State Water Board Favors Tumalo Creek Settlers.

SALEM, April 25.—The State Water Board at its meeting Thursday extended the time within which water users from Tumalo creek in Crook county are to complete their irrigation works, and apply the water to beneficial use. The limit as originally set in the order of the board, as confirmed by the Circuit Court of Crook county, was October 1, 1913, but the board extended this time two years, giving the settlers until October 1, 1915, to complete their ditches and laterals and use the water.

This extension covers all uncompleted rights claimed by settlers under the Columbia Southern project, and leaves the settlement of such rights in the hands of the Desert Land Board.

For four days he searched the bed of the river from a point about a quarter of a mile above the North Canal dam to the old Swallow flume, with no result.

In order to pay the diver's charges and expenses a subscription was taken in town by which a little over \$100 was raised. The county court is expected to make up the balance which amounts to about \$120. W. P. Vandevent was in charge of the work.

Everybody sees your hall

Dear Amy:-  
Don't you hate to go to see anybody, and have them hully you out of the hall just because it looks shabby? I went to see Laura the other day. Her husband had let her fix up the parlor, but what a hall she had.  
A home is not completely furnished when the hall where people just come in does not look inviting. I am not ashamed of my hall.  
Baby's howling for more milk.  
So long,  
Lou.
