Would Drain Malheur Lake---Yoncalla School Girl Raises Many Chicks---Governor Appoints Attorney Ernest Ringo Vice Agent

(Special to The Bulletin)
SALEM, June 23.—An application for a contract with the state land board to drain Malheur lake, which covers about 46,000 acres, and convert the land into farms, has been made by C. B. McConnell of Burns. He estimates the drainage system would cost \$245,124, and agrees to begin work within one year. The plan is to drain the lake into Harney lake and the south fork of the Malheur river. Mr. McConnell represents the Harney Basin Reclamation Company.

Miss Anna Huntington, a tenth grade pupil at Yoncalla, in Douglas county, has made a record of 100 per cent from January 1 to June 1 this year in raising chickens, according to a report received by State School Superintendent L. R. Alderman. During this period she hatched 294 chicks and kept every one of them alive. They are Barred Plymouth Rocks, S. C. Rhode Island Reds and S. C. White Leghorns.

Attorney Ernest Ringo of Salem

has been appointed a special agent of the state by Governor West and he will serve as a special prosecutor and have general supervision over the vice crusade matters that come to the governor's office. Under the new laws the Governor has considerable more authority, and the laws governing liquor selling are more strict, so the governor is evidently preparing to keep steadily on the job of law enforcement.

Who hasn't had difficulty in dislodging a cinder from the eye? Sometimes one can succeed with a corner of a handkerchief, but frequently the cinder is too deeply imbedded to be got out in that way. It would be hard to find a more sticky substance than chewing gum. The next time you see any one with a cinder in his eye just chew a piece of gum till it becomes soft and pliant, twist it to a fine point and you will find as soon as you touch the cinder with it out the cinder will come.—Leslie's.

Her Request.

"Father," said the fair, timid young girl, "my William is coming to see you this evening, and I beg you will allow me in his case to reverse my usual request to you."
"What is that?" asked the father suspiciously.
"When he comes," she sighed, as a pearly drop rolled down her cheek, "please don't foot this bill."—Haltmore American.

WEEKLY MARKET REPORT.

NORTH PORTLAND, June 20.—Receipts for the week have been, cattle 1126, calves 176, hogs 2667, sheep 4418. Market steady to stronger this week. Best grass steers sold in bulk \$8 to \$8.25 with an occasional good load at \$8.50. Outlet is somewhat limited but re-

come to a glut. Good cows and heifers were offering freely, but one bunch of cows brought \$7, the remainder being poor quality. Prime light veal calves at \$9.05 featured. A steady to higher hog trade. Reaction in prices set in early Monday morning. Tops quickly reached \$8.25, \$8.30, \$8.35 and finally \$8.40. Continued light receipts would

house draggy. Prime yearlings failed to sell better than \$5; ewes \$4.50 and lambs \$6.50 and \$6.75. Much thin stuff is coming in this year and buyers are not anxious for any but good fat mutton and lambs.

You will have no irritated face if you have your shaving done at Innes & Davidson's barber shop.—Adv.

Modern Folding Machine Added To The Bulletin's Equipment

Hereafter when customers and the 1600 edition Wednesday afternoon without delays to subscribers. Wednesday afternoon they won't find three men folding papers. And

Thursdays the proverbially irate subscribers won't need to phone asking where in blazes their copy of the paper is, which should have been mailed Wednesday, but wasn't.

For The Bulletin has purchased a modern folding machine, which will do the work of three men in folding the papers, and do it so quickly that it will be possible to get out all of

in Omaha, Nebraska. As pictured above, it connects directly with the press and takes and folds the papers as they are delivered from it. The press runs out about 1400 papers an hour, and these are folded as rapidly as printed. Operating by hand, as hitherto, the folding has taken three men about half a day.

TO IMPROVE M'KENZIE ROAD

Engineer and Crew Leave Eugene to Start Work.

(Portland Journal.)

EUGENE, June 23.—Ralph B. Hunt, a civil engineer, left Eugene today, accompanied by a crew of ten men, for the upper McKenzie country to lay out a new road over the McKenzie pass across the summit of the Cascade mountains into eastern Oregon, which promises to become a popular route for automobilists, as the grade is much lighter than by the old route and the road can be made much smoother than the other.

Dan Linton, who has been up there all spring in the employ of the county, keeping a portion of the road in repair, accompanies the party as guide. He says that portion of the road built last year is in good condition and practically as good as when laid out. There is still much snow on the summit of the mountains, but the surveying crew will work on the lower levels till the hot weather melts all of it off.

HOUSES WANTED

We have so many inquiries from people wanting to rent small houses, which we cannot furnish them, that in order to encourage building to meet this growing demand we have selected a limited number of our inside residence lots which we will sell at the following prices and on very easy terms of payment:

20 Lots in Park Addition at \$150.00 Each

20 Lots in Center Addition at \$200.00 Each

These are all nice large lots---50 foot frontage and most of them 140 feet deep. Large enough for a home and a good garden. They are all available to city water and electric light and close to sidewalks. Come and see us about these lots if you want a bargain.
