

Moving! Moving!

-----We are moving into our new quarters in the Lara building on Oregon street. There we will add many new lines to our stock, making it one of the most complete and up to date grocery stores in Central Oregon. Sixty per cent of our new business comes to us through the recommendations of our satisfied customers and friends. We are advertised by our customers and friends and we are fortunate in having many of them. Nearly every one likes to see a good commodity succeed and is ready to pass it on to their friends. The giving of special values is one of the greatest features of our business. It demands our constant study and receives our closest attention. Our aim is to sell a superior article, that one order will bring another, and it usually does. We have started out to make 1913 a record sale year and to accomplish this we have made successful efforts to give better quality, wider variety and greater values as inducements for larger orders from our customers. The response has been prompt and general and we again thank our friends and customers for the size and frequency of their orders.

OPENING

-----We will have our opening day on Monday, June the 2nd. We would like for every one living in Bend and the surrounding country to visit our store on this day. We will have numerous samples to give away and we are arranging for A NICE SOUVENIR FOR THE LADIES.

Canned Fruits and Vegetables.

-----We use our best efforts to secure satisfactory goods in this line. While we handle a variety of high grade packs and brands we strongly recommend the GLASS JAR LABEL.

Fresh Fruits and Vegetables.

-----You will always find at our new store everything in this line obtainable on the market.
-----Our Cheese, Butter and Eggs are always nice and fresh.

Coffee and Tea Department.

-----We are especially proud of this department. We have installed a new and up to date electric coffee mill in order to deliver to our customers a fresher and more satisfactory coffee than heretofore.

Mr. Stovall

an expert coffee and tea salesman with Closset & Devers, will demonstrate their line in our store for several days. This firm is one of the oldest and best on the Coast and we highly recommend their line.

May 28, 1913.

Dear friend:
This morning mama sent me with a big basket to the grocery. I bought so many things that I couldn't get the salt in the basket and I had to carry it home in my arm.

Here is a list of things I bought:
3 Pkgs. Corn Flakes 25c
2 Pkgs. Grape Nuts 25c
3 Cans Milk 25c

Your friend,
JACOB.

P. S.--I bought the salt and the basket full of things where we always trade, at

MCCUISTON'S GROCERY

A TRUE STORY.

-----You've heard that story about the small boy who saw a Zebra for the first time? He looked at it with amazement and after a few moments walked away shaking his head and muttering: "No, 'taint so; there aint no such animal!" Of course there was but it was a "new one" to the boy. And some people are just like that boy---it's hard to convince them that we are actually saving hundreds of people money every day on their grocery bills. Now don't be like the boy who said "There aint no Zebra." We're absolutely reliable and responsible. Our customers will tell you so. And we do what we say we will.

-----**QUALITY? VARIETY? QUANTITY?** Full measure, and scales that weigh sixteen ounces to the pound. **PRICES?** About 20 per cent less than you have been paying for

Groceries

-----Come in and let us show you how much money we can save you on that next grocery order. No matter what you want that's good to eat remember we have it and sell it to you FOR LESS. We can and do duplicate any Portland prices, plus the freight charges.

W. C. McCUISTON
