

## MAKE SEWER CONNECTIONS

PROPERTY OWNERS  
WILL BENEFIT

Council Authorizes Engineer to Connect Sewer With Buildings at Moderate Expense—Savings to Be Made to Property Owners.

At last night's meeting of the City Council action was taken to give property owners along the sewer opportunity to have connection with it made before the trenches are closed. The engineer in charge was instructed to make the connection wherever requested at cost plus 10 per cent. In view of the fact that the trenches are now open and the city has and can use for this extra work the drills and other outfit needed it is expected that many will take advantage of the city's offer. With the tools on hand and the working organization perfected as it is, the cost should be materially less than the expense to the individual owners if they wait and later undertake the work separately.

The engineer's report for March was presented to the council and approved. As indicated in last week's issue of The Bulletin, a greater amount of work was done in that month than in the three months preceding.

Up to April 1, 1592 feet of pipe was laid, 1572 feet of earth excavated and 2009 feet of rock. For the month the average number of men on the payroll was 65.

During the present month the work will be mostly up town and in the heavy rock at the lower end of the main sewer. To this point will be moved the boiler on Ohio street and the steam drills as soon as the drilling on Ohio and the alley west of Wall is completed.
