will be made for Mr. Cursey, a situation otherwise difficult to provide for will be taken care of.

In addition to these equipments, arrangements have been made for a water heater with a capacity of 40 gallons per day by the owner of a private residence in town.

Bend already holds a record as a consumer of electric current, using about 150 kilowatts per thousand of population, while the general average is only 100 kilowatts. With this new consumption, it seems probable that the record will be put at a still higher figure, and another step taken in establishing Bend as a real "electric city."

City Engineer Young presented a detailed report dealing with proposed street improvement and grading on Nevada street and elsewhere. The total cost will be about \$4500, and when completed the work will place practically all the main streets in good shape, and on grade.

COUNCIL SETS WORK RECORD

LICENSE \$1200--BLACK-LIST ORDERED

Pool Rooms Limited, Realty Dealers Licensed—\$4500 in street Improvements—Pest House and Hitching Place Authorized.

The common council had an uncommon session last night, going on the "high" and breaking all speed records. More business was transacted than at any previous meeting in the memory of the oldest inhabitant; at least, Recorder Ellis said so, and the judge has been on the job ever since he officiated at the birth of the municipality, and he ought to know.

Four ordinances were read and unanimously passed. Their complete text is published elsewhere in this issue.

The first is an amendment to the liquor license ordinance. It fixes the saloon license at \$1200 annually, payable in advance on January 1. Commencing May 1, the date at which all existing licenses terminate, those possessing licenses now may renew them, paying on the \$1200 basis for the balance of the year; that is, \$800 in cash on the 1st of May. No license may be transferred, and they shall terminate at any time the present holder ceases to be an active member of the firm. No new licenses shall be granted until such time as the number of saloons shall be less than five.

Drunkards Tabooed.

The second ordinance passed provides for the enforcement of a blacklist, a procedure in use in other cities. It is very comprehensive and, in brief, prohibits the selling of intoxicating liquor to any person whose name has been placed on the "blacklist" by relatives or by officials because he is a confirmed drunkard.

The third ordinance limits the number of pool rooms to one for each 1000 population and fixes the annual license fee at \$100, payable quarterly.

The fourth, drawn up and acted on at the petition of practically all the real estate and hotel men in town, is designed to regulate the "carbons nuisance" in the local real estate business. It requires an annual license of \$100 from Bend realty dealers who handle land or locations upon a commission basis, and prohibits solicitation of trade upon the streets or in hotel lobbies.

This morning several persons who said they signed the petition complained that in asking for the ordinance they did not know that any license fee would be charged.

Much Street Improvement.

City Engineer Young presented a detailed report dealing with proposed street improvement and grading on Nevada street and elsewhere. The total cost will be about \$4500, and when completed the work will place practically all the main streets in good shape, and on grade.

The cost will be borne by an assessment district. Details of the apportionment will be taken up at a meeting of the council tomorrow.

The health committee, which reported that a pest house could be constructed on an isolated portion of city property south of Pilot Butte at an approximate cost of \$240, was instructed to have the house built at once. The call for bids is published on another page.

The mayor directed attention to the financial straits in which the Bend Library finds itself, urging a larger monthly appropriation than the \$5 now allowed. All joined in praising the work of the library and its value to the town, and Ford immediately moved that the appropriation be made \$15, the motion being passed unanimously.

An ordinance was ordered drawn prescribing the connections that will be made with the sewer, compelling all adjacent property owners to connect with the sewer when completed and to abandon septic tanks, regulating the construction of tanks elsewhere in the city, and being a general plumbing and sanitary ordinance.

The health committee was authorized to make any improvements necessary toward erecting hitching posts in the yard back of the city fire house in the rear of the Bend Hardware Co. store, east of Bond street. Two gates will be put in and public hitching facilities provided, with a watering trough.

A petition was presented, with 19 signatures, for the installation of an arc light at the corner of Fir and 9th street, in Center Addition. At this time it was decided to place one of the smaller lights there.

Bills totaling \$325 were ordered paid.

RECITAL IS INTERESTING

Large Audience Enjoys Program at the Star Theatre.

The humorous and dramatic recital given last Wednesday evening at the Star Theatre was enjoyed by a large audience, proving to be a delightful entertainment. All those taking part acquitted themselves with honor.

Miss Nelle Rauch's readings were excellent and she was heartily encouraged, as were the others on the program. Miss Rauch showed good ability in this line, presenting dramatic and dialect selections that won much favor. She gave "The Yale Yarn," "The Soul of the Violin," "Just A-Wearyin' For You," "I Cannas Marry Both of Them," "Skidoo," "At the Photographer's" and "Money Musk."

Miss Arrie Black was at her best in the two solos which she sang, "Good-bye, Sweet Day," and "Little Boy Blue."

Miss Eva Graves played the accompaniments and also rendered Grieg's "Wedding Day at Troldhougen" and "Butterfly" and Chamade's "Autumn."

The Boy Scouts will use their share of the proceeds to help outfit them for their annual camping trip.

MORE CHICKENS AIM OF CONTEST

SIX VALUABLE PRIZES OFFERED

Bend Business Men Want Bend School Children to Raise Bend Eggs—O. A. C. to Help—Will Bring in Moving Pictures.

Through the public-spirited generosity of the banks of Bend and several of its business men, The Bulletin is able to announce a poultry contest open to the school children of the district to continue for six months. Any boy or girl under 18 years of age now living in district 12 and either attending school or eligible to do so may enter the competition, which will be in two separate parts, with prizes for the winners in each.

The value of the awards totals \$48. The primary object of the contest is to arouse interest in this important branch of profitable local production, and to stimulate Bend's boys and girls in an activity that will be both of real educational commercial value to them and also prove interesting and amusing. The local school authorities and the Oregon Agricultural College are cooperating with The Bulletin to make the contest a success. That it will give Bend much valuable publicity is evident.

The two classes are: (a) The Poultry Contest and (b) The Report Contest. In the former class the contestant must begin with at least 12 chicks, or one setting of eggs, and may have in addition enough older birds to bring the flock up to 25. It is not essential that he have the full number of 25 but it is required that he have the chicks or the setting of eggs. Each contestant shall choose his own chickens, and they may be of any breed or variety he prefers, or they may be crosses. The prizes will be given to those scoring the highest in the manner indicated below.

Blanks on which to keep records will be furnished by The Bulletin. All food must be weighed and the amount placed on the record sheet. Its cost will also be recorded; likewise the number of eggs laid each day, and the amount of money received from the sale of eggs and chickens. These records will be easily kept with the blanks that will be furnished.

The flock and yards of each contestant will be inspected once a month or oftener by one or more of the judges and markings will be given on the following basis:

SCALE OF POINTS.		Pts
1. Good record-keeping to count	25	
2. Good condition of the flock	25	
3. Good housing	15	
4. Good arrangement of yards	10	
5. Cleanliness of yards and houses	15	
6. Completion of reading course	10	
DEMERITS.		
Marks will be deducted from the		
(Concluded on page eleven.)
