

CENTRAL OREGON NEIGHBORHOOD NEWS.

CRESCENT

(Special to The Bend Bulletin.) CRESCENT, July 11.—Dr. Parsons, who spent a week here repairing his auto, left Monday for Bend. F. M. Cleaves and J. L. Ringo, who attended the Rodeo at Klamath Falls, returned Monday. Mr. and Mrs. W. H. Hollinshead and son Dean went through Crescent Tuesday on their way to the lakes. Mr. and Mrs. Charles Graves came up from Klamath Falls in their car Tuesday. Mr. Graves will visit her daughter, Mrs. Ringo, for the rest of the summer. Charles Graves, Ed Santry, Mrs. J. L. Ringo and Dorothy Anderson went to Fort Rock Wednesday, returning the same day. Mr. and Mrs. Clyde Ingie and daughter came in from Bend Thursday. They will visit their cousin, J. L. Ringo, and family for a few days. Mrs. Welch and son of Beaver Marsh went through Crescent Friday on their way to La Pine where they will visit Mrs. Welch's daughter, Mrs. Ingies. The Pioneer Sewing Club met with Mrs. Stevens at the home of Mrs. Anderson Friday afternoon. J. H. Harrison of Fort Rock was a Crescent visitor Thursday. Charles Graves returned home to Klamath Falls Thursday.

DRY LAKE

(Special to The Bend Bulletin.) DRY LAKE, July 10.—Over two inches of rain fell here the past two weeks. Considerable plowing is now done in this vicinity. B. Cox went to Bend after a load of freight for C. A. Bengston's store. A. Huntman had the misfortune to cut his foot badly, and it is feared that he will be laid up for some time. Dr. Hess is attending him. Bert Southern and A. M. Vasake are working at the Maury mountain sawmill. C. A. Bengston is opening a road in the center of section 14-20-20 to connect with the main roads from Camp Creek and Hampton. All kinds of crops are looking well and prospects are good for an ample

supply of everything. The abundance of moisture has made a crop failure impossible. S. Samson brought a load of people to Buck Creek for the celebration on the Fourth. It was a lively bunch. Mr. Landford and daughter, Miss Frances, went to Bend last week.

POWELL BUTTE

(Special to The Bend Bulletin.) POWELL BUTTE, July 14.—Jack Perry has been plowing for the Foster boys the past week. Choir practice was held Thursday evening at the home of the leader, Mrs. Viola Truesdale. The Titus boys returned Wednesday from an extended fishing trip on the Deschutes. They left for Laidlaw the next day, where they plan to work on the Tumalo project. "Doc" Morgan is over from "Rabbit Heaven" to help Munn Wilcoxson with his haying. Powell Butte had the honor of having the fattest woman at the Redmond celebration. Mrs. Gibson carried off the prize, with weight to spare. The wind blew so hard here Saturday that it was very inconvenient for those attempting to put up hay. Several crews had to lie off in the afternoon. The Powell Butte "Light Foots" are talking of having a big dance at the end of haying. The last dance was such a success that no doubt a good crowd will turn out for another one. A number of the farmers here have received from the First National Bank of Bend a book called "Soil Culture." It will no doubt be a big help to those who study it. Mrs. A. W. Bayn has been very ill for the past week. The doctor from Redmond has made several calls. Lee Hobbs is building a new granary on his ditch land. This is to be 20 by 14 feet, with a corrugated steel roof. George Hobbs made a trip to Redmond for feed Wednesday. B. L. Ezell, who has been staying with Edward Williams, has left for the Tumalo country. Jessie Moon, who has been employed at the Lee Hobbs ranch, left for her home near Bend Wednesday. Miss Phoebe Heath celebrated her 15th birthday Sunday by giving a dinner for a few of her young friends.

TUMALO

(Special to The Bend Bulletin.) TUMALO, July 13.—Charles Winer of the Star ranch lately sold the state 100 tons of hay which will be used at the different camps of the Tumalo project. This cleans up the 1912 crop on the Star place. Crops of all kinds will be good in these parts, and haying has already begun. Mrs. Carolyn F. Winer and sister, Bernice Unphlett, of Laidlaw, were callers at this place Friday. Several camps are being established on the project and already the clearing of the right of way on the big canal has begun.

