It seems that she accidentally found a love letter that her father had written to her mother in the days of their courtship. The girl read the epistle to her mother, substituting her own name and that of her lover. The mother raved and stamped her foot in disgust. It is said. She forbade her daughter to have anything to do with a man who could write such nonsensical stuff to a young lady. The girl then gave the letter to her mother to read, and the home suddenly became so quiet that one could almost hear the leaves on the trees in the back yard bursting through their winter jackets.

Announcement

My Practical Baking Lessons Will Appear on This Page Every Week

So much interest has been shown in my work, and so many ladies have asked me why I did not publish my lessons, that I have prepared a series covering practically the whole field of home baking.

By special arrangement with the Manufacturers of KC Baking Powder and the publishers of this paper, the lessons will appear on this page every week, beginning this week.

I have tried to make these lessons thoroughly practical and I believe that every one contains at least one recipe worth saving, and some new idea that every housewife can adopt to advantage and that will repay a careful reading.

Sincerely
Nevada Briggs
