A Torpid Liver is a fine field for the Malarial Germ and it thrives wonderfully. The certain result in such cases is a spell of Chills.

HERBINE

Is a Powerful Chills Tonic and Liver Regulator.

It puts the liver in healthy, vigorous condition and cures the chills by destroying the disease germs which irritate the system. Herbine is a fine anti-periodic medicine, more effective than the syrupy mixtures that sicken the stomach; because it not only kills the disease germs, but acts effectively in the liver, stomach and bowels, thus putting the system in condition to successfully resist the usual third or seventh day return of the chill. Herbine is a cleansing and invigorating medicine for the whole body.

Price 50c per Bottle.