PRINGLE FLATS

(Special to The Bend Bulletin.) PRINGLE FLATS, July 9.—C. A. Stevenson started for Pringleville today. The ladies on the west side of the warm spring are forming a sewing circle. They will meet at Mrs. Cunningham's July 23 for the first time. C. A. Stevenson will start to cut his hay the last of this week. He thinks he will have a large amount. Warren Libbey made a trip to Pringleville last week. Mr. Martin and his two sons, Cash and Wess, Joe Hallmeyer and Clyde Halsey left for Summit Prairie on July 7.

LOST CREEK

(Special to The Bulletin.) LOST CREEK, July 5.—Gardens and fields are looking nice since the rain. There was over two inches during the past week. Ben DeWit has gone to Bend to get

lumber to build a house. Jim Smith and son Archie, Don and Vern Yeck have gone to Eastern Oregon to work during harvest. They intend to go up into Eastern Washington before returning home. Mrs. Myers and children of Butte have moved into the valley for the summer. Ben Rhodes has been on the sick list for the past two weeks, but has so far recovered as to be able to go to Bend. Mrs. Rhodes and children are staying with Mrs. J. Perry during Mr. Rhodes' absence. George Mehrer has returned to his home here after an absence of seven weeks in Portland and other places. Mrs. Overall is having an attack of the rheumatism. Robert Whitteide has gone to LaGrview to transact business in connection with the new school district. C. J. Stauffer and Jack Smith transacted business in Bend the past week.

THE MAHOGANY MILL.

James Lick Made Good His Boast When Scored as a Sutor. The story of "Lick's Folly, or the Mahogany Mill," has to do with the romance of the life of James Lick, the founder of the Lick observatory. In early life young Lick fell in love with the daughter of a well to do miller for whom he worked. When he made known his love, which was reciprocated by the girl, the miller was angry and is said to have replied: "Out, you degar! Dare you think of my daughter, who will inherit my riches? Have you a mill like this? Have you a single penny to your purse?" To this Lick replied that he had nothing as yet, but one day he would have a mill beside which this one would be a plastic. In 1854 the quiet, parsimonious James Lick surprised everybody by building a magnificent flour mill near San Jose. The mill was finished within in solid mahogany, highly polished, and was furnished with the best machinery possible. He made the grounds about the mill very attractive and began early to set out trees both for fruit and ornament. Lick caused his elegant mill to be photographed without and within and sent the pictures to the miller who had scorned him in his youth. Nineteen years after Mr. Lick built his mill, Jan. 15, 1873, he surprised the

people of San Jose again by giving it to the Palm Memorial society of Boston. Half the proceeds of sale to be used for a memorial hall and half to sustain a lecture course.—Exchange.

FIERCE ARAB DOGS.

Easy to Put the Big Brutes to Flight if One Knows the Trick. The village dogs of Arabia are a real danger to strangers, whom they attack on sight without provocation. By strangers I mean any one except their own immediate owners, whether natives or not, writes Lady Ramsay in the Sunday School Times. They are, as a rule, great, powerful brutes, often very handsome, extremely fierce and capable of defending the flocks from wolves and other marauders. I have often been told that when attacked by these ferocious animals the proper thing to do is to sit down quickly on

the ground, when they will at once desist. But for my part I never had the courage to try this plan and had never seen it done during all my years of travel till last year. We had stopped to rest and eat our lunch in a village oda, and I was looking out from an open balcony and saw an elderly Turk coming along between some houses opposite. Suddenly two huge dogs, barking furiously, dashed at him from an open gateway. Instantly he dropped to the ground in a sitting position. For a moment I thought he had fallen and expected to see the dogs on top of him. To my astonishment they turned and fled, their tails between their legs. Before they could return, if they would have done so, a couple of villagers appeared, helped the old fellow to his feet and accompanied him out of the range of my vision.

WHY NOT BUY

merchandise as the merchant does---where it may be obtained for the least

and Save Money?

The saving of a few cents on a five, ten or twenty-five cent item; fifteen to fifty cents on a dollar item and one to two dollars on a five dollar item, while they may not seem very great on single purchases, mean a saving of hundreds of dollars during an extended period. THE MERCHANT will figure at length to save from two to five per cent on his purchases and it is as important that an individual should also be sure that his buying is done where good dependable merchandise may be secured at a saving. A careful note of the prices quoted below may be convincing but a purchase will be doubly so. We solicit your business from a deserving standpoint: Your money is cheerfully refunded in any case of dissatisfaction because we have located in Bend to make good. YOU MUST BE SATISFIED OR WE ARE NOT.
